Creighton, 2005-03-21 Internationally renowned facilitator and public participation consultant James L Creighton offers a practical guide to designing and facilitating public participation of the public in environmental and public policy decision making Written for government officials public and community leaders and professional facilitators The Public Participation Handbook is a toolkit for designing a participation process selecting techniques to encourage participation facilitating successful public meetings working with the media and evaluating the program The book is also filled with practical advice checklists worksheets and illustrative examples *Public Participation in Public Decisions* John Clayton Thomas, 1995-08-29 More and more citizens are demanding and are being given a voice in the decision making process of such diverse public interests as community development crime prevention mass transportation environmental planning and hazardous waste disposal This growing trend of citizen activism combined with new legislative requirements and changing professional values has legitimized the role of the citizen in myriad areas of public management How can managers meet the challenge of increasing citizen involvement in public management John Clayton Thomas has written a straightforward and practical guide for public managers in which he outlines a strategic approach to public involvement in government decision making Public Participation in Public Decisions prepares public managers for the difficult task of involving citizens more fully in the affairs of government while maintaining effectiveness and efficiency In easy to understand terms he presents the Effective Decision Model of Public Involvement that managers will find to be an invaluable asset when making decisions about when and how to involve the public The author explores the sensible steps managers can take to successfully enhance public support and acceptance The book is filled with illustrative examples and includes such useful information as How to build strong and lasting working relationships with the public The do's and don'ts to keep in mind when contemplating public involvement How to make decisions that call for extensive public involvement Which mechanism to employ if only information is desired from the public And much more Written for government officials at all levels students of public administration public planners and consultants and trainers to government Public Participation in Public Decisions outlines a strategic plan for including citizens in public decisions a plan that goes a long way in creating a stronger democracy for all *Citizen Participation in Public Decision Making* Jack DeSario, Stuart Langton, Policy Studies Organization, 1987-01-13 As services provided by government have expanded over the past several decades so inevitably has bureaucracy especially the corps of professional administrators in charge of programs ranging from health care to the maintenance of efficient transportation networks Under pressure from reform groups to promote public accountability by involving citizens in the decision making process government has begun to place private citizens on many important health education transportation and environmental planning bodies This study of citizen participation and technocracy written by twelve prominent specialists provides the first comprehensive theoretical and

empirical analyses of these recent developments and their impact on formulating directing and implementing public policies

Democracy in Practice Thomas C. Beierle, 2010-09-30 In spite of the expanding role of public participation in environmental decisionmaking there has been little systematic examination of whether it has to date contributed toward better environmental management Neither have there been extensive empirical studies to examine how participation processes can be made more effective Democracy in Practice brings together for the first time the collected experience of 30 years of public involvement in environmental decisionmaking Using data from 239 cases the authors evaluate the success of public participation and the contextual and procedural factors that lead to it Thomas Beierle and Jerry Cayford demonstrate that public participation has not only improved environmental policy but it has also played an important educational role and has helped resolve the conflict and mistrust that often plague environmental issues Among the authors findings are that intensive problem solving processes are most effective for achieving a broad set of social goals and participant motivation and agency responsiveness are key factors for success Democracy in Practice will be useful for a broad range of interests For researchers it assembles the most comprehensive data set on the practice of public participation and presents a systematic typology and evaluation framework For policymakers political leaders and citizens it provides concrete advice about what to expect from public participation and how it can be made more effective Democracy in Practice concludes with a systematic guide for use by government agencies in their efforts to design successful public participation efforts **Public**

Participation and Better Environmental Decisions Frans H. J. M. Coenen, 2008-12-12 Public Participation and Better Environmental Decisions is about a specific promise that participation holds for environmental decision making Many of the arguments for public participation in inter national environmental policy documents are functional that is to say they see public participation as a means to an end Sound solutions to environmental problems require participation beyond experts and political elites Neglecting information from the public leads to legitimacy questions and potential conflicts There is a discourse in the literature and in policy practice as to whether decision making improves in quality as additional relevant information by the public is considered The promise that public participation holds has to be weighed against the limitations of public participation in terms of costs and interest conflicts The question that Public Participation and Better

Public Participation in Environmental Assessment and Decision Making National Research Council, Division of Behavioral and Social Sciences and Education, Committee on the Human Dimensions of Global Change, Panel on Public Participation in Environmental Assessment and Decision Making, 2008-11-07 Federal agencies have taken steps to include the public in a wide range of environmental decisions Although some form of public participation is often required by law agencies usually have broad discretion about the extent of that involvement Approaches vary widely from holding public information gathering meetings to forming advisory groups to actively including citizens in making and implementing decisions Proponents of public participation argue that those who must live with the outcome of an environmental decision should have some influence on it Critics maintain that public participation slows decision making and can lower its quality by including people unfamiliar with the science involved This book concludes that when done correctly public participation improves the quality of federal agencies decisions about the environment Well managed public involvement also increases the legitimacy of decisions in the eyes of those affected by them which makes it more likely that the decisions will be implemented effectively This book recommends that agencies recognize public participation as valuable to their objectives not just as a formality required by the law It details principles and approaches agencies can use to successfully involve the public
