**To Know Our Many Selves** Dirk Hoerder, 2010 To Know Our Many Selves profiles the history of Canadian studies which began as early as the 1840s with the Study of Canada. In discussing this comprehensive examination of culture, Hoerder highlights its unique interdisciplinary approach which included both sociological and political angles. Years later as the study of other ethnicities was added to the cultural story of Canada, a solid foundation was formed for the nation's master narrative. Against this background, To Know Our Many Selves focuses on why Canadian studies can be used as a sound model for the study of other societies in a framework of transcultural societal studies.

**Canada's Department of External Affairs: Coming of age, 1946-1968** John Hilliker, Donald Barry, 1990 The second volume of the official history of the Department of External Affairs, Coming of Age, covers a period of remarkable expansion and achievement in Canadian external relations.

*The Good Fight* Brendan Kelly, 2019-11-01 Before official bilingualism was established in 1969, francophones were scarce in the Canadian public service. Marcel Cadieux was one of the few becoming arguably the most important francophone diplomat and civil servant in Canadian history. Brendan Kelly's insightful entertaining biography draws on extensive archival research and interviews to reveal a complex figure. Cadieux held the nationalist views of many young French Canadians in the 1930s yet he made the distinctly unconventional decision to join the Department of External Affairs in 1941. Public service became the vocation of this blunt, funny, strong-minded and sometimes undiplomatic diplomat. Against the backdrop of rising Quebec separatism and the Cold War, he headed the department from 1964 to 1970 and served as Canada's first francophone ambassador to the United States from 1970 to 1975. Cadieux's profound belief in the dignity of service speaks eloquently to readers today when professionalism and expertise are often undervalued.

*Envoys Extraordinary* Margaret K. Weiers, 1995-11 This is not a book about foreign policy. It is a book about women who stayed the course and are still on it, influencing, developing, shaping and implementing Canadian foreign policy at home and abroad. It is a story often told in their own words of twenty-two remarkable women. With charm, grace, dignity and intelligence, these women survived that most quintessential of Canadian establishments, the Department of External Affairs.

*O.D. Skelton* Norman Hillmer, 2015-07-06 When O.D. Skelton became Prime Minister Mackenzie King's foreign policy advisor in 1923, he was already a celebrated critic of the status quo in international and domestic affairs, a loyal Liberal Party man and a fervent nationalist who believed Canada needed to steer a path independent of Britain. Two years later he became the permanent head of Canada's Department of External Affairs. Between then and his tragic death in 1941, Skelton created Canada's professional diplomatic service, staffing it with sharp young men such as Lester B. Pearson. Skelton's importance in Ottawa was unparalleled and his role in shaping Canada's world was formative and crucial. Using research from archives across Canada and around the world, Norman Hillmer presents Skelton not only as a towering intellectual force but as deeply human, deceptively quiet, complex and driven by an outsize ambition for himself and for his country. O.D. Skelton is the definitive biography of the most influential public servant in Canada's history, written by one of the most prolific

Canadian historians of international affairs and the editor of Skelton's voluminous papers      **Speaking Truth to Canadians about Their Public Service** Donald J. Savoie, 2024-09-10 The federal public service plays a vital role in Canada's development by helping to shape public policies and deliver programs and services to Canadians Speaking Truth to Canadians about Their Public Service provides a comprehensive review of the challenges confronting the public service how the relationship between politicians and career officials has evolved in recent years and what motivates public servants Donald Savoie calls on Canadians and their politicians to consider what they want from their federal public service Answering this question requires a fresh look at the government's traditional accountability requirements how policies are shaped and how government programs and services are delivered It also requires a review of ambitious modernization and reform measures launched over the past forty years to make the public service more accommodating to political direction and to improve program delivery Dividing federal public servants into two groups poets those who write policy and plumbers those who deliver programs and services the book establishes who has the upper hand This division sheds new light on the theories that seek to explain the attitudes and behaviours of career government officials Amid increasingly strong signs that the public service is in need of a reset Speaking Truth to Canadians about Their Public Service concludes with practical recommendations to assist Canadians and their politicians in defining what they want their public service to be

*Canadians at Last* Raymond Benjamin Blake, 1994-01-01 By beginning with the 1949 Confederation rather than the activities leading up to it and by thoroughly documenting areas of agreement contention and neglect Blake writes a solid contemporary history of Newfoundland's integration into Canada      *The Struggle for Canadian Copyright* Sara Bannerman, 2013 First signed in 1886 the Berne Convention for the Protection of Literary and Artistic Works is still the cornerstone of international copyright law At the centre of *The Struggle for Canadian Copyright* is Canada's experience with the Berne Convention Set against the backdrop of Canada's development from a British colony into a so called middle power this book reveals the deep roots of conflict in the international copyright system that continue to divide developed and developing countries Canada's signing of the convention can be viewed in the context of a former British colony's efforts to find a place on the world stage Throughout the past century Canada's copyright policy has been used to project an image of the country as a good global citizen In this groundbreaking book Sara Bannerman examines Canada's struggle for copyright sovereignty and explores some of the problems rooted in imperial and international copyright that affect Canadians to this day

**John Buchan and the Idea of Modernity** Kate Macdonald, Nathan Waddell, 2015-10-06 Considered a quintessentially popular author John Buchan was a writer of fiction journalism philosophy and Scottish history By examining his engagement with empire psychoanalysis and propaganda the contributors to this volume place Buchan at the centre of the debate between popular culture and the modernist elite      **Constructing a Post-War Order** Andrew Baker, 2011-05-30 The years 1942 to 1946 saw the acceleration of World War II its conclusion and the construction of a post war order that was

to culminate in the Cold War Andrew Baker here examines the expansion of US political and economic power and hegemony during this period and the extent to which smaller states particularly Australia New Zealand Canada and South Africa contested this expansion Through successfully outlining and defending their own notions of sovereignty property and commercial rights they were able to make a significant contribution towards fashioning a post war framework more conducive to states than empires This analysis of the period immediately after World War II will appeal to researchers of history and international relations as well as those interested in the political economy of the post war world

**The Social Origins of the Welfare State** Dominique Marshall, 2011-04-07 The Social Origins of the Welfare State traces the evolution of the first universal laws for Quebec families passed during the Second World War In this translation of her award winning *Aux origines sociales de l'état providence* Dominique Marshall examines the connections between political initiatives and Quebecois families in particular the way family allowances and compulsory schooling primarily benefited teenage boys who worked on family farms and girls who stayed home to help with domestic labour She demonstrates that while the promises of a minimum of welfare and education for all were by no means completely fulfilled the laws helped to uncover the existence of deep family poverty Further by exposing the problem of unequal access of children of different classes to schooling these programs paved the way for education and funding reforms of the next generation Another consequence was that in their equal treatment of both genders the laws fostered the more egalitarian language of the war which faded from other sectors of society possibly laying groundwork for feminist claims of future decades The way in which the poorest families influenced the creation of public educational and welfare institutions is a dimension of the welfare state unexamined until this book At a time when the very idea of a universal welfare state is questioned The Social Origins of the Welfare State considers the fundamental reasons behind its creation and brings to light new perspectives on its future

**Remaking Liberalism** Barry Ferguson, 1993-10-05 Adam Shortt began teaching political economy at Queen's University in the late 1880s His theories attracted students and faculty who were interested in applying the new tenets of economics and political science to questions of Canadian public policy The concerns of the group that formed around Shortt were broad and self consciously cumulative a perspective promoted particularly by Shortt's colleague and successor O D Skelton The group encouraged reassessment of the role of the social scientist in the university and society and analysed contentious economic and political questions of the day Addressing economic policies such as industrialization foreign investment labour business relations and prairie settlement they examined the political and governmental ramifications of economic problems concentrating on the role of political parties the broad role of government the place of the public service and ethnic class and regional political relations Ferguson demonstrates that Shortt Skelton Clark and Mackintosh clearly argued on behalf of the new liberalism emphasizing individual rights and positive government He suggests that their ideas reveal an intellectual position which differed from the imperialist and continentalist alternatives that dominated Canadian thinking at the time

**Extraordinary Canadians**

**Lester B Pearson** Andrew Cohen, 2008-12-02 In his 2 terms as prime minister from 1963-1968 Lester B Pearson oversaw the revamping of Canada through the introduction of Medicare, the Canada Pension Plan, the Commission on Bilingualism and Biculturalism, the Auto Pact, and the new Maple Leaf flag. Pearson came to power after an impressive career as a diplomat where he played a vital role in the creation of NATO and the United Nations, later serving as president of its General Assembly. He put Canada on the world stage when he won the 1957 Nobel Peace Prize for his handling of the Suez Crisis during which he brokered the formation of a UN peacekeeping force. Author Andrew Cohen, whose books have focused on Canada's place in the world, is the perfect author to assess Pearson's legacy.
