Our Names Where They Came From And What They Mean:

Our Practices, Our Selves, Or, What it Means to be Human Todd May, 2001-01-01 This enjoyable book written in an engaging colloquial voice is that rare kind of introduction to philosophy that both 1 shows that philosophy is a distinctive form of lively conceptual activity rather than an inert body of dusty doctrines and 2 makes a contribution to the field it introduces by showing the importance of our multifarious human practices to questions of selfhood and identity The fundamental thesis of the book that practices are constitutive of the self in a deep way that has not been sufficiently recognized is explored through wide ranging examples including global technological capitalism religious authority and the creationism debate multiculturalism psychoanalytical explanation jazz baseball political activism cooking and many others These diverse strands although they obviously come from far and wide are convincingly woven into a coherent and illuminating large scale pattern This book shows the student the general reader or anyone interested in what philosophy itself a practice how hard clear thinking promotes human understanding and how helpful analytical thought can be to numerous hotly debated issues Readers are given the conceptual tools and philosophical equipment they need as the book progresses and they will know that they are in the hands of an excellent confidence inspiring teacher of the subject Garry L Hagberg Bard College

TwentySomeone Craig Dunham, Doug Serven, 2010-05-19 Live Strategically The decade of your twenties is full of important stressful maddening questions What will I do Who will I love Where will I live But maybe there is a bigger question Who am I The fact is the period of time between your teens and thirties will shape a lot of your character your calling and your view of the world Authors Craig Dunham and Doug Serven recent graduates of their twenties explain that the difference between a twentysomething and TwentySomeone has to do with the questions we ask Instead of asking What will I do twentysomeones need to ask Who am I the real question of the twenties Full of personal experience and practical wisdom TwentySomeone helps you make the most of your twenties while giving you the skills to handle common life experiences like singlehood first jobs getting married having kids and buying stuff This is a guidebook that will help you discover who God is calling you to be

Cyclops in the Sky Lionel Roberts, Lionel Fanthorpe, Patricia Fanthorpe, 2014-01-30 Astra City was a technological 40th century masterpiece It represented the challenge of society to the raw untamed planet where it raised its gleaming towers in a far flung corner of the galaxy Beyond the force field encircling Astra City lay mystery and terror in the form of the weird primeval Greek beasts There were other mysteries surrounding Astra City Mysteries like those the one eyed Twen discovered in the labyrinth below the modern city A labyrinth whose age would only be calculated in centuries but which was believed to have been erected by the distant Masters themselves Hidden in its depths Twen discovers a forbidden document of the millennial age which involves her with a secret society who know the dreadful truth about the colonists They are Androids and their dawning intelligence leads them into head on conflict with the rapidly decaying human race
