The Earth is slowly dying as mile thick clouds known as Dry Clouds prevent the sun from shining down on half the planet. They mysteriously appeared one day and slowly spread across the remaining planet and if they are not stopped the Earth is doomed. Many mysteries abound in this apocalyptic science fiction series. Where did the Dry Clouds come from and how can they be stopped? Who is Kat and who killed Kim's mom? These are just a few of the unanswered questions that start this sci-fi action adventure series.

Female lead Apocalyptic Science Fiction series Prologue On a parallel Earth thick puffy barrier cumulus also known as Dry Clouds covered the sky and prevented the glimmer of twilight from shining on the city of Noir. For three decades the polluted high troposphere looming clouds covered half the planet and left part of the world to live in endless night. The mile thick clouds yielded petroleum based contaminated water dubbed Tainted Rain and polluted the air so they were named Dry Clouds for leaving half the planet without drinkable water. At first scientists believed pollution caused the great cloud barrier but that theory proved to be false. What caused the Dry Clouds to form baffled scientists and how to reverse them eluded reason and only technology's constant battle with nature has kept the dark city alive. Man's need for conquest expanded Noir to cover more than half a continent of what would have been called North America and Noir became a Mega city. It was the only one in the world. Over the last twenty years Transgenics and bio mechas evolved at a breakneck pace. Transgenics were genetically modified organisms with an extra genome and were mostly plants produced to survive without the sun. Bio mechas were robots resembling living things. In this world corporations not governments ruled the people creating a society where profit set policy and dictated life. Those who resided in Noir were touched by darkness and the light of goodness seemed a forgotten memory and they lived in the gray. Shades of Gray Swings Hanging from Every Tree Susan Stone, 2001-07

How Not to Drown Jaimee Wriston, 2021-05-11 From WILLA Literary Award winning author Jaimee Wriston comes a novel for fans of Jami Attenberg and Elizabeth Strout about a former model whose undisciplined granddaughter turns her fastidious controlled life upside down forcing her to confront what she values. Amelia MacQueen has lost her favorite son Gavin to a suspicious drowning for which her daughter in law has been convicted. She's been awarded temporary custody of Gavin and Cassie's twelve year old daughter Heaven, a name that makes Amelia cringe. Reluctantly she takes Heaven in but asks the girl to call her Grandmelia instead of Grandma, a name that doesn't make Amelia feel quite so old. The daughter of drug addicts who has long been left to her own devices, Heaven does not appreciate her grandmother's constant critical ministrations and the pair quickly butt heads. She instead bonds with Uncle Daniel, Amelia's older agoraphobic son who never leaves his bedroom. Through the wall between their rooms Daniel spins Celtic tales for Heaven from the Isle of Skye where the family's ancestors lived including fifteen year old Maggie who mysteriously disappeared crossing the Atlantic many years ago. Heaven decides that the best way to deal with bullying at school is to become a siren from one of Uncle Daniel's stories. She sings drowning songs in the swim team pool luring mean girl Bethany Harrison under at the deep end. Then Amelia comes home one day to find her granddaughter serving Oreos to the cops who

picked her up for snaking junk food from the neighborhood As much as Amelia loved Gavin Heaven is the last thing Amelia would have asked for but when Heaven goes missing during a dangerous storm one night Amelia is forced to reexamine her outlook on family In vivid prose Jaimee Wriston tells a wry multi generational tale of redemption exploring the bonds that make and break a family and the transformative power of storytelling **Shadow Archaeologies** Assaf Nativ, Gavin Lucas, 2025-07-31 Shadow Archaeologies explores the modes of knowledge production which operate where the light of mainstream historically oriented archaeology does not reach It exposes the field s underbelly and dwells on issues that standard practice ignores or glosses over questioning what archaeology and the archaeological are or could be The volume brings together scholars working at the discipline s theoretical cutting edge to challenge mainstream archaeology in various ways They engage with the political dimensions of the discipline s mode of production develop alternate practices and conceive of other manifestations of the archaeological object thus illuminating various ways in which the concept of shadow archaeology can be articulated After an introduction by the editors the volume is organised into three parts which address from different angles the politics practices and objects of an archaeology that resides in the shadow of antiquity While the book will appeal to any archaeologist with an interest in theory it is also a challenge to all archaeologists to reflect on their discipline and their own working practices and an invitation to join in the discussion about what archaeology might become
