Punishment Theory And Practice:

Punishment Mark Tunick, 2023-12-22 What actions should be punished Should plea bargaining be allowed How should sentencing be determined In this original penetrating study Mark Tunick explores not only why society punishes wrongdoing but also how it implements punishment Contending that the theory and practice of punishment are inherently linked Tunick draws on a broad range of thinkers from the radical criticisms of Nietzsche Foucault and some Marxist theorists through the sociological theories of Durkheim and Girard to various philosophical traditions and the law and economics movement He defends punishment against its radical critics and offers a version of retribution distinct from revenge that holds that we punish not to deter or reform but to mete out just deserts vindicate right and express society's righteous anger Demonstrating first how this theory best accounts for how punishment is carried out he then provides immanent criticism of certain features of our practice that don't accord with the retributive principle Thought provoking and deftly argued Punishment will garner attention and spark debate among political theorists philosophers legal scholars sociologists and criminologists What actions should be punished Should plea bargaining be allowed How should sentencing be determined In this original penetrating study Mark Tunick explores not only why society punishes wrongdoing but also how it implements punishment

Punishment, Communication, and Community R. A. Duff, 2003-05-15 The question What can justify criminal punishment becomes especially insistent at times like our own of penal crisis when serious doubts are raised not only about the justice or efficacy of particular modes of punishment but about the very legitimacy of the whole penal system Recent theorizing about punishment offers a variety of answers to that question answers that try to make plausible sense of the idea that punishment is justified as being deserved for past crimes answers that try to identify some beneficial consequences in terms of which punishment might be justified as well as abolitionist answers telling us that we should seek to abolish rather than to justify criminal punishment This book begins with a critical survey of recent trends in penal theory but goes on to develop an original account based on Duff's earlier *Trials and Punishments* of criminal punishment as a mode of moral communication aimed at inducing repentance reform and reconciliation through reparation an account that undercuts the traditional controversies between

consequentialist and retributivist penal theories and that shows how abolitionist concerns can properly be met by a system of communicative punishments In developing this account Duff articulates the liberal communitarian conception of political society and of the role of the criminal law on which it depends he discusses the meaning and role of different modes of punishment showing how they can constitute appropriate modes of moral communication between political community and its citizens and he identifies the essential preconditions for the justice of punishment as thus conceived preconditions whose non satisfaction makes our own system of criminal punishment morally problematic Punishment Communication and Community offers no easy answers but provides a rich and ambitious ideal of what criminal punishment could be an ideal of what criminal punishment could be and ideal that challenges existing penal theories as well as our existing penal theories as well as our existing penal practices
