## **Our Lady Of The Sewers And Other Adventures In Deep Spain:**

**Our Lady of the Sewers** Paul Richardson,1998-01-01 The author's mission to sift out the ancient perverse and eccentric from the new nice and normal took him from coastal plain to mountainous peak. It also took him often by surprise. For the customs and rituals of Spain linger on in both likely and unlikely corners of the country, beguiling and obstinate, they defy the Spain of the tourist trail, providing instead a key to the real heart of the country. Deep Spain has fiestas instead of Bank Holidays, tapas instead of MacDonalds. It celebrates ritual pig killing and not political correctness and in places has not changed for hundreds of years. *Modern Spain* Enrique Ávila López,2015-12-07 Fulfilling the need for English source material on contemporary Spain, this book supplies readers with an in-depth interdisciplinary guide to the country of Spain and its intricate, diverse culture. Far from a usual reference book, *Modern Spain* takes the reader through the country's history, economy, and politics, as well as topics that address Spain's popular culture, such as food, sports, and sexuality. Because of the interdisciplinary nature of its content, this book differs from the average typical English manuals that very rarely cover in depth the whole array of interesting issues that define Spain in the 21st century. The vast amount of information makes this book the perfect companion for any reader wishing to learn more about Spain. Packed with current facts and statistics, this book offers an unbiased view of a modern country, making it an ideal source for undergraduate students and scholars.

For a full list of entries and contributors, a generous selection of sample entries, and more, visit the *Literature of Travel and Exploration* Encyclopedia website. *Late Dinner* Paul Richardson,2007-08-21 Vivid and richly textured, *A Late Dinner* is a delightful journey through Spain and Spanish cuisine. Paul Richardson is the perfect guide. In lush prose, he brings to life the fascinating people who grow and cook and eat the hugely varied and still little-known food of Spain. Richardson's vibrant writing takes readers beyond gazpacho and paella and immerses them in the flavorful world of Spanish food, from the typical coastal cuisine to the ancient shepherd cooking of the mountains to the cities of Madrid, Barcelona, and San Sebastián, where chefs are setting the trend for modern cuisine across the globe. His evocative descriptions: the fried shell in Cádiz, the tender asparagus and sweet, crispy lettuce of Navarre, the Catalan calçots, a feast of grilled spring onions in a nutty, delicately spicy sauce, the

whimsical creations of internationally acclaimed chef Ferran Adrià are a celebration of the senses Richardson traces the roots of Spanish cooking to the landscape the people and the history of this beautiful and complex country *A Late Dinner* is a glorious and intimately drawn portrait of Spain

**Inclusive Urban Design: Public Toilets** Clara Greed, 2007-06-01 This is a unique text providing both design guidance and policy direction for the provision and design of public toilets covering city wide district level and site specific principles It highlights the role of urban design in reversing the trend of inadequate toilet provision and sets out guidelines for design which meets both user need and provider requirements Greed presents the fundamental principle that toilets should not be dealt with in isolation from mainstream urban policy but that they should be seen as a serious core component in both strategic urban policy and local area design She argues toilets are valuable townscape features in their own right as manifestation civic pride and good urban design essential architectural components which add to the quality and viability of an area Although a range of design guidance on toilets exists there is still considerable dissatisfaction with the end product in terms of building design levels of provision location safety layout DDA requirements and accessibility By outlining user demands and provider constraints Greed shows that it is essential for architects to have an informed understanding and practical knowledge of toilet issues when working with public and private sector providers Examples of toilet architecture from other countries and policies from different cultural settings are included for comparative purposes to invigorate UK perspectives
