Summary of Lawrence Otis Graham's *Our Kind of People* Everest Media,2022-07-24T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 I grew up believing that there were only two types of black people the black elite and those who weren't I recall summertime visits from my maternal great grandmother a well educated light complexioned and straight haired black southern woman who discouraged me and my brother from associating with darker skinned children or from standing or playing in the sunlight for long periods of time 2 I learned about the importance of class distinctions within my black world at a young age As I moved quickly to the safety of the shade I beckoned my brother to protect his complexion from the blackening sun 3 I knew that I didn't fit in with the black elite and that I would never have the right credentials to be a part of it I knew that I had one foot inside and one foot outside of the group 4 The black elite have roots that can be traced back to when slavery began in this country When the first Africans arrived on the shores of Jamestown Virginia in 1619 neither the white Dutch or Portuguese slave traders nor the white American plantation owners had any knowledge of or interest in the tribal and cultural differences between the Mandingo Dahomean Ashanti Mbundu Ewe or Bantu blacks

This is a story of people you might know Some kindly men a few hysterical women sons who cause exasperation It is a story of halted dreams of new dreams dreamed of love and loyalty and love and disloyalty Our Kind of Music follows one man s journey along a highway initially perceived to be clear of obstacles but which inevitably presents hurdles he could not anticipate It is also the story of his son whose bravado leads him along a different path to the soul searching that this ultimately entails Set against shifting backgrounds some as exotic as the Seychelles and Tahiti some as safely domestic as New England s Vermont and old England s Dorset and others as vibrant as Sydney and New York this story is rich in personality fostering an innate knowledge of who the characters are and how they feel Not all are liked but some are so

deeply loved that they linger in the senses and by the end you might almost expect to bump into them like old friends on Main Street This novel is set over four decades starting in 1937 and culminating in early 1982 less driven by the events of those years than merely touched by them just as world events are experienced by ordinary lives But always always running through those years there is music Our Kind of Music is a book about ordinary people attempting to lead ordinary lives not always successfully and though it is not without doses of light trauma readers will discover a strong sense of place all around the world and a nostalgic theme of music running throughout

The African American Experience in Crime Fiction Robert E. Crafton, 2015-06-08 An immensely popular genre crime fiction has only in recent years been engaged significantly by African American authors Historically the racist stereotypes often central to crime fiction and the socially conservative nature of the genre presented problems for writing the black experience and the tropes of justice and restoration of social order have not resonated with authors who saw social justice as a work in progress Some African American authors did take up the challenge Pauline Hopkins Rudolph Fisher and Chester Himes led the way in the first half of the 20th century followed

by Ishmael Reed's anti-detective novels in the 1970s. Since the 1990s, Walter Mosley, Colson Whitehead, and Stephen L. Carter have written detective fiction focusing on questions of constitutional law, civil rights, biological and medical issues, education, popular culture, the criminal justice system, and matters of social justice. From Hopkins's *Hagar's Daughter* published in 1901 to Hime's hardboiled Harlem Detective series to Carter's patrician world of the black bourgeoisie, these authors provide a means of examining literary and social constructions of the African American experience.
