Oswald Zoeggeler Oswald Zoeggeler, 1984 **Sacrifice and Rebirth** Mark Cornwall, John Paul Newman, 2016-01-01
When Austria Hungary broke up at the end of the First World War the sacrifice of one million men who had died fighting for the Habsburg monarchy now seemed to be in vain This book is the first of its kind to analyze how the Great War was interpreted commemorated or forgotten across all the ex Habsburg territories Each of the book's twelve chapters focuses on a separate region studying how the transition to peacetime was managed either by the state by war veterans or by national minorities This splintered war memory where some posed as victors and some as losers does much to explain the fractious character of interwar Eastern Europe *Modern Architecture and the Mediterranean* Jean-Francois Lejeune, Michelangelo Sabatino, 2009-12-04 Bringing to light the debt twentieth century modernist architects owe to the vernacular building traditions of the Mediterranean region this book considers architectural practice and discourse from the 1920s to the 1980s The essays here situate Mediterranean modernism in relation to concepts such as regionalism nationalism internationalism critical regionalism and postmodernism an alternative history of the modern architecture and urbanism of a critical period in the twentieth century South Tyrol Johan Niezing, 2017-09-29 South Tyrol a region in the heart of the Alps about half the size of Connecticut brings into sharp focus an important part of twentieth century history Tyrol a province that had been part of Austria for over 500 years and was almost totally German speaking was split in two after World War I and the southern part awarded to Italy as spoils of war The first phase to follow after the split of Tyrol was systematic subjection by the Italian Fascists of what had been a regional majority in South Tyrol but was now a minority within Italy In a second phase to gain an Italian majority the country was settled with Italians from the south who had a totally different mentality from the Italians residing in South Tyrol With the emergence of National Socialism in Germany and eventually with the Hitler Mussolini Agreement of 1939 a third phase emerged an experiment in ethnic cleansing called the Option Eighty six percent of all South Tyroleans agreed to leave South Tyrol and become citizens of Greater Germany After World War II the region was not returned to Austria South Tyrol became the first victim of the Cold War It took almost forty years of hard bargaining before South Tyrol was granted real autonomy in 1969 This resolution is now regarded as a model for solving minority conflicts Rolf Steininger traces the history of this troubled region during several periods 1918 1922 in which he covers the period from the division of Tyrol to the march on Bozen 1922 1938 in which he reviews fascist policy towards South Tyrol the Option of 1939 the resettlement and so called reunification from 1943 1945 South Tyrol's role as a bargaining chip in the Cold War and the Gruber Gasperi Agreement of 1946 and the volume closes with a discussion of the plan negotiated in 1969 for a new autonomy for South Tyrol that came to be known as the Package **The Architecture of James Stirling and His Partners James Gowan and Michael Wilford** Geoffrey H. Baker, 2016-12-05 Sir James Stirling was arguably the greatest British architect of the twentieth century This book provides the most comprehensive critical survey of Stirling's work to date

charting the development of his ideas from his formative years through his partnership with James Gowan on to his period in practice as sole partner and finally his partnership with Michael Wilford Using archival material extensive interviews with his partners and others who worked for him together with analytical examination of key buildings this detailed critical examination explains his philosophy working method and design strategy In doing so it sheds new light on the atelier structure of his office and who did what on his major buildings Geoffrey Baker is the first to analyse in depth the articulation systems used in major projects undertaken by Stirling He confirms that the Staatsgalerie complex at Stuttgart does not demonstrate Stirling s interest in post modernism but rather an enhanced sensitivity towards context informed by his growing allegiance to the classical canon Baker explains how this important development in his work powerfully influenced by Karl Friedrich Schinkel is consummated in perhaps the finest of Stirling s uncompleted works the extension to London s National Gallery In a discussion of his mature works Baker explains how Stirling s work can be understood in terms of several interconnected ideas These include surrealism historicism myth and metaphor inconsistency and ambiguity bilateral symmetry the garden rusticity and arcadia and the archetype seen as the repository of the collective architectural memory As well as discussing his interests and those who influenced Stirling the book compares his oeuvre with that of the pioneers of modern architecture Mies van der Rohe Frank Lloyd Wright Alvar Aalto and Le Corbusier This book charts a remarkable career and offers invaluable insights not only into the masterly timeless architecture but also into the man himself charismatic irreverent courageous serious sometimes rude often stubborn belligerent yet gentle He was endlessly inventive and deeply dedicated to his art producing buildings that reflect all of the above buildings that are magnificent and ultimately humane

South Tyrol Rolf Steininger, South Tyrol a region in the heart of the Alps about half the size of Connecticut brings into sharp focus an important part of twentieth century history Tyrol a province that had been part of Austria for over 500 years and was almost totally German speaking was split in two after World War I and the southern part awarded to Italy as spoils of war The first phase to follow after the split of Tyrol was systematic subjection by the Italian Fascists of what had been a regional majority in South Tyrol but was now a minority within Italy In a second phase to gain an Italian majority the country was settled with Italians from the south who had a totally different mentality from the Italians residing in South Tyrol With the emergence of National Socialism in Germany and eventually with the Hitler Mussolini Agreement of 1939 a third phase emerged an experiment in ethnic cleansing called the Option Eighty six percent of all South Tyroleans agreed to leave South Tyrol and become citizens of Greater Germany After World War II the region was not returned to Austria South Tyrol became the first victim of the Cold War It took almost forty years of hard bargaining before South Tyrol was granted real autonomy in 1969 This resolution is now regarded as a model for solving minority conflicts Rolf Steininger traces the history of this troubled region during several periods 1918 1922 in which he covers the period from the division of Tyrol to the march on Bozen 1922 1938 in which he reviews fascist policy towards South Tyrol the Option of 1939 the resettlement and so

called reunification from 1943-1945. South Tyrol's role as a bargaining chip in the Cold War and the Gruber-Grasberger Agreement of 1946 and the volume closes with a discussion of the plan negotiated in 1969 for a new autonomy for South Tyrol that came to be known as the Package Deal. Rolf Steininger is professor and head of the Institute of Contemporary History at the University of Innsbruck. He is European Union Jean Monnet Professor, senior fellow of the Eisenhower Center for American Studies of the University of New Orleans, board member of the European Community Studies Association and the author of numerous books, articles and television documentaries. *World Architecture*, 1997. *Finishing in Architecture* Paul Emmons, Marcia Feuerstein, Negar Goljan, 2025-06-30. *Finishing in Architecture* Polishing, Completing, Ending explores the topic of finishing and the fascinating physical and metaphysical implications of its various conceptions in architecture. Finishing is essential to all human practices and concepts of time, yet simultaneously it is largely impossible to identify an entirely finished state of being. As mortals, we organize our worlds into beginnings and endings, starts and finishes. Architecture's temporality, however, may contain something of both the mortal and immortal within it: a desire for permanence combined with lamentation over its impossibility. While many approaches to finishing construct two opposed ontological conditions, the finished and the unfinished, this dualistic ploy neglects the complexity of architectural practice, cultural reception and historiographic shifts in semiotics during the lifetime of a building. More nuanced approaches are examined in this collection of 38 essays and creative works from a diverse group of scholars, architects and artists who conceptualize finishing not simply as a final outcome but as an extended action, a mood that presumes an end is near all the while working continuously toward but never achieving completion. It is here that the concept of finishing is not a state of being but a state of becoming, as an active thickening of time when the end is thought to be imminent but not yet attained. Finishing, more than a final endpoint, is a void state that is extended through efforts framing its territory while never quite containing it. From the material to the procedural and the conceptual, this volume explores the practices of finishing in architecture within three currents: surfaces, projects and most broadly, architectural times. It will be of interest to students and instructors of architecture and design, architectural historians and other scholars. *L'Arsenale riordinato* Paola Gennaro, 1987. *The Routledge Companion to Italian Fascist Architecture* Kay Bea Jones, Stephanie Pilat, 2020-04-30. Today, nearly a century after the National Fascist Party came to power in Italy, questions about the built legacy of the regime provoke polemics among architects and scholars. Mussolini's government constructed thousands of new buildings across the Italian Peninsula and islands and in colonial territories. From hospitals, post offices and stadia to housing, summer camps, Fascist Party Headquarters, ceremonial spaces, roads, railways and bridges, the physical traces of the regime have a presence in nearly every Italian town. *The Routledge Companion to Italian Fascist Architecture* investigates what has become of the architectural and urban projects of Italian fascism, how sites have been transformed or adapted and what constitutes the meaning of these buildings and cities today. The essays include a rich array of new arguments by both senior and early career

scholars from Italy and beyond They examine the reception of fascist architecture through studies of destruction and adaptation debates over reuse artistic interventions and even routine daily practices which may slowly alter collective understandings of such places Paolo Portoghesi sheds light on the subject from his internal perspective while Harald Bodenschatz situates Italy among period totalitarian authorities and their symbols across Europe Section editors frame synthesize and moderate essays that explore fascism s afterlife how the physical legacy of the regime has been altered and preserved and what it means now This critical history of interpretations of fascist era architecture and urban projects broadens our understanding of the relationships among politics identity memory and place This companion will be of interest to students and scholars in a range of fields including Italian history architectural history cultural studies visual sociology political science and art history
