Addresses: One Jesuit's spiritual journey Pedro Arrupe, 1979

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

The Laity as Participants in the Mission of the Church Humphrey C. Anameje, 2017-06-05 The church is made up of both the clergy and the laity And for it to properly fulfill the mission for which it was instituted by Christ all its members each according to his or her God given gift must contribute both to the upbuilding of the church and to its mission On the part of the laity their active participation in the general mission of the church ad intra and ad extra has been a great challenge in the life and practice of the church throughout its history The Second Vatican Council in its spirit of aggiornamento makes some positive difference This work critically examines the conciliar documents some relevant postconciliar documents and theological reflection of some theologians And finally it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular

Living Mission Interculturally Anthony J. Gittins, 2015-08-28 Our globalized world increasingly brings together people of many different cultures though not always harmoniously In recent decades multinational companies have sought more efficient strategies for authentic intercultural collaboration But in today's multicultural world church faith communities too from local parishes to international religious communities are faced with the challenge of intercultural living The social sciences have developed some constructive approaches but people of faith also need to build their endeavors on a sound biblical and theological foundation Living Mission Interculturally integrates sociology anthropology with practical theology reminds us that good will alone is not enough to effect change and points to a way of intercultural living underpinned by faith virtue and a range of new and appropriate skills

The Eucharist as Oríkọṣọ Damian Onwuegbuchulam Eze, 2008 In this book the author relying on the research he carried out in Igboland Nigeria leads us to see the action of God's grace already active in the Igbo religious culture called Omenala Ndigbo before the coming of Christian missionaries and how these cultural values have prepared the

people to receive the Gospel But as he points out these cultural values on which the Christian message ought to have been built from the beginning were grossly misunderstood and neglected The Igbo people are now mainly Christians But because the Gospel has not yet become their culture some of them have double allegiance to the doctrines of the Church and to the practices of Omenala Ndigbo The author opines that to build the Catholic Church in Igboland on a solid foundation the Eucharist must take the central place since the Eucharist makes the Church and is the source and summit of the life of the Church Thus the work which uses the analytical and hermeneutical method known as inculturation is on Eucharistic Ecclesiology from an Igbo perspective and will be useful for the Church both at the local and universal levels for self understanding and renewal ecumenism dialogue and mission

Courage and Conviction Anthony J. Gittins, 2018-01-15 Today many Christians concerned and challenged by contemporary trends in society and religion are bewildered and perhaps tempted to leave the Church and manage on their own Courage and Conviction is addressed to discerning adult Christians who seek something between high theology and pious platitudes Ranging from consideration of Christian identity via the challenge of faith filled living in a world of diversity to suggestions for mature discipleship today these reflections building on Scripture studies cultural anthropology and life experience are offered by way of support encouragement and perhaps further enlightenment

Morality Truly Christian, Truly African Paulinus Ikechukwu Odozor C.S.Sp., 2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the

relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of the development of African Christian theology Odozor examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in *Morality Truly Christian Truly African* *Toward a Theology of Inculturation* Aylward Shorter, 2006-01-30 Inculturation is a word come only recently into theological language having its origin and impetus in a revolution in the perception of Christian mission even of Christian identity *Toward a Theology of Inculturation* is the first book to bring together the many strands of current and historical Catholic thought on what might be called a theology of a multicultural church Inculturation Shorter argues is the recognition that faith must in effect become culture to be fully received and lived In the course of a wide ranging discussion the author explores the intimate relationship between inculturation and theology focusing in particular on scripture the history of missions especially in Africa and contemporary Catholic thought Shorter concludes with an exploration of the future of the church a multicultural church *Toward a Theology of Inculturation* offers a substantive explication of what inculturation is what it is not how and when it occurs and what its limits are or should be **Charged with Grandeur** Jim Manney, 2011-11-01 Sparks for Inspiration from the Ignatian Flame Gerard Manley Hopkins SJ famously wrote that the world is charged with the grandeur of God This quote points toward a key principle of the Ignatian tradition that God is found in all things in all places Yet this is just one of an abundance of inspirational ideas that stem from Ignatian spirituality To really understand what this unique yet highly practical spirituality is all about it helps to look at it through many different lenses and to hear about it from many different voices *Charged with Grandeur* contains more than 100 insightful and inspiring Ignatian thoughts from dozens of writers including James Martin SJ Margaret Silf and Monika Hellwig The entries are conveniently grouped under 11 different Ignatian themes Rather than throw readers into the deep end *Charged with Grandeur* allows readers simply to dip their toes into the 500 year old Ignatian tradition and to be inspired by the many riches it offers *The Jesuits* Markus Friedrich, 2022-03 Since its founding by Ignatius of Loyola in 1540 the Society of Jesus The Jesuits has been intimately involved in the unfolding of the modern world The young Jesuit order played a crucial role in the Counter Reformation especially in Poland southern Germany and several other parts of Europe The Jesuits were also participants in the establishment and spread of European empires engaging in missionary activity in east

and south Asia in the 16th and 17th centuries and becoming central to the spreading of Christianity in the New World At the same time Jesuits often tangled with the Roman curia and the Pope leading to the suppression of the Jesuits in 1773 After the subsequent restoration of the order in 1814 the Jesuits continued to be leaders in Catholic education and theology In 2013 Jorge Bergoglio became the first Jesuit Pope taking the name Pope Francis I In this book Markus Friedrich presents the first comprehensive account of the Jesuits from a non Catholic perspective Drawing on his expertise as a historian of the early modern world Friedrich situates the Jesuit order within the wider perspective of European history In particular he places the Jesuits in the context of social cultural and imperial history showing that the Jesuits were not monolithic but rather were very sensitive to local context and that the order s core texts especially Ignatius s Spiritual Exercises were templates to engage with rather than instructions manuals to be followed slavishly

The Mind of Pope Francis Massimo Borghesi, 2018-08-15

A commonly held impression is that Pope Francis is a compassionate shepherd and determined leader but that he lacks the intellectual depth of his recent predecessors Massimo Borghesi s *The Mind of Pope Francis* Jorge Mario Bergoglio s Intellectual Journey dismantles that image Borghesi recounts and analyzes for the first time Bergoglio s intellectual formation exploring the philosophical theological and spiritual principles that support the profound vision at the heart of this pope s teaching and ministry Central to that vision is the church as a *coincidentia oppositorum* holding together what might seem to be opposing and irreconcilable realities Among his guiding lights have been the Jesuit saints Ignatius and Peter Faber philosophers Gaston Fessard Romano Guardini and Alberto Methol Ferrer and theologians Henri de Lubac and Hans Urs von Balthasar Recognizing how these various strands have come together to shape the mind and heart of Jorge Mario Bergoglio offers essential insights into who he is and the way he is leading the church Notably this groundbreaking book is informed by four interviews provided to the author via audio recordings by the pope himself on his own intellectual formation major portions of which are published here for the first time
