Public Opinion And The Political Future Of The Nations Capital:

Public Opinion and the Political Future of the Nation's Capital Edward M. Meyers, 1996-06-01 Despite widespread agreement that the District of Columbia's political system has collapsed there is a serious lack of thoughtful proposals addressing the political future of the nation's capital In this book Edward M Meyers examines the opinions of average Americans about Washington D C in order to understand how many Americans are likely to approach the question of what reforms are needed Meyers first explores the political economic and social conditions of the District providing an informed context for understanding and evaluating its political options Presenting the results of in depth qualitative research with focus groups held across the country Meyers reveals that regardless of the participants knowledge about the District their beliefs in six basic concepts or schemata such as respect for democratic rights attitudes about race and aversion to an intrusive federal government molded their opinions about various options for District self governance The book concludes with insights into the District by local and national political leaders including OMB Director Alice Rivlin Jesse Jackson Representatives Eleanor Holmes Norton Thomas Davis and James Walsh and Marion Barry The Politics of the Black Nation Georgia A. Persons, 2017-07-12 This volume of the National Political Science Review the official publication of the National Political Science Association is anchored by a major symposium on The Politics of the Black Nation the book authored by Matthew Holden in 1973 which is now considered one of the most influential books in the field of black politics Twenty five years provide a sufficient timespan on which to base a retrospective of the book and simultaneously to reflect upon the evolution of the black liberation struggle more formally called African American politics In the present age there is not much talk about a black nation certainly not as was heard during the 1960s and mid 1970s Yet there is a persistent sense of separateness in that there is constant thought and talk of Black America as a significantly separate communal entity Black Americans are seen as a racially and culturally distinct community holding to social political economic interests which have special significance and poignancy for them Holden's perception of the nature of the times in the early seventies stands in sharp contrast to how contemporary analysts of African American politics tend to perceive the nature of African Americans role in political life and their position in American society in the present age In this retrospective readers have the opportunity to get a sense of what Holden argued of the seven essays that make up his seminal volume and to consider how well Holden's observations have stood the tests of time In addition to the essays presented at the symposium which pointedly discuss Holden's work there are essays dealing with African American Politics in Constancy and Change by contributors including Charles Henry David Covin Robert C Smith Clyde Lusane Cheryl Miller D Linell Finley and Sekou Franklin among others Other features are a highly informative discussion of the Literary Digest magazine's Straw Vote Presidential Polls 1916 1936 and a *Home Rule Or House Rule* Michael K. Fauntroy, 2003 This book presents a political analysis of the relationship between Congress and the local government of Washington D C It examines the influence of suburban members

The Legacy of Mayor Anthony Williams Ray Crawford Jr., 2020-01-22 The Legacy of Mayor Anthony Williams Economic Development in the Federal City examines the leadership of former Washington D C Mayor Anthony Williams during his tenure in the office from 1998 to 2006 The first purpose of this book is to provide an analytical tool for effective mayoral leadership that will be appropriate for the unique characteristics of Washington DC which may also be applicable to other jurisdictions that have similar issues The second purpose is to address the gap in academic analysis with a specific focus on political leadership at the mayoral level This book therefore proffers the hypothesis that the performance of a scientific study with a specific focus on the issue of mayoral leadership within Washington DC will increase the probability of effective mayoral leadership in the future

Mojola, 2025-10-28 Washington DC has the nation's largest racial life expectancy gap and it has experienced many of the nation's worst epidemics including maternal and infant mortality homicide heroin overdoses and HIV AIDS These epidemics have disproportionately affected African Americans Why and how does racial health inequality exist and persist Starting from the city's founding in the late 1700s and drawing on a range of sources including archival material life history interviews and census vital statistics and disease surveillance data this book illustrates how the physical social and policy design of the city contributes to the production and reproduction of disproportionate Black death
