Mathematical Analysis for Business, Economics, and the Life and Social Sciences Jagdish C. Arya, Robin W. Lardner, 1993 With an emphasis on techniques this volume focuses on the applications of basic mathematics and differential and integral calculus in the field of business economics and the life and social sciences. All mathematical theorems proofs and concepts are described intuitively and then mathematically. Reorganized and rewritten material includes chapters on exponentials and logarithms curve sketching and optimization application sections of straight lines and quadratic inequalities. A new section on difference equations and expanded coverage of differential equations is included. *Background Noise* Saúl Yurkievich, 2003 Background Noise introduces to the English speaking world the poetry of Argentinian writer Saul Yurkievich in a bilingual edition. His poetry is a play of language and ideas with language leading the way. His longer poems are collages full of similarities and contrasts that remain unresolved not circumscribed by a determination to harmonize or integrate. Also important to Yurkievich are sound and rhythm. His poems are like jazz solos spontaneously flowing in response to nothing but themselves. And therefore they are great joys to read aloud. But beneath the pleasures of Yurkievich's riffs there is a troubling despair. There is a sense in the poems of our inability to know to find to get what we desire. Writing in the tradition of Huidobro Vallejo and the early Neruda Yurkievich's work both celebrates and laments the world's pandemonium. The title poem begins tenebrous turbid turmoil turbulence an incantation of chaos. Also included in this volume is an interview with Yurkievich and his friend the late fiction writer Julio Cortazar about their approaches to writing. Book jacket

La distancia entre dos puntos Fernando García Maroto, 2014-05-29 Casal el protagonista de La distancia entre dos puntos es un profesor universitario que está viviendo una relación con una alumna. Al protagonista le atormenta más la diferencia de los que les separa que los rumores y cotilleos que puedan correr entre el claustro de profesores. En medio de estos agitados sentimientos Casal parece advertir con inusitada claridad todo lo que nos aparta de los demás: la edad, el idioma, la fealdad o la belleza, todas esas barreras infranqueables que nos mantienen aislados de unos de otros. A través de una prosa rotunda de unos caracteres bien marcados de una tensión de pensamiento García Maroto nos traza en esta novela un vívido retrato de la incomunicación y la soledad. Esa soledad que aguarda siempre para el protagonista al final del camino a ella es a la que parecen referirse todas las medidas que recalcan todas las distancias. Para ir de la persona A hasta la persona B
