Mbabazi underwent removal of the womb in 2020 at the age 27

By Hedwig Arimaitwe

A 2021 report by World Health Organization shows that about 287,000 women died during and following pregnancy and childbirth in 2020 worldwide. Doreen Mbabazi is one of the survivors of maternal complications trauma, and now she wants to save more women.

"I am celebrating my 30th birthday this December and for me it feels like a testament of

victory."

Mbabazi underwent hysterectomy (removal of the womb) in 2020 at 27 years-of age, due to after birth complications, but today she wears a vibrant smile of hope for others.

Mbabazi was traditionally married to her husband and they lived a happy life until her Labour day came. Like any other woman ready to deliver, Mbabazi left home excited, hopeful, and ready to give her baby. When time came and she started to push, she —Continued on Pg 2

Access to reproductive healthcare a challenge for women with disabilities

By Sarah Nakasege

Betty Kwagala, a mother of two, is an advocate of positive people living with a disability. Her story is that of pain, resilience and positivity. Kwagala was born a healthy child, she had no disability. At the age of 11, something unexpected happened. She was returning from school one day and felt sudden, sharp headache and excruciating pain on her legs. She struggled to get home and her parents immediately rushed her to the hospital for medical attention. By then she could no longer stand on her own.

Several tests carried out at did not indicate any signs of polio. After a while, Kwagala

says her right leg started losing strength and ended in shape. She now uses crutches and sometimes wheelchair when she feels fatigued.

Her education

Because of the pain and trauma parents whose children are living with disability go through, Kwagala's father lost hope and didn't see any reason for his daughter to continue going to school. He planned to share part of his inheritance with Kwagala as her source of livelihood.

But Kwagala had bigger dreams, she wanted

Xenophon's Other Voice Yun Lee Too, 2021-08-26 This volume explores irony in its essence saying other than one actually means in the collected works of Xenophon Xenophon's Other Voice argues that there are two voices in the author one ostensible at the level of the literal text which is available to everyone while the sub title designates the other voice which is less obvious to the reader and indeed an ironic one It presents a unified view of the author's entire corpus and argues that the function of Xenophonic irony is to offer critiques of the societies in which he finds himself Rejecting both non ironic and Straussian interpretations of Xenophon's writings Yun Lee Too offers a wholly original perspective on the contemporary debate of how he should be read which is underpinned by a series of incisive readings of the individual works Beginning with Xenophon's representation of an ironic Socrates who condemns the contemporary city and its more prominent citizens the book moves on to consider how the author develops his own approach to irony He deploys irony to criticize aspects of Athenian society such as its understanding of wealth its armed forces and sophistic education The book then turns to his treatment of other Hellenic societies including the Spartan city state and laws kingship in Syracuse and war amongst the Greek states It finally considers Persia covering Xenophon's depiction of Cyrus the Great and the expedition with Cyrus the Younger

Lives of the Voice Hans Ulrich Gumbrecht, 2025-04-15 When it comes to understanding the ontology of individual existence that is the everyday behaviors

that we all perform and hardly ever think about the voice has a particularly complicated status Together with writing voice is the medium expressing ideas that broadly speaking we have previously formed in our minds At the same time voices trigger vague images and associations that do not have determinate forms Writing in both a personal and philosophical register Hans Ulrich Gumbrecht explores the complexity of the voice as an understudied philosophical social and existential phenomenon He starts out with a focus on its core intellectual problem as the knot of the voice referring to the inseparable proximity between meanings images and the physical perceptions on which they depend In conversation with Nietzsche Husserl Heidegger Derrida Lyotard Luhmann and above all Roland Barthes Gumbrecht addresses topics that range from the social functions of the voice to its status in different historical contexts and to the ways in which the perception of voices animates imagination Throughout incisive analyses of moments such as Julius Caesar's purportedly high pitched voice the surprisingly fragile authority of God's voice in the Torah and in the Gospel and Gumbrecht's own personal attachment to the voices of popular singers such as Edith Piaf Elvis Presley and Adele create a portrait of the voice that is both philosophically challenging and entertaining to read

Sonic Studies in Educational Foundations Walter S. Gershon, Peter M. Appelbaum, 2019-12-09 Originally published as a special issue of Educational Studies this volume demonstrates the ways in which sound considerations can significantly contribute to educational foundations Regardless of their origin or interpretation sounds are theoretically and practically foundational to educational experiences As the means through which knowledges are passed from one person to another sounds outline the fluid porous boundaries of educational ecologies This book draws out and expands upon the already present sonic metaphors that exist at the center of philosophical and historical foundations of educational studies Contributions demonstrate the ethical dimensions of this line of inquiry emphasizing the need for education to offer both a right to speak and to be heard in order to take on a truly democratic character By highlighting emerging attention to sound scholarship in education contributors attend to and otherwise explore sound possibilities for educational theory policy and practice This book will be of great interest to graduate and post graduate students libraries researchers and academics in the field of educational foundations philosophy of education education politics and sociology of education

Twenty-First-Century French and Spanish Women's Writing** Hannie Lawlor, 2024-08-28 Relational Responses to Trauma
in Twenty First Century French and Spanish Women s Writing offers new insight into what it means to write relational lives It
broadens the parameters of existing discussions in terms of geography as well as genre drawing together two literatures
whose prominence in life writing theory to date could hardly be more different while French women s writing has long been
at the centre of international discussions of autobiography the relative invisibility of Spanish women s writing remains
striking The dialogue that thus underpins this study between diverse twenty first century case studies and broader
approaches to life writing shines a light on what is gained from inviting different voices into the discussion These narrative
projects challenge longstanding critical assumptions in autobiography studies and trauma theory about how writers can and
should represent the multiple perspectives that are at the heart of intergenerational stories In exploring the narrative
solutions that these texts propose in response to the ethical questions they navigate this book shows that writing relational
lives rests on far more than the mere recounting of a shared history Relating in these texts it proposes is an act embedded in
the telling of the story It is a mode of testifying together to traumatic experience one that reveals a powerful preoccupation
in contemporary women s life writing practice with making more audible the many voices and versions that go unheard

Goetschel, 2019-02-21 Heinrich Heine s role in the formation of Critical Theory has been systematically overlooked in the
course of the successful appropriation of his thought by Marx Nietzsche Freud and the legacy they left in particular for
Adorno Benjamin and the Frankfurt School This book examines the critical connections that led Adorno to call for a
reappraisal of Heine in a 1948 essay that published posthumously remains under examined Tracing Heine s Jewish difference
and its liberating comedy of irreverence in the thought of the Frankfurt School the book situates the project of Critical
Theory in the tradition of a praxis of critique which Heine elevates to the art of public controversy Heine s bold linking of
aesthetics and political concerns anticipates the critical paradigm assumed by Benjamin and Adorno Reading Critical Theory
with Heine recovers a forgotten voice that has theoretically critical significance for the formation of the Frankfurt School
With Heine the project of Critical Theory can be understood as the sustained effort to advance the emancipation of the
affects and the senses at the heart of a theoretical vision that recognizes pleasure as the liberating force in the fight for

freedom *Mikhail Bakhtin* Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin's own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin's thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive *The Complete Writings of an Italian Heretic* Olympia Morata, 2007-11-01 Winner of the 2004 Josephine Roberts Edition Prize from the Society for the Study of Early Modern Women A brilliant scholar and one of the finest writers of her day Olympia Morata 1526-1555 was attacked by some as a Calvinist Amazon but praised by others as an inspiration to all learned women This book publishes for the first time all her known writings orations dialogues letters and poems in an accessible English translation Raised in the court of Ferrara in Italy Morata was educated alongside the daughters of the nobility As a youth she gave public lectures on Cicero wrote commentaries on Homer and composed poems dialogues and orations in both Latin and Greek She also became a prominent Protestant evangelical studying the Bible extensively and corresponding with many of the leading theologians of the Reformation After fleeing to Germany in search of religious freedom Morata tutored students in Greek and composed what many at the time felt were her finest works a series of translations of the Psalms into Greek hexameters and sapphics Feminists and historians will welcome these collected writings from one of the most important female humanists of the
