Kuczaj,2012-12-06 For some time now the study of cognitive development has been far and away the most active discipline within developmental psychology Although there would be much disagreement as to the exact proportion of papers published in develop mental journals that could be considered cognitive 5090 seems like a conservative estimate Hence a series of scholarly books devoted to work in cognitive devel opment is especially appropriate at this time The Springer Series in Cognitive Development contains two basic types of books namely edited collections of original chapters by several authors and original volumes written by one author or a small group of authors The flagship for the Springer Series is a serial publication of the advances type carrying the subtitle Progress in Cognitive Development Research Each volume in the Progress sequence is strongly thematic in that it is limited to some well defined domain of cognitive developmental research e g logical and mathematical development development of learning All Progress volumes will be edited collections Editors of such collections upon consultation with the Series Editor may elect to have their books published either as contributions to the Progress sequence or as separate volumes All books written by one author or a small group of authors are being published as separate volumes within the series **Mindmelding** William Hirstein,2012-01-26 In this important and controversial new book William Hirstein argues that it is possible for one person to directly experience the conscious states of another by way of what he calls mindmelding Drawing on a range of research from neuroscience psychology and philosophy he presents a highly original new account of consciousness *A Community of One* Martin A.

Danahay,1993-08-24 Complementing recent feminist studies of female self representation this book examines the dynamics of masculine self representation in nineteenth century British literature Arguing that the category autobiography was a product of nineteenth century individualism the author analyzes the dependence of the nineteenth century masculine subject

on autonomy or self naming as the prerequisite for the composition of a life history The masculine autobiographer achieves this autonomy by using a feminized other as a metaphorical mirror for the self The feminized other in these texts represents the social cost of masculine autobiography Authors from Wordsworth to Arnold including Samuel Taylor Coleridge Thomas De Quincey John Ruskin Alfred Tennyson Robert Louis Stevenson John Stuart Mill and Edmund Gosse use female lovers and family members as symbols for the community with which they feel they have lost contact In the theoretical introduction the author argues that these texts actually privilege the autonomous self over the images of community they ostensibly value creating in the process a self enclosed and self referential community of one

Thinking with Kierkegaard Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity

Jung, Irigaray, Individuation Frances Gray, 2007-11-23 How do philosophy and analytical psychology contribute to the mal figuring of the feminine and women Does Luce Irigaray's work represent the possibility of individuation for women an escape from masculine projection and an affirming re figuring of women And what would individuation for women entail This work postulates a novel and unique relationship between Carl Jung and Luce Irigaray Its central argument that an ontologically different feminine identity situated in women's embodiment women's genealogy and a women's divine is possible develops and re figures Jung's notion of individuation in terms of an Irigarayan woman centred politics Individuation is re thought as a politically charged issue centred around sex gendered difference focussed on a critique of Jung's conception of the feminine The book outlines Plato's conception of the feminine as disorder and argues that this conception is found in Jung's notion of the anima feminine It then argues that Luce Irigaray's work challenges the notion of the feminine as disorder Her mimetic adoption of this figuring of the feminine is a direct assault on what can be understood as a culturally dominant Western understanding Luce Irigaray argues for a feminine divine which will model an ideal feminine just as the masculine divine models a masculine ideal In making her claims Luce Irigaray the book argues is expanding and elaborating Jung's idea of individuation Jung Irigaray Individuation brings together philosophy analytical psychology and psychoanalysis

in suggesting that Luce Irigaray's conception of the feminine is a critical re-visioning of the open-ended possibilities for human being expressed in Jung's idea of individuation. This fresh insight will intrigue academics and analysts alike in its exploration of the different traditions from which Carl Jung and Luce Irigaray speak. **Psychoanalytic Approaches With the Hostile and Violent Patient** Herbert S.
