Our Marvelous Native Tongue Robert Claiborne, 1969 The Life & Times of the English Language Robert Clairborne, 1990 **The Emergence of the English Native Speaker** Stephanie Hackert, 2012-12-06 The native speaker is one of the central but at the same time most controversial concepts of modern linguistics With regard to English it became especially controversial with the rise of the so called New Englishes where reality is much more complex than the neat distinction into native and non native speakers would make us believe This volume reconstructs the coming into being of the English native speaker in the second half of the nineteenth century in order to probe into the origins of the problems surrounding the concept today A corpus of texts which includes not only the classics of the nineteenth century linguistic literature but also numerous lesser known articles from periodical journals of the time is investigated by means of historical discourse analysis in order to retrace the production and reproduction of this particularly important linguistic ideology

Koivisto, 2009-01-01 One Lord One Faith is a plea and plan to re envision the Church as a broad cross denominational community with a shared faith in the Christ of the Gospel It both affirms the place and inevitability of individual denominational traditions and also provides a grid from which to distinguish those denominational traditions from the core of historical orthodoxy shared by the entire Christian community The book seeks to distinguish denominationalism from sectarianism and identifies sectarianism as the true enemy of historic catholicity
