## **Other Side Of Middletown Exploring Muncie's African American Community:**

The Other Side of Middletown Luke E. Lassiter, 2004 Prompted by the overt omission of Muncie's black community from the famous community study by Robert S. Lynd and Helen Merrell Lynd *Middletown: A Study in Modern American Culture* the authors initiated this project to reveal the unrecorded historical and contemporary life of Middletown, a well-known pseudonym for the Midwestern city of Muncie, Indiana. As a collaboration of community and campus, this book recounts the early efforts of Hurley Goodall to develop a community history and archive that told the story of the African American community and rectify the representation of small town America as exclusively white. The authors designed and implemented a collaborative ethnographic field project that involved intensive interviews, research, and writing between community organizations, local experts, ethnographers, and teams of college students. This book is a unique model for collaborative research, easily accessible to students. It will be a valuable resource for instructors in anthropology, creative writing, sociology, community research, and African American studies.

The Chicago Guide to Collaborative Ethnography Luke Eric Lassiter, 2024-05-31 Collaboration between ethnographers and subjects has long been a product of the close, intimate relationships that define ethnographic research. But increasingly, collaboration is no longer viewed as merely a consequence of fieldwork; instead, collaboration now preconditions and shapes research design as well as its dissemination. As a result, ethnographic subjects are shifting from being informants to being consultants. The emergence of collaborative ethnography highlights this relationship between consultant and ethnographer, moving it to center stage as a calculated part not only of fieldwork but also of the writing process itself. *The Chicago Guide to Collaborative Ethnography* presents a historical, theoretical, and practice-oriented road map for this shift from incidental collaboration to a more conscious and explicit collaborative strategy. Luke Eric Lassiter charts the history of collaborative ethnography from its earliest implementation to its contemporary emergence in fields such as feminism, humanistic anthropology, and critical ethnography. On this historical and theoretical base, Lassiter outlines concrete steps for achieving a more deliberate and overt collaborative practice throughout the processes of fieldwork and writing. As a participatory action situated in the ethical commitments between ethnographers and consultants and focused on the co-construction of texts, collaborative ethnography argues, Lassiter is among the most powerful ways to press ethnographic fieldwork and writing into the service of an applied and public scholarship. A comprehensive and highly accessible handbook for ethnographers of all stripes, *The Chicago Guide to Collaborative Ethnography* will become a fixture in the development of a critical practice of anthropology invaluable to both undergraduates, graduate students, and faculty alike.

*The Death and Life of Main Street* Miles Orvell, 2012-10-01 For more

than a century the term Main Street has conjured up nostalgic images of American small town life. Representations exist all around us from fiction and film to the architecture of shopping malls and Disneyland. All the while the nation has become increasingly diverse exposing tensions within this ideal. In *The Death and Life of Main Street* Miles Orvell wrestles with the mythic allure of the small town in all its forms illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity especially in times of crisis. Orvell underscores the fact that Main Street was never what it seemed it has always been much more complex than it appears as he shows in his discussions of figures like Sinclair Lewis Willa Cather Frank Capra Thornton Wilder Margaret Bourke White and Walker Evans. He argues that translating the overly tidy cultural metaphor into real spaces as has been done in recent decades especially in the new urbanist planned communities of Elizabeth Plater Zykberk and Andres Duany actually diminishes the communitarian ideals at the center of this nostalgic construct. Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small town ideology and life.
