Policy Choices:

Politics, Markets, and Congressional Policy Choices Peter M. VanDoren, 1991 Explores Congress's role in affecting market performance

Conflicting Goals and Policy Choices, Reforming Pensions: Principles and Policy Choices Nicholas Barr, Peter Diamond, 2008-09-17 Mandatory pensions are a worldwide phenomenon. However, with fixed contribution rates, monthly benefits, and retirement ages, pension systems are not consistent with three long-run trends: declining mortality, declining fertility, and earlier retirement. Many systems need reform. This book gives an extensive nontechnical explanation of the economics of pension design. The theoretical arguments have three elements: Pension systems have multiple objectives: consumption smoothing, insurance, poverty relief, and redistribution. Good policy needs to bear them all in mind. Good analysis should be framed in a second-best context: simple economic models are a bad guide to policy design in a world with imperfect information and decision making, incomplete markets, and taxation. Any choice of pension system has risk sharing and distributional consequences, which the book recognizes explicitly. Barr and Diamond's analysis includes labor markets, capital markets, risk sharing, and gender and family, with comparison of PAYG and funded systems, recognizing that the suitable level of funding differs by country. Alongside the economic principles of good design, policy must also take account of a country's capacity to implement the system. Thus, the theoretical analysis is complemented by discussion of implementation and of experiences, both good and bad, in many countries, with particular attention to Chile and China.

Nebraska Policy Choices, 1986

City Choices Kenneth K. Wong, 1990-07-05 City Choices argues that both economic concerns and political factors can be synthesized in a new framework in city policymaking. This synthesis is based on a systematic empirical study of policymaking in two large cities. Using numerous governmental documents and conducting extensive interviews with local, state, and federal officials, the author examines how the two cities have implemented both federal redistributive and development programs in education and housing. The author uses three models in explaining city choices: economic constraint, clientele participation, and institutional diversity, and concludes by offering his political choice perspective, which identifies specific sets of local political forces that are likely to alter the city's rational choices in development and redistributive issues.

Hard Choices, Easy Answers R. Michael Alvarez, John Brehm, 2020-10-06 Those who seek to accurately gauge public opinion must first ask themselves: Why are certain opinions highly volatile while others are relatively fixed? Why are some surveys affected by question wording or communicative medium (e.g., telephone) while others seem immune? In *Hard Choices, Easy Answers*, R. Michael Alvarez and John Brehm develop a new theory of response variability that, by reconciling the strengths and weaknesses of the standard approaches, will help pollsters and scholars alike better resolve such perennial problems. Working within the context of U.S. public opinion, they contend that the answers Americans give rest on a variegated structure of political predispositions, diverse but widely shared values, beliefs, expectations, and evaluations. Alvarez and Brehm argue that respondents deploy what they know about politics often little to think in terms of what they value and

believe Working with sophisticated statistical models they offer a unique analysis of not just what a respondent is likely to choose but also how variable those choices would be under differing circumstances American public opinion can be characterized in one of three forms of variability conclude the authors ambivalence equivocation and uncertainty Respondents are sometimes ambivalent as in attitudes toward abortion or euthanasia They are often equivocal as in views about the scope of government But most often they are uncertain sure of what they value but unsure how to use those values in political choices

Capital Choices Juergen Braunstein, 2022-02-01 Sovereign wealth funds are state controlled pools of capital that hold financial and real assets including shares of state enterprises and manage them to grow the nation's base of sovereign wealth The dramatic rise of sovereign wealth funds SWFs in both number and size this group is now larger than the size of global private equity and hedge funds combined and the fact that most are located in non OECD countries has raised concern about the direction of capitalism Yet SWFs are not a homogenous group of actors Why do some countries with large current account surpluses notably China create SWFs while others such as Switzerland and Germany do not Why do other countries with no macroeconomic justification such as Senegal and Turkey create SWFs And why do countries with similar macroeconomic features such as Kuwait and Qatar or Singapore and Hong Kong choose different types of SWFs *Capital Choices* analyzes the creation of different SWFs from a comparative political economy perspective arguing that different state society structures at the sectoral level are the drivers for SWF variation Juergen Braunstein focuses on the early formation period of SWFs a critical but little understood area given the high levels of political sensitivity and lack of transparency that surround SWF creation Braunstein's novel analytical framework provides practical lessons for the business and finance organizations and policymakers of countries that have created or are planning to create SWFs

Turkey and the EU: Accession and Reform Gamze Avci, Ali Çarkoğlu, 2020-10-28 Turkish accession to the European Union is an important but controversial item on the agenda of the European Union By focusing on the various domestic sources that drive Turkish politics this comprehensive study of both classic and new topics supported by fresh new insights fills a void in the current literature on Turkey EU relations This volume is a comprehensive state of the art study of domestic politics and policies and their role in Turkey's EU accession Contributions are obtained from established scholars acknowledged for their expertise in their respective fields The content is structured along issues dynamics actors and policies that drive Turkish politics and it provides an integrated assessment of the dynamics in Turkey EU relations to general readers students and specialists in EU Enlargement and Turkish politics alike Original contributions to classic topics such as the customs union human rights military civil society public and elite opinion political parties and the Kurdish issue are made by assessing the domestic sources of recent developments during the negotiations period In addition new topics are included that previously have not been covered or analyzed in volumes on Turkish EU relations such as the Alevi issue European Turks corruption in Turkey and Turkish parliamentary elite opinion on Turkey and the EU This book was published as a special issue of *South European*

Society and Politics **Political Choice** Roland M Czada,Adrienne Windhoff-Heritier,2019-07-11 This book subtitled political actors in institutional settings addresses the main lines of reasoning of the new political institutionalism and rational choice theory It discusses the question Which particular rules logics or strategies of action can be found in the realm of politics **Global Perspectives on Income Taxation Law** Reuven Shlomo Avi-Yonah,Nicola Sartori,Omri Marian,2011 In Global Perspectives on Income Taxation Law Avi Yonah covers basic corporate and international tax law from a comparative perspective The book both supplements readings in U S tax law courses and serves as a textbook for a comparative tax law class It is arranged by subject matter in the order in which they are usually covered in U S tax law classes The materials are drawn from a wide variety of countries including developing countries **World Trade Law after Neoliberalism** Andrew Lang,2013-01-17 The rise of economic liberalism in the latter stages of the 20th century coincided with a fundamental transformation of international economic governance especially through the law of the World Trade Organization In this book Andrew Lang provides a new account of this transformation and considers its enduring implications for international law Against the commonly held idea that neoliberal policy prescriptions were encoded into WTO law Lang argues that the last decades of the 20th century saw a reinvention of the international trade regime and a reconstitution of its internal structures of knowledge In addition the book explores the way that resistance to economic liberalism was expressed and articulated over the same period in other areas of international law most prominently international human rights law It considers the promise and limitations of this form of inter regime contestation arguing that measures to ensure greater collaboration and cooperation between regimes may fail in their objectives if they are not accompanied by a simultaneous destabilization of each regime s structures of knowledge and characteristic features With that in mind the book contributes to a full and productive contestation of the nature and purpose of global economic governance *The Law of Higher Education, 5th Edition* William A. Kaplin,Barbara A. Lee,2013-12-23 Based on the fifth edition of Kaplin and Lee s indispensable guide to the law that bears on the conduct of higher education The Law of Higher Education Fifth Edition Student Version provides an up to date textbook reference and guide for coursework in higher education law and programs preparing higher education administrators for leadership roles The Student Version includes the materials from the full fifth edition that most relate to student interests and are most suitable for classroom instruction For example The evolution of higher education law and governance Legal planning and dispute resolution The relationship between law and policy Faculty and staff employment issues including collective bargaining Academic freedom for faculty and students Copyright basics The contract rights of students Legal issues in online education The rights of students and faculty with disabilities Campus issues safety registered sex offenders racial and sexual harassment student suicide campus computer networks searches of students residence hall rooms Hate speech and freedom of speech including the rights of faculty and students in public universities Student organizations rights responsibilities and activities fees Governmental support for religious institutions and religious

autonomy rights of individuals in public institutions Nondiscrimination and affirmative action in employment admissions and financial aid Athletics and Title IX FERPA Family Educational Rights and Privacy Act Each chapter is introduced with an overview of key terms and ideas the students will encounter In addition the book includes a general introduction to the study of higher education law a glossary of key legal terms and appendices for non law students on the American court system and on how to read court opinions The authors have also prepared a volume of teaching materials keyed to the Student Version available from the National Association of College and University Attorneys NACUA In addition the authors will periodically update the Student Version by posting recent developments on a Web site hosted by NACUA **China's Search for**

Energy Security Suisheng Zhao, 2014-06-11 China's rapid economic growth in the recent decades has produced an unprecedented energy vulnerability that could threaten the sustainability of its economic development a linchpin to social stability and ultimately the regime legitimacy of the Chinese Communist Party CCP as well as the foundation for China's rising power aspirations What is the Chinese perception of the energy security and challenges how has the Chinese government responded to the challenges What are the international implications of China's search for energy security This collection of contributions by leading scholars seeks answers to these extremely important questions The book is divided into three parts Part I presents an overview of China's sense of energy security and its strategic responses Part II examines China's energy policy making processes the efforts to reform and reorganize the energy sector and reset policy priorities Part III focuses on the international implications of China's search for energy security This book consists of articles published in the Journal of Contemporary China **Marbury v. Madison** William E. Nelson, 2018-05-19 On the surface the case itself seems

a minor one at best William Marbury a last minute judicial appointee of outgoing Federalist president John Adams demanded redress from the Supreme Court when his commission was not delivered But Chief Justice John Marshall could clearly see the danger his demand posed for a weak court filled with Federalist judges Wary of the Court's standing with the new Republican administration of Thomas Jefferson Marshall hit upon a solution that was both principled and pragmatic He determined that while Marbury was justified in his suit the law on which his claim was based was in conflict with the Constitution It was the first time that the Court struck down an act of Congress as unconstitutional thus establishing the doctrine of judicial review that designates the Court as chief interpreter of the Constitution Nelson relates the story behind Marbury and explains why it is a foundational case for understanding the Supreme Court He reveals how Marshall deftly avoided a dangerous political confrontation between the executive and judicial branches by upholding the rule of law Nelson also shows how Marshall managed to shore up the Court's prestige and power rather than have it serve partisan political agendas Nelson expands upon his original historical analysis by providing a more complete and nuanced account of eighteenth century constitutionalism and the early development of judicial review The new material includes chapters on nullification of legislation in local courts James Otis's articulation of the doctrine of judicial review in the Writs of Assistance

Case the use of this doctrine in response to the Stamp Act and Townshend Act and the expansion of judicial review in the State Cases This revised and expanded edition provides a fuller picture of colonial America and a richer understanding of Marshall s foundational decision

The Encyclopedia of Public Choice Charles Rowley,Friedrich Schneider,2008-01-25 The Encyclopedia provides a detailed and comprehensive account of the subject known as public choice However the title would not convey suf ciently the breadth of the Encyclopedia s contents which can be summarized better as the fruitful interchange of economics political science and

moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible This fruitful interchange between the fields outlined above existed during the late eighteenth century during the brief period of the Scottish Enlightenment when such great scholars as David Hume Adam Ferguson and Adam Smith contributed to all these fields and more However as intellectual specialization gradually replaced broad based scholarship from the nineteenth century onwards it became increasingly rare to find a scholar making major contributions to more than one Once Alfred Marshall defined economics in neoclassical terms as a narrow positive discipline the link between economics political science and moral philosophy was all but severed and economists redefined their role into that of the humble dentist providing technical economic information as inputs to improve the performance of impartial benevolent and omniscient governments in their attempts to promote the public interest This indeed was the dominant view within an economics profession that had become besotted by the economics of John Maynard Keynes and Paul Samuelson immediately following the end of the Second World War

The Law of Higher Education, 2 Volume Set William A. Kaplin, Barbara A. Lee, 2013-07-25 Make sure you have a copy on your bookshelf The Law of Higher Education Fifth Edition is the most up to date and comprehensive reference research source and practical legal guide for college and university administrators campus attorneys legal counsel and institutional researchers addressing all the major legal issues and regulatory developments in higher education In the increasingly litigious environment of higher education William A Kaplin and Barbara A Lee's clear cogent and contextualized legal guide proves more and more indispensable every year Over 3 000 new cases related to higher education have been decided since the publication of the previous edition and scores of changes to higher education law are made each year Every section of the fifth edition contains new material including those related to Hate speech and free speech rights of faculty in public universities Sharing of research with international colleagues Intellectual property and peer to peer file sharing Student suicide Campus safety Police and administrators right to search students residence hall rooms Governmental support for religious institutions and religious autonomy rights of individual public institutions Collective bargaining and antidiscrimination laws Nondiscrimination and affirmative action in employment admissions and financial aid Family and Medical Leave Act and workers compensation FERPA Family Educational Rights and Privacy Act
