Punishment For Against:

Punishment: for & Against, 1971 *Against Capital Punishment* Herbert H. Haines, 1996-04-11 Built on in depth interviews with movement leaders and the records of key abolitionist organizations this work traces the struggle against capital punishment in the United States since 1972 Haines reviews the legal battles that led to the short lived suspension of the death penalty and examines the subsequent conservative turn in the courts that has forced death penalty opponents to rely less on litigation strategies and more on political action Employing social movement theory he diagnoses the causes of the anti death penalty movement's inability to mobilize widespread opposition to executions and he makes pointed recommendations for improving its effectiveness For this edition Haines has included a new Afterword in which he summarizes developments in the movement since 1994 *The Lash! A Protest Against Its Use in Punishment, Etc* William BENNETT (of Aberdeen.), 1876 *Family Punishment in Nazi Germany* R. Loeffel, 2012-05-29 In the Third Reich political dissidents were not the only ones liable to be punished for their crimes Their parents siblings and relatives also risked reprisals This concept known as Sippenhaft was based in ideas of blood and purity This definitive study surveys the threats fears and infliction of this part of the Nazi system of terror **The Punishment Response** Graeme Newman, 2017-07-28 Punishment occupies a central place in our lives and attitudes We suffer a profound ambivalence about its moral consequences Persons who have been punished or are liable to be punished have long objected to the legitimacy of punishment We are all objects of punishment yet we are also its users Our ambivalence is so profound that not only do we punish others but we punish ourselves as well We view those who submit too willingly to punishment as obedient verging on the groveling coward and we view those who resist punishment as disobedient rebels In *The Punishment Response* Graeme Newman describes the uses of punishment and how these uses change over time Some argue that punishment promotes discrimination and divisiveness in society Others claim that it is through punishment that order and legitimacy are upheld It is important that punishment is understood as neither one nor the other it is both This point simple though it seems has never really been addressed This is why Newman claims we wax and wane in our uses of punishment why punishing institutions are clogged by bureaucracy why the death penalty comes and goes like the tide Graeme Newman emphasizes that punishment is a cultural process and also a mechanism of particular institutions of which criminal law is but one Because academic discussions of punishment have been confined to legalistic preoccupations much of the policy and justification of punishment have been based on discussions of extreme cases The use of punishment in the sphere of crime is an extreme unto itself since crime is a minor aspect of daily life The uses of punishment and the moral justifications for punishment within the family and school have rarely been considered certainly not to the exhaustive extent that criminal law has been in this outstanding work **Encyclopedia of Capital Punishment in the United States, 2d ed.** Louis J. Palmer, Jr., 2008-08-06 This updated encyclopedia provides ready information on all aspects of capital punishment in America It

details virtually every capital punishment decision rendered by the United States Supreme Court through 2006 including more than 40 cases decided since publication of the first edition Entries are also provided for each Supreme Court Justice who has ever rendered a capital punishment opinion Entries on jurisdictions cite present day death penalty laws and judicial structure state by state with synopses of common and unique features Also included are entries on significant U S capital prosecutions legal principles and procedures in capital cases organizations that support and oppose capital punishment capital punishment s impact on persons of African Asian Hispanic and Native American descent on women and on foreign nationals and the methods of execution Essential facts are also provided on capital punishment in more than 200 other nations A wealth of statistical data is found throughout

Honor and Revenge: A Theory of Punishment Whitley R.P. Kaufman, 2012-08-28 This book addresses the problem of justifying the institution of criminal punishment It examines the paradox of retribution the fact that we cannot seem to reject the intuition that punishment is morally required and yet we cannot even after two thousand years of philosophical debate find a morally legitimate basis for inflicting harm on wrongdoers The book comes at a time when a new abolitionist movement has arisen a movement that argues that we should give up the search for justification and accept that punishment is morally unjustifiable and should be discontinued immediately This book however proposes a new approach to the retributive theory of punishment arguing that it should be understood in its traditional formulation that has been long forgotten or dismissed that punishment is essentially a defense of the honor of the victim Properly understood this can give us the possibility of a legitimate moral justification for the institution of punishment

Provocation and Punishment Samantha Joo, 2012-02-16 This book examines the problem of theodicy arising from the fall of Jerusalem 587 B C E in the book of Jeremiah It explores the ways in which the authors of the book of Jeremiah tried to explain away their God s responsibility while clinging to the idea of divine mastery over human affairs In order to trace the development of a particular book s understanding of God s role in meting out punishments this book analyzes all the passages containing the word pivotal to provoke to anger in Deuteronomistic History and the book of Jeremiah

To Punish or Persuade John Braithwaite, 1985-01-01 In To Punish or Persuade John Braithwaite declares that coal mine disasters are usually the result of corporate crime He surveys 39 coal mine disasters from around the world including 19 in the United States since 1960 and concludes that mine fatalities are usually not caused by human error or the unstoppable forces of nature He shows that a combination of punitive and educative measures taken against offenders can have substantial effects in reducing injuries to miners Braithwaite not only develops a model for determining the optimal mix of punishment and persuasion to maximize mine safety but provides regulatory agencies in general with a model for mixing the two strategies to ensure compliance with the law To Punish or Persuade looks at coal mine safety in the United States Great Britain Australia France Belgium and Japan It examines closely the five American coal mining companies with the best safety performance in the industry U S Steel Bethlehem Steel Consolidation Coal Company Island Creek Coal Company and

Old Ben Coal Company It also takes a look at the safety record of unionized versus non unionized mines and how safety regulation enforcement impacts productivity **Proceedings of the International Conference on Law Studies**
