Pumping Iron:

Pumping Iron Charles Gaines, George Butler, 2022-11-19 WHO ARE THEY AND WHY DO THEY DO IT these men who dedicate themselves to building bodies like Hellenistic statues who crisscross the world competing for titles as grandiose yet as publicly uncelebrated Mr America Mr Universe Mr Olympia as their gargantuan physiques whose daily lives are as rigidly defined and regulated by their obsession to mold the ideal body as any other master athlete s is towards perfecting his craft Yet rather than the public acclaim that normally follows an athletic triumph only their fellow muscle men know who they are and know the price they have paid to win their incredible bodies Novelist Charles Gaines and photographer George Butler have spent the last two years trying to capture the essence of this strange joyful exotic world We have been to quite a few places tracking bodybuilders seeing contests and putting together the materials here If we felt at times a little like 19th century explorers like Doughty perhaps off trekking through Arabia it was because we found bodybuilding to be as primeval and unmapped as parts of Labrador Nobody we discovered had been back into it to send a report on what it was like This struck us then as peculiar and it still does Pumping Iron Charles Gaines, 1974 Stronger Michael Joseph Gross, 2025-03-11 A groundbreaking richly informative exploration of the central role of muscle in human life and health Stronger sounds an urgent call for each of us to recognize muscle as the vital inextricable and effective partner of the soul Even if you ve never picked up a weight Stronger is for you Arnold Schwarzenegger Stronger tells a story of breathtaking scope from the battlefields of the Trojan War in Homer s Iliad where muscles enter the scene of world literature to the all but forgotten Victorian era gyms on both sides of the Atlantic where women build strength and muscle by lifting heavy weights to a retirement home in Boston where a young doctor makes the astonishing discovery that frail ninety year olds can experience the same relative gains of strength and muscle as thirty year olds if they lift weights These surprising tales play out against a background of clashing worldviews an age old competition between athletic trainers and medical doctors to define our understanding and experience of muscle In this conflict muscle got typecast Simplistic binaries of brain versus brawn created a persistent prejudice against muscle and against weight training the type of exercise that best builds muscular strength and power Stronger shows muscle and weight training in a whole new light With warmth and humor Michael Joseph Gross blends history and firsthand reporting in an inspiring narrative packed with practical information based on rigorous scientific studies from around the world The research proves that weight training can help prevent or treat many chronic diseases and disabilities throughout the lifespan including cardiovascular disease cancer type 2 diabetes osteoarthritis and depression Stronger reveals how all of us from elite powerlifters to people who have never played sports at all can learn to lift weights in ways that yield life s ultimate prize the ability to act upon the world in the ways that we wish **Building Bodies** Pamela L. Moore, 1997 Building Bodies is an exciting collection of articles that strive toward constructing theoretical models in which power bodies discourse and subjectivity interact in a space we can call the built body a dynamic politicized and biological site

Contributors discuss the complex relationship between body building and masculinity between the built body and the racialized body representations of women body builders in print and in film and homoeroticism in body building Linked by their focus on the sport and practice of body building the authors in this volume challenge both the way their various disciplines media studies literary criticism gender studies film and sociology have gone about studying bodies and existing assumptions about the complex relationship between power subjectivity society and flesh Body building in practice in representation and in the cultural imagination serves as an launching point because the sport and practice provide ready challenges to existing assumptions about the built body

Performance Anxieties Ann Pellegrini, 2014-02-04 Performance Anxieties looks at the on going debates over the value of psychoanalysis for feminist theory and politics specifically concerning the social and psychical meanings of racialization Beginning with an historicized return to Freud and the meaning of Jewishness in Freud's day Ann Pellegrini indicates how race and racialization are not incidental features of psychoanalysis or of modern subjectivity but are among the generative conditions of both Performance Anxieties stages a series of playful encounters between elite and popular performance texts Freud meets Sarah Bernhardt meets Sandra Bernhard Joan Riviere's masquerading women are refigured in relation to the hard female bodies in the film Pumping Iron II The Women and the Terminator and Alien films In re-reading psychoanalysis alongside other performance texts Pellegrini unsettles relations between popular and elite performance and performative

Impossible Bodies Christine Holmlund, 2013-11-05 Impossible Bodies investigates issues of ethnicity gender and sexuality in contemporary Hollywood Examining stars from Arnold Schwarzenegger and Clint Eastwood to Whoopi Goldberg and Jennifer Lopez Holmlund focuses on actors whose physique or appearance marks them as unusual or exceptional and yet who occupy key and revealing positions in today's mainstream cinema Exploring a range of genres and considering both stars and their sidekicks Holmlund examines ways in which Hollywood accommodates or doesn't a variety of impossible bodies from the outrageous physiques of Dolph Lundgren and Dolly Parton to the almost invisible bodies of Asian Americans Latinas and older actors

Out of Bounds Aaron Baker, Todd Boyd, 1997-02-22 Out of Bounds is a collection of essays that regards the media representation of professional sports through the lens of cultural studies Editors Aaron Baker and Todd Boyd contend that the popularity of sports derives not simply from their appeal as leisure entertainment but from their contribution to discussion of larger issues of class race gender and masculinity Essays in the collection challenge media wisdom about the apolitical nature of sports by examining how they contribute to the contested process of defining social identities Included within a broad range of works are Never Trust a Snake WWF Wrestling as Masculine Melodrama Henry Jenkins Mike Tyson and the Perils of Discursive Constraints Boxing Race and The Assumption of Guilt John Sloop and Visible Difference and Flex Appeal The Body Sex Sexuality and Race in the Pumping Iron Films Christine Holmlund
