The background is a dark, starry night sky filled with numerous small white stars. A vibrant blue and teal aurora borealis-like light streaks across the upper portion of the sky. The Masters Speak, Twenty-Seven Dialogues, The Himalayan Journals M.G. Hawking, 2025-08-29

The dialogues presented in this book are transcribed from explorer M G Hawking's journals chronicling his conversations with extraordinary men and women he encountered in a remote region of the Himalayas allowing readers to experience first hand their expressions of the fundamental knowledge essential principles of consciousness and specific practices that can

enable extraordinary perceptive abilities and powers

Reviews What a rare resource Hawking brings together an important anthology from an amazing number of adepts masters with whom he engaged during a five year trip to the Himalayas I took pages of notes highly beneficial for anyone on the path to enlightenment Nothing else like this out there Absolutely mind blowing I am a long time student of the occult and this book s knowledge far surpasses anything I have ever read in over 50 years of reading Made abstract concepts clear Truly life changing for me

Masters Speak is an amazing read the book is riveting From the author The knowledge and techniques presented in this book arise directly from the esoteric teachings of profoundly enlightened individuals If studied with patience and fully integrated into your core belief system these teachings will lay the foundation necessary to enable you to acquire very unique abilities Yet nothing explained in this volume is supernatural or beyond the ability of a properly equipped individual These abilities are not miracles Quite the contrary They do not require any capacities that are not inherent in the human species as a whole if those capacities are properly recognized and developed These discourses are intended for those whose passion for knowledge has instilled an enduring aspiration to see things whole to pursue the deepest understanding of consciousness and our true place and power in the Universe

M G Hawking For untold millenniums this knowledge has been known only to a privileged few revelations long concealed from the world at large As entertaining as it is enlightening this is an incomparable book for anyone on a spiritual path or seeking greater knowledge and personal power

Revitalizing Entrepreneurship

Education Karin Berglund,Karen Verduyn,2018-01-19 Within mainstream scholarship it s assumed without question that entrepreneurship and entrepreneurship education are desirable and positive economic activities Drawing on a wide range of theoretical approaches and political philosophical perspectives critical entrepreneurship studies has emerged to ask the questions which this assumption obscures Students of entrepreneurship need to understand why and how entrepreneurship is seen as a moral force which can solve social problems or protect the environment or even to tackle political problems It is time to evaluate how such contributions and insights have entered our classrooms How much if any critical discussion and insight enters our classrooms How do we change when students demand to be taught how to do it not to be critical or reflexive If educators are to bring alternative perspectives into the classroom it will entail a new way of thinking There is a need to share ideas and practical approaches and that is what the contributions to this volume aim to do and to illuminate new ways forward in entrepreneurship education

Global Anglophone Poetry Omaar Hena, 2015-08-05 Poetry's relevancy as a tool for social and political change continues to be overlooked in a global context Looking to writers as diverse as Derek Walcott Paul Muldoon and Daljit Nagra Hena shows that poets throughout the world have reinvigorated older poetic traditions to address political realities and the sweeping pressures of modernity

Wolfcry Amelia Atwater-Rhodes, 2008-12-23 Oliza Sharda Cobriana is heir to Wyvern's Court home of the avians and serpents whose war with each other ended just before Oliza was born But hatred is slow to die and not everyone likes the expressive way in which Urban a serpent dancer is courting Oliza especially not Marus her reserved avian suitor And when Urban is found beaten in avian land Oliza is filled with despair How can she be expected to lead a unified society if her people still cannot live peacefully together Before Oliza can try to mend the rift in Wyvern's Court she is kidnapped by mercenaries who take her deep into wolves territory As Wyvern princess all Oliza has ever wanted is to see a future where she can find love and take a mate without inciting another war The time is now She owes it to her people and to herself

American Jewish Loss after the Holocaust Laura Levitt, 2007-11-01 Many of us belong to communities that have been scarred by terrible calamities And many of us come from families that have suffered grievous losses How we reflect on these legacies of loss and the ways they inform each other are the questions Laura Levitt takes up in this provocative and passionate book An American Jew whose family was not directly affected by the Holocaust Levitt grapples with the challenges of contending with ordinary Jewish loss She suggests that although the memory of the Holocaust may seem to overshadow all other kinds of loss for American Jews it can also open up possibilities for engaging these more personal and everyday legacies Weaving in discussions of her own family stories and writing in a manner that is both deeply personal and erudite Levitt shows what happens when public and private losses are seen next to each other and what happens when difficult works of art or commemoration such as museum exhibits or films are seen alongside ordinary family stories about more intimate losses In so doing she illuminates how through these ordinary stories we may create an alternative model for confronting Holocaust memory in Jewish culture
