Our Hispanic Heritage:

Our Hispanic Roots Carlos B. Vega, 2007-02-01 The Hispanic contribution to the making of the United States has been blatantly glossed over by most historians for the past three hundred years despite the gallant effort of a handful of them who sought to do justice and set the record straight This misrepresentation of the historical facts has rendered a whole nation to become oblivious to its true beginnings and formation crippling its character and jeopardizing its future This book based on established and undisputed historical records is a new attempt to bring out the whole truth to make us realize how this nation really came into being The making of present day United States did not begin in 1607 nor was it confined to thirteen unsettled colonies barely occupying a minute portion of a vast continent We need to set the historical clock back and then forward from 1513 on through well past 1776 and give due credit to Spain and other Hispanic countries such as Mexico for laying down many of the foundations that made us what we are today We need also to be proud of our Hispanic heritage and trumpet it with equal fervor and appreciation as we do it with other less deserving ones It is only then that we would be able to define our character both as a nation and as a people *Why Hispanic Heritage Month Is Important* Agata Galeas, 2022-09-17 The Latina in me is an ember that blazes forever Sonia Sotomayer When Latinx kids don't see themselves represented on stage or film or television or newspapers or history textbooks what they're told is You don't matter But when they see themselves represented then they are told You are important You are authors You are scientists You are explorers You are special You are leaders You are respected You are the reason we are here John Leguizamo While our culture traditions and religion may differ we pride ourselves on working hard educating ourselves as much as possible striving for better lives for our children loving our often large and blended families and sharing as much of our history and customs as we can with anyone who chooses to really see us We are not so different after all People simply need to see us for who we are and not who they expect us to be Natalie Morales Although Latino and Hispanic are commonly used interchangeably their definitions differ Latino is commonly used to describe persons who are from Latin America whereas Hispanic normally refers to those with a heritage in a Spanish speaking nation No matter what their heritage is anyone can claim these identities Nobody contests how individuals identify according to researchers and publications even the US Census Understanding how these terms differ from one another and when to use each one helps ensure proper usage You may develop such awareness by becoming aware of the definitions history applications and self identifications of the Hispanic and Latino identities 2022's Hispanic Heritage Month begins on September 15 and runs through October 15 Although you don't need to wait for an annual event to be proud of your ethnic heritage for Hispanic Americans those four weeks serve as a time to celebrate their distinct cultures and the tales that have shaped them This book serves as a guide for you to learn about hispanic heritage month Learn about the history of latin@s in The U S Facts about Hispanic Heritage Month How it's Celebrated and more We've also recommended some ideas on how to celebrate and get the full experience out of this special month What are you
