Public Spaces Private Lives Democracy Beyond 9 11:

Public Spaces, Private Lives Henry A. Giroux, 2001 Offers progressive readers new and reinvigorated paths of engaged hope imagination and public involvement *Public Spaces, Private Lives* Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks *Public Spaces Private Lives* serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence *Public Spaces Private Lives* offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th *Public Spaces, Private Lives* Henry A. Giroux, 2003 *Challenges to Democracy In and Beyond Education* Richard Van Heertum, 2023-07-31 This book explores political cynicism as a driving force at the heart of the current crisis of democracy in the United States focusing on the crisis and the role of education popular culture and news media in fostering and fighting cynicism In this unique text Van Heertum draws on historical and contemporary data policy and current events to map the growth of a cynicism that risks undermining the democratic principles upon which American society is built Tracing the philosophical social and historical origins of an ubiquitous cynicism cultivated in political discourse media and educational policy the chapters then explore avenues to challenge cynicism and restore hope through a more affirmative discourse aesthetic education media and educational reform challenging rampant inequality and methods to rein in corporate power The book ultimately advocates for a radical democracy that can restore the power of the people to have a meaningful say in the decisions that affect their lives A timely and useful contribution to the field of education this book will be of interest to postgraduate students and researchers in the fields of educational policy and politics the sociology of education and American studies **The Cultural Politics of Post-9/11 American Sport** Michael Silk, 2013-06-17 Much of the writing on the post 9 11 period in the United States has focused on the role of official Government rhetoric about 9 11 Those who have focused on the news media have suggested that they played a key role in re defining the nation allowing the citizenry to come to terms with 9 11 in providing official understandings and interpretations of the event and setting the terms for a geo political military response the war on terror However strikingly absent from post 9 11 writing has been discussion on the role of sport in this moment This text provides the first book length account of the ways in which the sport media in conjunction with a number of interested parties sporting state corporate philanthropic and military operated with a seeming collective affinity to conjure up nation to define nation and its citizenry and to demonize others Through analysis of a variety of cultural products film children s baseball the

Super Bowl the Olympics reality television the book reveals how in the post 9 11 moment the sporting popular operated as a powerful and highly visible pedagogic weapon in the armory of the Bush Administration operating to define ways of being American and thus occlude other ways of being

Politics of Possibility Gary A. Olson, Lynn Worsham, Henry A. Giroux, 2015-12-03 In the probing interviews in this vibrant new book eminent scholars struggle with some of the most crucial issues facing contemporary intellectuals Poststructuralist philosopher Judith Butler discusses the pain of rigorous intellectual work saying that it is necessarily extremely hard labor as she examines the intersection of discourse and political action Award winning filmmaker philosopher and social theorist David Theo Goldberg reviews his life s work especially on issues of racism Literary critic and feminist philosopher Avital Ronell sets out to disrupt the standard logic of signification to force readers into fresh ways of perceiving a subject at hand Postcolonial theorist Homi Bhabha discusses how critical literacy is intimately connected to the question of democratic representation and he elaborates on how cultural difference can lead to a politics of discrimination And neo Marxist cultural critic Slavoj i ek takes readers on an exhilarating journey through a wide range of critical subjects

Speaking the Lower Frequencies Walter R. Jacobs, 2012-02-01 Speaking the Lower Frequencies demonstrates how students can be critical consumers of media while retaining the pleasure they derive from it In Walter R Jacobs s classes on media and society students use the instructor s experiences as a model for investigating their own histories By creating new social contexts and meanings the students learn to speak the lower frequencies Jacobs looks at the students reception and critique of pop culture texts like the movie I Like It Like That and the television show The X Files to provide evidence for the effects of alternative pedagogy on critical literacy He shows that when students are encouraged to be more than just passive receptors of the media they learn to develop active critical voices that they use both inside and outside the classroom Jacobs also explains how students can become more aware and active in attempts to create democratic possibilities for themselves and others
