*Postinternationalism and the Rise of Heterarchy* Ramjit, Dana-Marie, 2024-10-03. The traditional concept of the nation state as the key player in global affairs is being challenged by the forces of globalization, technological progress and new forms of governance. These shifts are introducing complexities and uncertainties into international relations which are leaving scholars, policymakers and students struggling to keep up with the evolving landscape. The concepts of postinternationalism and heterarchy present promising but largely unexplored frameworks for understanding these dynamics, making a comprehensive resource to navigate this transformation an urgent necessity. *Postinternationalism and the Rise of Heterarchy* addresses the need to examine postinternationalism and heterarchy as alternative frameworks thoroughly. It compiles chapters that explore theoretical perspectives, empirical case studies and practical implications across disciplines like political science, international relations, sociology, economics and law. The book provides a nuanced understanding of the reconfiguration of power and governance in the modern world by investigating the impact of non-state actors, technology, global economic trends and transnational social movements.

**The Effects of Globalization in Latin America, Africa, and Asia** Kema Irogbe, 2014-05-01. In *The Effects of Globalization in Latin America, Africa and Asia*, Kema Irogbe argues that the forces of globalization, which include the IMF, World Bank, WTO and Western media technology, are subordinated to the interests of multinational corporations under the tutelage of a lone superpower, strangling the development efforts of poor countries. Irogbe subjects the operations and the existing relationships among these international governmental and

nongovernmental actors to the test of empirical reality and logical plausibility by drawing from the experiences of a varied selection of marginalized countries such as Venezuela Guatemala Mexico Brazil in Latin America Nigeria South Africa and Ghana in Africa and Iraq Iran India Afghanistan and Vietnam in Asia The book argues that globalization is a sophisticated lexicon for the pursuit of a homogenized political economic and cultural world order which is a recipe for unending global crises
