Geographies of Gendered Punishment Anastasia Chamberlen, Mahuya Bandyopadhyay, 2024-07-25 This edited book explores new and enduring themes in the gendered experience of incarceration across the world Capturing global debates

and research on women's treatment, their coping and resistances in penal settings, the collection promotes a feminist agenda that is attuned to the inherently patriarchal and intersectionally oppressive structures of contemporary punishment. It seeks to map policies and campaigns around women's criminalisation across the world and offers one of the most comprehensive overviews of women's imprisonment experiences across the Global North and Global South. Each chapter focusses on a different geographic context and theme and aims to provide the intellectual groundwork for a critical world-wide movement advocating for women's decarceration. As a whole, the collection offers a robust empirical understanding of women's punishment in non-western Global South contexts and also revisits ongoing debates in feminist accounts of punishment in the Global North. In doing so, the collection examines hierarchical geopolitical relations between privileged and underprivileged nations, reflecting global inequalities and structural violence rooted in legacies of imperialism and colonialism. Overall, the edited collection shows how centering women's peripheralized experiences can radically reshape our understanding of punishment and offers a new intellectual, methodological and political means through which to think about gendered identity and imprisonment in the 21st Century.

The Palgrave Handbook of Prison Ethnography Deborah H. Drake, Rod Earle, J. Sloan, 2016-01-12. The Palgrave Handbook of Prison Ethnography provides an expansive overview of the challenges presented by qualitative and particularly ethnographic enquiry. The chapters reflect upon the means by which ethnographers aim to gain understanding, make sense of what they learn and the way they represent their finished work. The Handbook offers urgent insights relevant to current trends in the growth of imprisonment worldwide. In an era of mass incarceration, human-centric ethnography provides an important counter to quantitative analysis and the audit culture on which prisons are frequently judged. The Handbook is divided into four parts. Part I: About Prison Ethnography assesses methodological, theoretical and pragmatic issues related to the use of ethnographic and qualitative enquiry in prisons. Part II: Through Prison Ethnography considers the significance of ethnographic insights in terms of wider social or political concerns. Part III: Of Prison Ethnography analyses different aspects of the roles ethnographers take and how they negotiate their research settings. Part IV: For Prison Ethnography includes contributions that convincingly extend the value of prison ethnography beyond the prison itself. Bringing together contributions by some of the world's leading scholars in criminology and prison studies, this authoritative volume maps out new directions for future research. It will be an indispensable resource for practitioners, students, academics and researchers who use qualitative social research methods to further their understanding of prisons.

Criminal Justice Theory, Volume 26 Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14. Criminal Justice Theory: Explanations and Effects undertakes a systematic study of theories of the

criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use
