Pursuing History Middle English Manuscripts And Their Texts:

Pursuing History Ralph Hanna, 1996 This volume argues through a series of selected local studies for the importance of textual criticism as a fundamental act of historical interpretation and recovery pointing out the need for attention to the physical bearers of our knowledge of the English Middle Ages the books themselves and the ignored and alienating features of manuscript culture The book begins with three essays that seek to problematize medieval book production to show the procedure as more a fluid and emergent than a foreplanned process The following two essays provide theoretical statements about the textual uses of manuscripts *Middle English Manuscripts and their Legacies*, 2021-12-06 This volume celebrates and extends the extraordinary and transformative work of Ian Doyle on medieval manuscripts and their legacies Eighteen original contributions by eminent international scholars of manuscript studies and history of the book present new research on textual issues manuscript preservation and circulation manuscripts and print and the afterlives of manuscripts Essays adopt the multi faceted and nuanced approaches to manuscript studies and history of the book characteristic of Ian Doyle's work taking up topics to which his research has drawn attention extending his studies of particular manuscripts scribes and networks and exploring his remarkable contributions to the field Contributors are Ralph Hanna Susan Powell Julia Boffey David Rundle James Willoughby Carol Meale Martha Driver William Marx Veronica O Mara Richard Gameson Kathleen Scott Margaret Connolly Richard Beadle A S G Edwards Elizabeth Rainey Pamela Robinson Toshi Takamiya Linne Mooney and Derek Pearsall Making History with Manuscripts in Medieval and Early Modern Europe Johannes Junge Ruhland, 2025-06-02 This volume interrogates the role of the manuscript medium in conveying history to medieval and early modern readers The contributors adopt a capacious understanding of history to explore history writing in its materiality from a variety of methodological and disciplinary perspectives The core contentions of this book are that the material features of manuscripts helped shaping historical narratives and defining history conceptually and that therefore the makers of these manuscripts played an instrumental role in history writing alongside authors Ranging from the ninth to the sixteenth centuries and comprising materials from across Western Europe in Latin and the vernaculars the ten chapters of this volume uncover stakes and strategies tied to highly specific contexts such as late thirteenth century Corbie or fifteenth century Zurich yet partaking in a shared practice of history writing with manuscripts Manuscript makers made history through layout rewriting illumination compilation choice of script and annotation and conferred history writing its material dimension This volume therefore situates the writing of history in its material dimension and invites us to consider medieval and early modern historiography in its medium Medieval English Manuscripts and Literary Forms Jessica Brantley, 2022-12-13 In *Medieval English Manuscripts and Literary Forms* Jessica Brantley offers an innovative introduction to manuscript culture that uses the artifacts themselves to open some of the most vital theoretical questions in medieval literary studies With nearly 200 illustrations many of them in color the book offers both a broad survey of the physical forms and cultural histories

of manuscripts and a dozen case studies of particularly significant literary witnesses including the Beowulf manuscript the St Albans Psalter the Ellesmere manuscript of the Canterbury Tales and The Book of Margery Kempe Practical discussions of parchment scripts decoration illustration and bindings mix with consideration of such conceptual categories as ownership authorship language miscellaneity geography writing editing mediation illustration and performance as well as of the status of the literary itself Each case study includes an essay orienting the reader to particularly productive categories of analysis and a selected bibliography for further research Because a high quality digital surrogate exists for each of the selected manuscripts fully and freely available online readers can gain access to the artifacts in their entirety enabling further individual exploration and facilitating the book's classroom use Medieval English Manuscripts and Literary Forms aims to inspire a broad group of readers with some of the excitement of literary manuscript studies in the twenty first century The interpretative frameworks surrounding each object will assist everyone in thinking through the implications of manuscript culture more generally not only for the deeper study of the literature of the Middle Ages but also for a better understanding of book cultures of any era including our own
