## **Oteizas Selected Writings:**

**Oteiza's Selected Writings** Jorge de Oteiza, 2003 Jorge Oteiza was one of the principal artists and art theorists of the twentieth century. The radical deconstructionism of his formal disoccupations of space considered by many a precursor of minimalism won him the 1957 Grand International Prize for Sculpture at the Sao Paulo Biennial, the most coveted prize for a sculptor at the time. Soon afterward, however, he concluded, "I no longer need my statues. I am no longer a sculptor." Oteiza then staged a second career as influential as the first as an art theorist, urbanist, architect, and cultural agitator, turning into a shamanic and controversial figure. His relentless aesthetic education of the Basques laid the culture groundwork for the building of the Guggenheim Museum in Bilbao. A precursor of the end of art and the ethnographic turn, Oteiza has been heralded by Frank Gehry and Richard Serra as one of the fundamental artists of our time. He is now being honored by a series of international exhibits.

**Behind the Masks of Modernism** Andrew Reynolds, Bonnie Roos, 2016-02-24 A wide-ranging collection that allows the mask as artifact, metaphor, theatrical costume, fetish, strategy for self-concealment, and treasured cultural object to clarify modernity's relationship to history. Carrie J. Preston, author of *Modernism's Mythic Pose: Gender, Genre, Solo Performance*. Covering an impressive range of geographies, cultures, and time periods, these carefully researched essays explore the fascinating role of masks and masking in mediating the relationship between tradition and modernity in both art and literature. Paul Jay, author of *The Humanities Crisis and the Future of Literary Studies*. *Behind the Masks of Modernism* reconsiders the meaning of modernism by taking an interdisciplinary approach and stretching beyond the Western modernist canon and the literary scope of the field. The essays in this diverse collection explore numerous regional, national, and transnational expressions of modernity through art, history, architecture, drama, literature, and cultural studies around the globe. Masks, both literal and metaphorical, play a role in each of these artistic ventures, from Brazilian music to Chinese film and Russian poetry to Nigerian masquerade performance. The contributors show how artists and writers produce their works in moments of emerging modernity, aesthetic sensibility, and deep societal transformations caused by modern transnational forces. Using the mask as a thematic focus, the volume explores the dialogue created through regional modernisms, emphasizes the local in describing universal tropes of masks and masking, and challenges popular assumptions about what modernism looks like and what modernity is.

**Space and Place: Exploring Critical Issues** Didem Kılıçkiran, Christina Alegria, Carl Haddrell, 2019-01-04 This volume was first published by Interdisciplinary Press in 2013. *Space and Place: Exploring Critical Issues* is an interdisciplinary study that offers new collaborative ideas on a variety of aspects of space and place, ranging from philosophies and semiotics of space and place to issues of gender, power, and surveillance, identity, home, belonging, performance, borders, and boundaries, and techniques of representation. It includes essays on philosophy, urban studies, the visual and creative arts, anthropology, gender studies, education, and literary studies. Essays explore the nature of how we conceive, construct, interpret, practice, perceive, and represent space and place with

reference to diverse theoretical frameworks as well as case studies from different places around the globe and address a wide audience of scholars and researchers interested in stories and histories of spaces and places

**Conceptualism in Latin American Art** Luis Camnitzer, 2007-07-01 Conceptualism played a different role in Latin American art during the 1960s and 1970s than in Europe and the United States where conceptualist artists predominantly sought to challenge the primacy of the art object and art institutions as well as the commercialization of art Latin American artists turned to conceptualism as a vehicle for radically questioning the very nature of art itself as well as art's role in responding to societal needs and crises in conjunction with politics poetry and pedagogy Because of this distinctive agenda Latin American conceptualism must be viewed and understood in its own right not as a derivative of Euroamerican models In this book one of Latin America's foremost conceptualist artists Luis Camnitzer offers a firsthand account of conceptualism in Latin American art Placing the evolution of conceptualism within the history Latin America he explores conceptualism as a strategy rather than a style in Latin American culture He shows how the roots of conceptualism reach back to the early nineteenth century in the work of Simón Rodríguez Simón Bolívar's tutor Camnitzer then follows conceptualism to the point where art crossed into politics as with the Argentinian group Tucumán arde in 1968 and where politics crossed into art as with the Tupamaro movement in Uruguay during the 1960s and early 1970s Camnitzer concludes by investigating how after 1970 conceptualist manifestations returned to the fold of more conventional art and describes some of the consequences that followed when art evolved from being a political tool to become what is known as political art
