With My People Jonathan Pulphus, 2025-09-16 A memoir of hard fought lessons and the price for justice When the local government in Ferguson Missouri and federal authorities failed in their duty to serve justice in 2014 college sophomore Jonathan Pulphus committed to being in the streets and battling for justice in the wake of Michael Brown Jr's murder This story traces a nine month journey toward justice Despite mistakes student activists made extraordinary strides toward transforming the community Many people aspire to fight for something larger than themselves and to make an impact Few understand what it takes to sustain a movement Even fewer know the expenses at which gains are made People would like for you to believe protest is an ineffective tool for change but history tells us that student activism has been a formidable force leading to substantive change throughout history Student activism has played a large role in societal transformation consider the 1964 Mississippi Delta or Apartheid Soweto Today's students continue this legacy but tell a new story like that of the Ferguson Uprising We know why people especially students become involved in community organizing But how should students organize With My People answers this fundamental and crucial question by bringing together

ethnography and notes on community building taking readers on a yearlong journey from the front lines of Ferguson to undergraduate campus life at Saint Louis University Using Pulphus's account of events and notes to students With My People reveals how youth can navigate setbacks to resist state violence and create opportunities for justice to prevail Jesuits and Race Nathaniel Millett, Charles H. Parker, 2024-12-01 Jesuits and Race examines the role that the Society of Jesus played in shaping Western understandings about race and explores the impact the Order had on the lives and societies of non-European peoples throughout history Jesuits provide an unusual if not unique lens through which to view the topic of race given the global nature of the Society of Jesus and the priests' interest in humanity's salvation conversion science and nature Jesuits' global presence in missions imperial expansion and education lends insight into the differences in patterns of estrangement and assimilation as well as enfranchisement and coercion with people from Africa Asia and the Americas The essays in this collection bring together case studies from around the world as a first step toward a comparative analysis of Jesuit engagement with racialized difference The authors hone in on labor practices social structures and religious agendas at salient moments during the long span of Jesuit history in this fascinating volume *Recording Russia* Gabriella Safran, 2022-11-15 Recording Russia examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth-century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid-century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people's words
