and other teaching strategies Public School Finance Kern Alexander, Richard G. Salmon, 1995 This book is designed as a building block approach to understanding the financing of public schools in the U S The philosophical and historical basis for financing public schools is presented and integrated with the economic rationale for public investment in education An Introduction to Public School Finance Benjamin Floyd Pittenger, 1925 Public School Finance Programs of the United States , 1953 **A Biennial Survey of Public School Finance in the United States, 1920-1922** Fletcher Harper Swift, 1923 **Public School Finance** United States. President, 1972 *Making Money Matter* National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Education Finance, 1999-11-30 The United States annually spends over 300 billion on public elementary and secondary education As the nation enters the 21st century it faces a major challenge how best to tie this financial investment to the goal of high levels of achievement for all students In addition policymakers want assurance that education dollars are being raised and used in the most efficient and effective possible ways The book covers such topics as Legal and legislative efforts to reduce spending and achievement gaps The shift from equity to adequacy as a new standard for determining fairness in education spending The debate and the evidence over the productivity of American schools Strategies for using school finance in support of broader reforms aimed at raising student achievement This book contains a comprehensive review of the theory and practice of financing public schools by federal state and local governments in the United States It distills the best available knowledge about the fairness and productivity of expenditures on education and assesses options for changing the finance system
