Neo-race Realities in the Obama Era Heather E. Harris,2019-05-01 Considers the impact of neo racism during the Obama presidency *Neo race Realities in the Obama Era* expands the discourse about Barack Obama s two terms as president by reflecting upon the impact of neo racism during his tenure Continually in conversation with tienne Balibar s conceptualization of neo racism as being racism without race the contributors examine how identities become the target of neo racist discriminatory practices and policies in the United States Individual chapters explore how President Obama s multiple and intersecting identities beyond the racial binaries of Black and White were perceived as well as how his presence impacted certain marginalized groups in our society as a result of his administration s policies Evidencing the hegemonic complexity of neo racism in the United States the contributors illustrate how the mythic post race society that many wished for on election night in 2008 was deferred in order to return to the uncomfortable comfort zone of the way America used to be Well organized and compelling this book covers everything from perspectives on the AIDS epidemic to racial authenticity yet the reader never forgets that he she is on a journey through the Age of Obama and its many contested nuances Ricky L Jones author of *What s Wrong with Obamamania Black America Black Leadership and the Death of Political Imagination*

Routledge Handbook on Tourism in the Middle East and North Africa Dallen Timothy,2018-12-07 The Routledge Handbook on Tourism in the Middle East and North Africa examines the importance of tourism as a historical economic social environmental religious and political force in the Middle East and North Africa MENA It highlights the ecological and resource challenges related to water desert environments climate change and oil It provides an in depth analysis of the geopolitical conditions that have long determined the patterns of tourism demand and supply throughout the region and how these play out in the everyday lives of residents and destinations as they attempt to grow tourism or ignore it entirely While cultural heritage remains the primary tourism asset for the region as a whole many new types of tourisms are emerging especially in the Arabian Gulf region where hyper development is closely associated with the increasingly prominent role of luxury real estate and shopping retail medical tourism cruises and transit tourism The growing phenomenon of an expatriate

workforce and how its segregation from the citizenry creates a dual socio economic system in several countries is unmatched by other regions of the world Many indigenous people of MENA keep themselves apart from other dominant groups in the region although these social boundaries are becoming increasingly blurred as tourism being one socio economic force for change has inspired many nomadic peoples to settle into towns and villages and rely more on tourists for their livelihoods All of these issues and more shape the foundations of this book This Handbook is the first of its kind to examine tourism from a broad regional and inclusive perspective surveying a broad range of social cultural heritage ecological and political matters in a single volume With a wide range of contributors many of whom are natives of the Middle East and North Africa this Handbook is a vital resource for students and scholars interested in Tourism Middle East Studies and Geography

Critical Norths Sarah Jaquette Ray, Kevin Maier, 2017-05-15 For millennia the North has held a powerful sway in Western culture Long seen through contradictions empty of life yet full of promise populated by indigenous communities yet ripe for conquest pristine yet marked by a long human history it has moved to the foreground of contemporary life as the most dramatic stage for the reality of climate change This book brings together scholars from a

range of disciplines to ask key questions about the North and how we've conceived it and how conceiving of it in those terms has caused us to fail the region's human and nonhuman life. Engaging questions of space, place, indigeneity, identity, nature, the environment, justice, narrative, history, and more, it offers a crucial starting point for an essential rethinking of both the idea and the reality of the North.
