Puritan Provincial Vision Scottish And American Literature In The Nineteenth Century:

The Puritan-Provincial Vision Susan Manning, 1990-05-10 This book suggests an interpretation of the characteristic qualities of Scottish and American literatures Considering the self consciously different stance which sets them apart from English literature the author develops the constituents of the puritan provincial vision a particular way of looking at life and man s relationship to what lies beyond himself

Scotland and the 19th-Century World ,2012-01-01 The nineteenth century is often read as a time of retreat and diffusion in Scottish literature under the overwhelming influence of British identity Scotland and the 19th Century World presents Scottish literature as altogether more dynamic with narratives of Scottish identity working beyond the merely imperial This collection of essays by leading international scholars highlights Scottish literary intersections with North America Asia Africa and Europe James Macpherson Francis Jeffrey Walter Scott Robert Louis Stevenson and John Davidson feature alongside other major literary and cultural figures in this groundbreaking volume

William Carlos Williams and Alterity Barry Ahearn, 1994-02-25 Many critics have noticed the paradoxes and contradictions in the work of William Carlos Williams but few have analyzed them in detail Professor Ahearn argues that Williams criticism has not gone far enough in recognizing the uses Williams saw for contradiction He contends that Williams began to acquire his own voice as a poet when he recognized that he could be a vehicle for contending voices His reading departs from previous examinations of the early poetry in the emphasis it places on the poems as expressions of Williams social position We find a Williams whose contribution to modernism came not through a radical break with tradition or a rejection of inherited poetic norms alone but rather in a cultivation of tension conflict and a kind of poetic crisis that could be held forth as the metier of the modernist writer

The Figures of Edgar Allan Poe Gero Guttzeit, 2017-05-08 The Figures of Edgar Allan Poe is the first study to address the rhetorical dimensions of Poe s textual and discursive practices It argues that Poe is a figure and figurer of the emergence of the modern understanding of literature in the early nineteenth century that resulted from the birth of the romantic author and the so called death of rhetoric Building on accounts of Poe as a skilled navigator of American antebellum print culture Gero Guttzeit reinterprets Poe as representative of the vital role that transatlantic rhetoric played in antebellum literature He investigates rhetorical figures of the author in Poe s critical writings tales poems and lectures to give a new account of Poe s significance for antebellum literary culture In so doing he also proposes a general rhetorical theory of theoretical poetical and performative figures of the author Beyond Poe studies the book intervenes in current debates on the romantic origins of the modern author and demonstrates that rhetorical theory offers new ways of exploring authorship beyond the nineteenth century

Edward Gibbon and the historian of the American Revolution David Ramsay in the context of political and national debates in France Scotland England and America and it investigates the nature and degree of their intellectual investment in the idea of a common European civilisation Karen O'Brien combines the methodologies of literary criticism and intellectual history to explore debates about Enlightenments and the political uses of narrative Where previous studies have emphasised the growth of nationalism in eighteenth century literature she reveals the development of cosmopolitan ways of thinking beyond national cultural issues

Reynolds, 1996-04-01 Drawing on a range of material from archives in the USA and from a variety of primary historical sources this study places Cather's major fiction in its cultural context Reynolds explores progressivism primitivism and Americanization in such novels as *My Antonia* and *O Pioneers* Willa Cather in Context develops interdisciplinary readings of this important Nebraskan novelist placing her as a writer actively engaged with many of the key debates of early twentieth century America from immigration to evolutionary theory

Scots in the North American West, 1790-1917 Ferenc Morton Szasz, 2000 Scots trappers dominated the fur trade often proving more loyal to clan than to trading company or nation Relying on centuries of experience raising livestock for British markets Scottish investors and managers became highly visible in the post Civil War western cattle industry with thriving outfits such as the Swan Land and Cattle Company in Wyoming They introduced new breeds to western ranching such as the Aberdeen Angus that remain popular today Similarly Scots herders dominated the western sheep industry running herds of over 100 000 animals Andrew Little's sheep ranch in Idaho was so famous that a letter addressed simply Andy Little USA found its intended recipient

The Regenerate Lyric Elisa New, 1993-05-28 Elisa New examines the poems in great detail offering searching readings and concluding finally that it is regeneracy rather than originality that is the American poet's modus operandi and native mandate
