Punishment and Prisons Joe Sim, 2009-06-10 Punishment and Prisons is a scholarly powerful and inspirational critique With passion and humanity Joe Sim strips neo liberal penal policies of their reformist pretensions and demonstrates that prisons will continue to be brutal enforcers of gross economic inequalities until such time as the abolitionist alternative is realised Pat Carlen Joe Sim has long occupied a key position in British and European criminology This book is a genuinely important addition to the literature it is controversial and will stimulate debate Punishment and Prisons shows that critical criminology is alive that it has a voice and that it needs to be read Peter Young Professor of Criminology University of Hull A satisfyingly uncompromising critique that has no fear of coming to clear conclusions and provides little succour to those satisfied with short term change in the current system Sim provides the kind of concise articulate and powerful critique of apparent criminological realities which is necessary to motivate genuine reform and can help to ensure that practitioners and others do not forget the big picture Probation Journal Joe Sim offers a rich and persuasive analysis of imprisonment providing a wealth of political and policy detail He makes his reader confront the cruelties of imprisonment as well as its ineffectiveness in reducing crime and it would surely be impossible to read this book without feeling profound disquiet about the deployment of the power to punish in contemporary Britain Punishment and Prisons has a breadth and depth of scholarship arguing powerfully for a more critical criminology

and an abolitionist stance towards imprisonment I urge all those interested in penal policy whether as students teachers researchers reformers politicians or penal professionals to read this important and disturbing book Professor Barbara Hudson Centre for Criminology and Criminal Justice Studies University of Central Lancashire With prisons overflowing and penal policy the topic of hot debate *Punishment and Prisons Power and the Carceral State* presents a lively and accessible discussion of possible solutions to the current crisis by one of the foremost scholars in the field Joe Sim traces the development of penal strategy over the past three decades through a critical analysis of the relationship between penal policy and state power Exploring the contested histories of punishment that are prominent in criminology and its development in penal policy the book analyses four key dimensions of modern penal trends continuity and discontinuity in penal policy and practice reform and rehabilitation contesting penal power abolitionism Articulate innovative and theoretically informed *Punishment and Prisons Power and the Carceral State* offers a critical overview of contemporary penal politics that will prove a compelling addition to the criminological library The book is written for not only for students and academics but also for those involved in the debates on penal policy including prison reform groups politicians and the media It offers a series of suggestions for alleviating the current crisis setting out a policy agenda for transforming the role and place of the prison in the criminal justice system

become a classic Thatcher's Secret War Clive Bloom,2021-08-02 Scary but enlightening Christopher Stone Margaret Thatcher remains one of the United Kingdom s most polarising prime ministers This provocative investigation sheds light on the secret internal cold war that she waged against the enemy within everyone she could not see eye to eye with It was a campaign fuelled by paranoia on both the left and right of the political spectrum and fought with corruption black propaganda dirty tricks and even murder Expertly juxtaposing notable events with today s political arena this new and updated edition of Thatcher s Secret War surmises that although Thatcher s ideals seem to have vanished one remains the power and importance of the extra parliamentary state and its surveillance methods and hidden powers in a new age of terrorism Transnational Anti-Communism and the Cold War Stéphanie Roulin,Giles Scott-Smith,2014-04-22 How was anti communism organised in the West This book covers the agents aims and arguments of various transnational anti communist activists during the Cold War Existing narratives often place the United States and especially the CIA at the centre of anti communist activity The book instead opens up new fields of research transnationally **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1976 *The Immorality of Limiting Growth* Edward Walter,1981-06-30 The Industrial Age has ended according to no growth futurism because the finitude of the earth has been reached Its proponents maintain that technological innovation cannot save industrial society because of pollution over population and inflation They call for a transformed society in which productivity pollution and population growth are strictly controlled This volume emphatically challenges the no growth viewpoint on both philosophical and empirical grounds In it Edward Walter demonstrates that the interests of those who are socially deprived cannot be fulfilled in a steady state because the privileged classes are able to use their power to prevent redistribution of wealth and to retain their advantages Far from equating technology with pollution and the depletion of natural resources Walter sees it as the means by which resource shortages can be overcome and pollution control can be achieved He describes and recommends an essential liberalism that could provide economic development to all classes in a spirit of international cooperation without necessitating the transformation of human nature and political institutions **Thinker, Faker, Spinner, Spy** David Miller,William Dinan,2007-06-20 The public relations industry is not just about celebrity gossip This book shows how whenever big business is threatened spin doctors lobbyists think tanks and front groups are on hand to push the corporate interest often at the public s expense Written by leading activists and writers this book reveals the secrets of the PR trade including deception the use of fake institutes spying and dirty tricks The impact can be devastating when the public is denied access to the truth the results are rising inequality and environmental catastrophe Exposing the misdeeds of famous companies including Coca Cola British Aerospace Exxon and Monsanto and revealing information about the covert funding of various apparently independent think tanks and institutes the authors offer a guide to campaigns that can help us roll back corporate power and resist deceptive PR

Security Expertise Trine Villumsen Berling,Christian Bueger,2015-04-10 This volume brings together scholars from

different fields to explore the power consequences and everyday practices of security expertise Expertise mediates between different forms of knowledge scientific and technological legal economic and political knowledge This book offers the first systematic study of security expertise and opens up a productive dialogue between science and technology studies and security studies to investigate the character and consequences of this expertise In security theory the study of expertise is crucial to understanding whose knowledge informs security making and to reflect on the impact and responsibility of security analysis In science and technology studies the study of security politics adds a challenging new case to the agenda of research on expertise and policy The contributors investigate cases such as academic security studies security think tanks the collaboration between science anthropology and the military transnational terrorism and the ethical consequences of security expertise Together they challenge our understanding of how expertise works and what consequences it has for security politics and international relations This book will be of particular interest to students of critical security studies sociology science and technology studies and IR security studies in general
