Freitag, 2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition **Otto Dix, 1891-1969** Rainer Beck, 1993 **German Post-Expressionism : The Art of the Great Disorder 1918-1924**, German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919 20 **Neue Sachlichkeit 1918-33** Steve Plumb, 2006 Neue Sachlichkeit is thought by many to have too many diverse elements to be a unified movement Originally divided by G F Hartlaub into two wings Neue Sachlichkeit has since been broken down by critics into more groups sometimes with opposing styles or regional influences However the importance of these divisions has rarely been explored in depth Unlike previous surveys which accept Neue

Sachlichkeit as a divided entity this book shows for the first time that in spite of its divisions it may still be regarded as a unified coherent movement While different artists may have sought to express different specific concerns what they all had in common was that they were uncomfortable with the world as it stood and it is the way that this was expressed making use of the object that gave Neue Sachlichkeit its unity This was just as true of the literature and photography of Neue Sachlichkeit where the same themes as those found in the painting were frequently used The fact that these are shared themes across different cultural media demonstrates that Neue Sachlichkeit reflected a mood of its time and this book explores the ways in which this mood was expressed

Bodily Desire, Desired Bodies Esther K. Bauer, 2014-06-24 Bodily Desire Desired Bodies examines the diverse ways that literary works and paintings can be read as screens onto which new images of masculinity and femininity are cast Esther Bauer focuses on German and Austrian writers and artists from the 1910s and 1920s specifically authors Franz Kafka Vicki Baum and Thomas Mann and painters Otto Dix Christian Schad and Egon Schiele who gave spectacular expression to shifting trends in male and female social roles and the organization of physical desire and the sexual body Bauer's comparative approach reveals the

ways in which artists and writers echoed one another in undermining the gender duality and highlighting sexuality and the body As she points out as sites of negotiation and innovation these works reconfigured bodies of desire against prevailing notions of sexual difference and physical attraction and thus became instruments of social transformation *Otto Dix,*
