In the dark of the blackout before the curtain rises, the theater holds its many worlds suspended on the verge of appearance. How can a performance sustain this sense of potentiality that grounds all live production? Or if a stage world does begin, what kinds of future might appear within its frame? Conceiving of the theater as a cultural institution devoted to experimenting with the future, this book begins and ends on the dramatic stage. In between, it traverses literature, dance, sculpture, and performance art to explore the various futures we make in a live event. *After Live* conceives of traditional dramatic theater as a place for taming the future and then conceptualizes how performance beyond this paradigm might stage the unruly nature of futurity. Chapters offer insights into the plays of Beckett, Churchill, Cope, and Gombrowicz; devised theater practices; and include an extended exploration of the Italian director Romeo Castellucci. Through the lens of potentiality, other chapters present novel approaches to minimalist sculpture and dance, then reflect on how the beholder, him or herself, is called upon to perform when confronted by such work. *The Value of Poetry* Eric Falci, 2020-12-03

The Value of Poetry shows how and why poetry matters in the contemporary world, twenty-first century readers. **Gertrude Stein in Europe** Sarah Posman, Laura Luise Schultz, 2015-10-22

Although often hailed as a quintessentially American writer, the modernist poet, novelist, and playwright Gertrude Stein (1874-1946) spent most of her life in France. With chapters written by leading international scholars, *Gertrude Stein in Europe* is the first sustained exploration of the European artistic and intellectual networks in which Stein's work was first developed and circulated. Along the way, the book investigates the European contexts of Stein's writing, how her own work intersected with European thought (including phenomenology and the vitalist work of Henri Bergson) and ultimately how it was received by scholars and artists across the continent. *Gertrude Stein in Europe* opens up new perspectives on Stein as a writer and on the centrality of artistic and intellectual networks to European modernism. *Unending Design* Joseph M. Conte, 2016-05-15

Drawing on the work of contemporary American poets from Ashbery to Zukofsky, Joseph M. Conte elaborates an innovative typology of postmodern poetic forms. In Conte's view, looking at recent poetry in terms of the complementary methods of seriality and proceduralism offers a rewarding alternative to the familiar analytic dichotomy of open and closed forms.
