Otto Iii:

Otto III Gerd Althoff, 2010-11-01 *The Cultural Power of Medieval Monarchy* Manuel Alejandro Rodríguez de la Peña, 2023-09-22 This book focuses on why the diffusion of the political theology of royal wisdom created Solomonic princes with intellectual interests all around the medieval West and how these learned rulers changed the face of Western Europe through their policies and the cultural power of medieval monarchy Princely wisdom narratives have been seen simply as a tool of royal propaganda in the Middle Ages but these narratives were much more than propaganda being rather a coherent ideology which transformed princely courts shaped mentalities and influenced key political decisions This cultural power of medieval monarchy was channelled mainly through princely patronage of learning and the arts but the rise of administrative monarchy and its bureaucracy are equally related to these policies This can only be understood through a cultural approach to the history of medieval politics that is a history of the relationship between knowledge and power in the Middle Ages a topic much analyzed regarding the medieval church but sometimes neglected in the princely sphere This volume is a study that supplies an important comparative study of the reception in princely courts of a key aspect of European medieval civilization The ideal of Christian sapiential rulership and its corollary rationality in government This volume is essential reading for students and scholars interested in understanding the medieval roots of the cultural process which gave rise to the modern state Historia Nostra: The Complete History of Poland Thomas P. Koziara, 2020-11-18 The 8th Century Until 1332 **A Chronology of Early Medieval Western Europe** Timothy Venning, 2017-10-12 A Chronology of Early Medieval Western Europe uses a wide range of both primary and secondary sources to chart the history of Britain and Western Europe with reference to the Celtic world Scandinavia the Mediterranean and North America Extending from the middle of the fifth century to the Norman Conquest in 1066 the book is divided into five chronologies that present the day to day developments of events such as the fall of Rome the Viking invasion and the military campaigns of King Alfred as well as charting the cult of the mysterious King Arthur Timothy Venning's accompanying introduction also provides a discussion of the different types of sources used and the development of sources and records throughout these centuries Tying together the political cultural and social elements of early medieval Western Europe this chronology is both detailed and highly accessible allowing students to trace this complex period and providing them with the perfect reference work for their studies **Art, Power, and Resistance in the Middle Ages** Pamela A. Patton, 2025-01-07 This volume addresses a vital point of intersection between images in the Middle Ages and those in the modern world the potential of medieval works of art to convey messages of power and resistance Provoked by the misuse of medieval imagery in modern discussions the contributors to this volume assess how medieval images connect to discourses of power in both the past and the present The contributors each began with a single question In the eyes of their makers and viewers how were medieval images understood to assert or to resist forces of power Their case studies come from a wide range of cultural geographic and historical contexts the Byzantine

Ottonian and Valois courts the Umayyad and Castilian regimes of the Iberian Peninsula the pluralistic military and commercial zones of the eastern Mediterranean and the metaphorical as well as personal battlegrounds linked to medieval courtly love culture Over eight chapters the authors highlight patterns of visual rhetoric still evident in art today They invite readers to contemplate how modern priorities and sensibilities might amplify mute or transform the discourses related to power and resistance that were threaded through the visual culture of the Middle Ages This insightful book should be of value to anyone interested in medieval art history and art's relationship to power and authority in society In addition to the editor the contributors include Heather A Badamo Elena N Boeck Thomas E A Dale Martha Easton Eliza Garrison Anne D Hedeman Tom Nickson and Avinoam Shalem **Journal of the Australian Early Medieval Association** Geoffrey D. Dunn, Darius von Guttner Sporzynski, 2016-12-31 The journal welcomes papers on historical literary archaeological cultural and artistic themes particularly interdisciplinary papers and those that make an innovative and significant contribution to the understanding of the early medieval world and stimulate further discussion For submission details please see the association website www.aema.net.au Submissions then may be sent to journal@aema.net.au *Chrysalis* Jozef Borovský, 2019-07-31 This book does not claim absolute truths but it speaks for those who can no longer speak for themselves by the histories they witnessed wrote about and which defined their ancestors and descendants including the most powerful woman that ever lived Countess Elizabeth Bathory She tried to change the world she paradoxically succeeded and failed But what drove her What did she know we do not What is her history To begin to understand all this one must travel back in time to when it began when truth first became obscured and when European society Western culture went horribly wrong It is why her world was the way it was Today historiographical truths of European Medieval Dark Ages at best exist as dim flashes of information in ancient manuscripts A very interconnected European medieval history has much more but inconvenient historiographical information informs us of events names places and dates but like a giant complicated jigsaw puzzle Unfortunately many pieces are still missing none more so than that of Carpathia Consequently an incomplete theoretical picture of historical reality remains There's a reason for it Throughout history Europeans struggled for Humility Humanity and Liberty but only Carpathian Ungars maintained and struggled to keep it for more than a millennium from about 600 to 1711 Their history has gone missing supplanted by myths Their greatest leaders are caricatures of Gothic horror literature and their greatest traitors are their heroes Their monuments are everywhere Carpathia's history does not exist in Western consciousness What is it about Carpathia we are not supposed to know Its missing medieval jigsaw puzzle pieces when liberated from obscure archives then reassembled and inserted into the macro context of centuries however allows us to understand why The period covered in this book is roughly seven centuries It's a litany of tragic moral failures It begins with spiritual leaders who consistently failed in their moral duty because they misguidedly assumed a Roman imperial culture from the outset It ends with the creation of a repressed imperial Ungaria and the supposed first kings of Hungary Events
