Puerto Rican Syndrome:

The Puerto Rican Syndrome Patricia Gherovici, 2010-05-04 Winner of the Gradiva Award in Historical Cultural and Literary Analysis and The 2004 Boyer Prize for Contributions to Psychoanalytic Anthropology During the 1950 s US Army medical officers noted a new and puzzling syndrome that contemporary psychiatry could neither explain nor cure These doctors reported that Puerto Rican soldiers under stress behaved in a very peculiar and dramatic manner exhibiting a theatrical form of pseudo epilepsy Startled physicians observed frightened and disoriented patients foaming at the mouth screaming biting kicking shaking in seizures and fainting The phenomenon seemed to correspond to a serious neurological disease yet as with some forms of hysteria physical examination failed to identify any sign of an organic origin This unusual set of symptoms entered into medical records as a group of striking psychopathological reaction patterns precipitated by minor stress and was designated Puerto Rican Syndrome In this lucid and sophisticated new work Patricia Gherovici thoroughly examines the so called Puerto Rican Syndrome in the contemporary world its social and cultural implications for the growing Hispanic population in the US and therefore for the US as a whole As a mental illness that is allegedly uniquely Puerto Rican this syndrome links nationality and culture to a psychiatric disease whose reappearance recalls the spectacular hysteria that led to the discovery of the unconscious and the birth of psychoanalysis Gherovici beautifully and systematically uses the combined insights of Freud and Lacan to examine the current state of psychoanalysis and the Hispanic community in America Blending these insights with history current events and her own case material Gherovici provides a startling fresh look at Puerto Rican Syndrome as social and cultural phenomenon She sheds new light on the future of American society and argues that psychoanalysis is not only possible but much needed in the ghetto *The Cry of the Senses* Ren Ellis

Neyra, 2020-10-26 In *The Cry of the Senses* Ren Ellis Neyra examines the imaginative possibility for sound and poetics to foster new modes of sensorial solidarity in the Caribbean Americas Weaving together the black radical tradition with Caribbean and Latinx performance cinema music and literature Ellis Neyra highlights the ways Latinx and Caribbean sonic practices challenge antiblack colonial post Enlightenment and humanist epistemologies They locate and address the sonic in its myriad manifestations across genres and forms in a legal trial and in the art and writing of Xandra Ibarra the Fania All Stars Beatriz Santiago Muñoz and Édouard Glissant and Eduardo Corral while demonstrating how it operates as a raucous form of diasporic dissent and connectivity Throughout Ellis Neyra emphasizes Caribbean and Latinx sensorial practices while attuning readers to the many forms of blackness and queerness Tracking the sonic through their method of multisensorial poetic listening Ellis Neyra shows how attending to the senses can inspire alternate ethical ways of collective listening and being

Gaines, 1992-08-17 This book outlines a new ethnopsychiatry one that considers popular or folk ethnomedicines and professional psychiatric systems in the same discourse effacing the traditional distinction between psychiatry and ethnopsychiatry The essays in this volume are from a diverse interdisciplinary group representing history psychology sociology and medicine as well as anthropology The author view both ethnomedical practices and illness as local cultural constructions They consider ideologies and institutions from both professional and popular ethnopsychiatric systems in America Western Europe South Africa the Caribbean Japan and India The book demonstrates that professional and popular psychiatric medicines lie along the same local cultural continua that professional scientific psychiatries and less formalized systems of local popular psychology are epistemological relatives aspects of common cultural discourses on normality and abnormality The essays reject the notion of a universal uniform reality of psychopathology beyond cultural boundaries but the data strongly support the cultural and historically constructed nature of ethnopsychiatry in its illness ideologies and institutions Contributors to this volume include Amy V Blue Thomas Csordas Ellen Dwyer Paul E Farmer M D Atwood D Gaines Helena Jia Hershel Janis Jenkins Pearl Katz Thomas Maretzki Naoki Nomura Charles Nuckolls Kathryn Oths Lorna Amarasingham Rhodes and Leslie Swartz Please Select Your Gender Patricia Gherovici, 2011-01-19 I have the worst birth defect a woman can have I was born with a penis and a pair of testicles Thus we meet Hera who shares her reason for starting psychoanalysis and whose statement embodies the debate over transgenderism rigorously dissected in *Please Select Your Gender* Is it a mental disorder as some would claim or a matter of sexual identity An orientation or a life choice Despite differing opinions transgenderism has lost much of its stigma over the past decade or so though perhaps none of its shock value Nevertheless the door is open for a reformulation of the hysterical question Am I a man or a woman Utilizing rich clinical vignettes and elements of Lacanian theory Patricia Gherovici demonstrates how the transgender discourse has both reoriented psychoanalytic practice and reframed debates about gender in American society at large She traverses historical theoretical and clinical grounds to explore what has been termed the democratizing of gender for what could be more democratic than the choice of one's own gender now able to be changed on demand Arguing for the depathologization of transgenderism *Please Select Your Gender* aims to revise current notions of human sexuality in general In doing so it challenges the theory and practice of psychoanalysis with questions typically addressed only indirectly but which are themselves transforming how analysis is done advancing new ideas for the clinic that

can be extrapolated to social and intellectual contexts in an effort to engage the broader dialogues of gender and sexuality

Psychoanalysis in the Barrios Patricia Gherovici,Christopher Christian,2018-12-11 Psychoanalysis in the Barrios Race Class and the Unconscious demonstrates that psychoanalytic principles can be applied successfully in disenfranchised Latino populations refuting the misguided idea that psychoanalysis is an expensive luxury only for the wealthy As opposed to most Latin American countries where psychoanalysis is seen as a practice tied to the promotion of

social justice in the United States psychoanalysis has been viewed as reserved for the well to do assuming that poor people lack the sophistication that psychoanalysis requires thus heeding invisible but no less rigid class boundaries Challenging such discrimination the authors testify to the efficacy of psychoanalysis in the barrios upending the unfounded widespread belief that poor people are so consumed with the pressures of everyday survival that they only benefit from symptom focused interventions Sharing vivid vignettes of psychoanalytic treatments this collection sheds light on the psychological complexities of life in the barrio that is often marked by poverty migration marginalization and barriers of language class and race This interdisciplinary collection features essays by distinguished international scholars and clinicians It represents a unique crossover that will appeal to readers in clinical practice social work counselling anthropology psychology cultural and Latino studies queer studies urban studies and sociology Queer Ricans Lawrence La Fountain-Stokes, 2009-07-13
