Learning Theory** Tai Wang, Mengsiying Li, 2024-03-12 This book explores the measurement of learning effectiveness and the
optimization of knowledge retention by modeling the learning process and building the mathematical foundation of multi
space learning theory Multi space learning is defined in this book as a micro process of human learning that can take place in
more than one space with the goal of effective learning and knowledge retention This book models the learning process as a
temporal sequence of concept learning drawing on established principles and empirical evidence It also introduces the
matroid to strengthen the mathematical foundation of multi space learning theory and applies the theory to vocabulary and
mathematics learning respectively The results show that for vocabulary learning the method can be used to estimate the
effectiveness of a single learning strategy to detect the mutual interference that might exist between learning strategies and
to predict the optimal combination of strategies In mathematical learning it was found that timing is crucial in both first
learning and second learning in scheduling optimization to maximize the intersection effective interval The title will be of
