## **Our Knowledge Of The Historical Past:**

*Our Knowledge of the Historical Past* Murray G. Murphey, 1980-01-01      **Before and After 9/11** Tom Rockmore, 2011-04-21      Michael Oakeshott and the Cambridge School on the History of Political Thought Martyn P. Thompson, 2019-05-20 This book is a critique of Cambridge School Historical Contextualism as the currently dominant mode of history of political thought drawing upon Michael Oakeshott's analysis of the logic of historical enquiry While acknowledging that the early Cambridge School work represented a considerable advance towards genuinely historical histories of political thought this work identifies two major historiographical problems that have become increasingly acute The first is general an insufficiently rigorous understanding of the key concept of pastness necessarily presupposed in historical enquiry of all kinds The second is specific to histories of political thought a failure to do justice to the varieties of past political thinking especially differences between ideology and philosophy In addressing these problems the author offers a comprehensive account of the history of political thought that establishes the parameters not just of histories of ideological thinking but also of the much disputed character of histories of political philosophy Since rethinking history of political thought in Oakeshottian terms requires resisting current pressures to turn history into the servant of currently felt needs the book offers a sustained defence of the cultural value of modernist historical enquiry against its opponents An important work for political theorists historians of political thought and those researching intellectual history the philosophy of history and proposed new directions in contemporary historical studies      *A Dialogue Between Law and History* Baosheng Zhang, Thomas Yunlong Man, Jing Lin, 2020-12-14 This book builds on the success of the First International Conference on Facts and Evidence A Dialogue between Law and Philosophy Shanghai China May 2016 which was co hosted by the Collaborative Innovation Center of Judicial Civilization CICJC and East China Normal University The Second International Conference on Facts and Evidence A Dialogue between Law and History was jointly organized by the CICJC the Institute of Evidence Law and Forensic Science ELFS at China University of Political Science and Law CUPL and Peking University School of Transnational Law STL in Shenzhen China on November 16 17 2019 Historians legal scholars and legal practitioners share the same interest in ascertaining the truth in their respective professional endeavors It is generally recognized that any historical study without truthful narration of historical events is fiction and that any judicial trial without accurate fact finding is a miscarriage of justice In both historical research and the judicial process practitioners are invariably called upon before making any arguments to prove the underlying facts using evidence regardless of how the concept is defined or employed in different academic or practical contexts Thus historians and legal professionals have respectively developed theories and methodological tools to inform and explain the process of gathering evidentiary proof When lawyers and judges reconsider the facts of cases questions of law are actually a subset of questions of fact and thus the legal interpretation process also involves questions of historical fact The book brings together more than twenty leading

history and legal scholars from around the world to explore a range of issues concerning the role of facts as evidence in both disciplines As such the book is of enduring value to historians legal scholars and everyone interested in truth seeking

**The What and the Why of History** Goldstein,2021-12-06 The What and the Why of History deals with history as a cognitive discipline concerned to establish justifiable knowledge about a past we can never experience It is divided into three parts The first focuses on the conditions that are presupposed when historians offer explanations of what they have come to know But whatever is to be explained must first come to be known and the second part is concerned with the character of the cognitive activity which is the constitution of the historical past The point is that we must attend to the historical enterprise on its own terms and not try to make it fit the epistemology of natural science or of common sense The last section deals with Collingwood It is shown that his characteristic positions contribute to an account of historical knowing not historical explanation

**Our Knowledge of the Growth of Knowledge (Routledge Revivals)** Peter Munz,2014-06-27 Peter Munz a former student of both Popper and Wittgenstein begins his comparison of the two great twentieth century philosophers by explaining that since the demise of positivism there have emerged broadly speaking two philosophical options Wittgenstein with the absolute relativism of his theory that meaning is a function of language games and that social configurations are determinants of knowledge and Popper s evolutionary epistemology conscious knowledge is a special case of the relationship which exists between all living beings and their environments Professor Munz examines and rejects the Wittgensteinian position Instead Our Knowledge of the Growth of Knowledge first published in 1985 elaborates the potentially fruitful link between Popper s critical rationalism and Neo Darwinism Read in the light of the latter Popper s philosophy leads to the transformation of Kant s Transcendental Idealism into Hypothetical Realism whilst the emphasis on the biological orientation of Popper s thought helps to illumine some difficulties in Popper s falsificationism

**Historical Judgement** Jonathan Gorman, 2014-11-27 The historical profession is not noted for examining its own methodologies Indeed most historians are averse to historical theory In *Historical Judgement* Jonathan Gorman's response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline So to model historiography we must do so from the views of historians Gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science There are different models at work whose rivalry and resolution are to be historically understood With this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians He reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography Demonstrating how the practice of historiography requires choices and therefore the exercise of judgement Gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight He shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change In addition Gorman's approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of Quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism Gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world *Historical Judgement* is an original and important contribution to the philosophy of history By bringing together the ideas of historians and philosophers Gorman presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage historians to think more about the nature of what they do

*The Knowledge of Things Hoped For* Robert W. Jenson, 2020-06-09 What sort of meaning for today's world emerges in theological discourse We sit in the pew the author writes and ask But what does the preacher mean We climb the pulpit with despair of the words we must utter a despair present for a generation at least but now become explicit The suspicion that talk about God makes less and less sense is set both by the dominance of the sciences as models of certainty and by our increasing acceptance of historical relativism The order of Dr Jenson's book follows the order of his search for verifiability his conclusions acknowledge the reality of promise the centrality of hope for Christian faith and discourse that is the common motif of many different contemporary theological programs To overcome a deficiency of previous discussions Dr Jenson starts with an investigation of how classical theology through key proponents has understood itself An account of

Origen centers on the language of images one of Thomas on the notion of analogy Seeking both continuity with and freedom from these traditional interpretations the author then enters the contemporary discussion Over the challenge of verifiability he engages the English and American analysts over the challenge of historicism he engages the European hermeneuticists in quest of a more viable and comprehensive answer than either has been able to offer Communities of Kinship Carolyn Earle Billingsley, 2004 Billingsley reminds us that contrary to the accepted notion of rugged individuals heeding the proverbial call of the open spaces kindred groups accounted for most of the migration to the South's interior and boundary lands In addition she discusses how for antebellum southerners the religious affiliation of one's parents was the most powerful predictor of one's own spiritual leanings with marriage being the strongest motivation to change them Billingsley also looks at the connections between kinship and economic and political power offering examples of how Keese family members facilitated and consolidated their influence and wealth through kin ties
