Women of Kurdistan: A Historical and Bibliographic Study Shahrzad Mojab, Amir Hassanpour, 2021-04-19 Women of Kurdistan A Historical and Bibliographic Study documents a century long history of Kurdish women's struggles against oppressive gender relations and state violence It speaks to bibliographic silences on Kurdish women's silences that are systemic and structured with many factors contributing to their reproduction The book

records extensive literature on violence perpetrated by the family community and the state as well as presenting the reader with a vibrant archive of resistance and struggle of Kurdish women The analysis avoids the fashionable state centered scholarship which purifies processes of nation building state building and disguises their violence The image depicted of the women of Kurdistan in this bibliography is shaped also by the languages we have chosen English French and German It is a record of material in languages that are not spoken by the majority of the Kurds It will therefore be different from a bibliography of works in the Kurdish language which have a majority of Kurdish authors with more entries on topics such as poetry fiction education and arts Love and learning made the making of this bibliography imaginable It began more than 20 years ago when Amir was expanding his theoretical ground for class analysis of nationalism and peasant movement in the Kurdish region of Mukriyan Hassanpour 2021 Simultaneously I was engaged with debates on Marxist feminism and transnational feminism while grappling with post al tendencies in feminism such as post colonialism post structuralism and post modernism We wanted to better understand the explanatory power and political implications of Marx s dialectical historical materialism in explicating the intersecting and refracting relations of gender class race culture nation and nationalism This commitment nonetheless did not remain in the realm of epistemology as a disembodied intellectual exercise As a member of a dominant nation a Shirazi born Iranian I wanted to critically confront this national identity and the sense of belonging Amir sought to scrutinize patriarchal structures and gender relations in Kurdish history society culture and nation This intertwined mind and heart desire put us onto a path of renewed discoveries of our personal and intellectual relations In a nutshell this was the beginning of the making of Women of Kurdistan A Historical and Bibliographic Study Women of Kurdistan provides a meticulously researched source book for readers interested in women gender and sexuality in Kurdistan and the Middle East It covers a wealth of bibliographic material including both scholarly and non academic publications many of which have not previously been accessible to broader audiences But Women of Kurdistan is more than a source of information It is also an eloquent reflection on the entanglement of knowledge production and political power and a call to recognize scholarship s potential in shaping historical change Above all it is a passionate statement about the impossibility to comprehend the intersection of colonial capitalist and nationalist forces without attention to women s lives and struggles Marlene Sch fers British Academy Newton International Fellow University of Cambridge Women of Kurdistan is simply an excellent template for how to chronicle women s resistance politics By framing the Kurdish women s struggles within a historical materialism under different modes of production and discussing the political influence of five different nations on the Kurdish peoples the authors offer a rich context that surpasses the common fetishization of women s armed resistance Internationally known for their Marxist and feminist works Mojab and Hassanpour apply theories of nationalism capitalism peasantry knowledge production and relationship between state and non state to understand the Kurdish experience while honouring the struggle voice and poetry of Kurdish women activists The book is as unapologetically critical of regional and

religious hegemonies as it is of Kurdish patriarchies and is candid about the slipperiness of the concept of the ideal Kurdish woman while skeptical of the benefits of transnationalization for the women honoured in this book Afiya Zia author of Faith and Feminism Religious Agency or Secular Autonomy CONTENTS PART I THE MAKING OF THE BIBLIOGRAPHY THE STATE OF KNOWLEDGE ABOUT KURDISH WOMEN WOMEN OF KURDISTAN PART II WOMEN OF KURDISTAN A BIBLIOGRAPHIC STUDY GENERAL WORKS ARTS AND CULTURE CUSTOMS AND BELIEFS DISPLACEMENT REFUGEES AND MIGRATION EDUCATION ETHNIC FORMATIONS FEMINIST AND WOMEN S MOVEMENTS GENDER RELATIONS GENOCIDE GENDERCIDE WAR CRIMES AND CRIMES AGAINST HUMANITY GEOGRAPHY HEALTH AND MEDICINE HISTORY LANGUAGE LAW LITERATURE POLITICS RELIGION SOCIAL AND ECONOMIC ORGANIZATION WAR AND PEACE APPENDIX INDEX

Honour Based Crimes and the Law Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies

International Human Rights Law and Crimes Against Women in Turkey Ayşe Güneş, 2020-12-20 This book evaluates the effectiveness of current international human rights law and in particular the recent Istanbul Convention in eradicating so called honour killings in Turkey So called honour killings have become an issue of concern for the international community In Turkey in particular the practice still exists despite the adoption of the relevant human rights instruments The book argues that the improvement of the status of women in Turkey in accordance with gender equality as well as the application of the principle of state due diligence both requirements of the Istanbul Convention and international human rights law are fundamental means towards eradicating the killing of women in the name of honour

Using feminist approaches in particular the intersectionality approach the study looks at the application of such standards as well as the current obstacles Through such a lens the study discusses the strengths and weaknesses of the Turkish Constitution Turkish Civil Code Turkish Penal Code and Law to Protect Family and Prevent Violence Against Women and questions the judicial approach to the implementation of the women s right to life It identifies the lacunae in the Turkish legislation that allow inadequate legal protection for women and the inconsistency of the judicial approach to the definition of the so called honour killings in the judgements The study then recommends some concrete amendments to the relevant legal provisions in order to better reflect the international framework and the feminist approaches The book will be a valuable resource for academics researchers and policy makers in the areas of international human rights law and feminist legal theory

Clash of Modernities Khaldoun Samman, 2015-12-03 To understand the Middle East we must also understand how the West produced a temporal narrative of world history in which westemers placed themselves on top and all others below them In a landmark reinterpretation of Middle Eastern history this book shows how Arabs Muslims Turks and Jews absorbed revised yet remained loyal to this Western vision Turkish Kemalism and Israeli Zionism in their efforts to push their people forward accepted the narrative almost wholeheartedly eradicating what they perceived as archaic characteristics of their Jewish and Turkish cultures Arab nationalists negotiated a more culturally schizophrenic approach to appeasing the colonizer s gaze But so too Samman argues did the Islamists who likewise wanted to improve their societies But in order to modernize Islamists prescribed the eradication of Western contamination and reintroduced the prophetic stage that they believe if the colonizer and their local Arab coconspirators hadn t intervened would have produced true civilization Samman s account explains why Islamists broke more radically with the colonizer s insult For all these nationalists gender would be used as the measuring device of how well they did in relation to the colonizer s gaze
