The Rise and Fall of 19th Century Idealism Holbrook Jackson,1971 *Dreamers of Dreams* Holbrook Jackson,1890-01

Libertarian Thought in Nineteenth Century Britain William R. McKercher,2016-07-22 This book first published in 1987 aims to characterise and identify the intellectual heritage of the proponents of the libertarian tradition To set this within a theoretical framework these ideas will be examined by using the pragmatic and conceptual formulations of freedom and authority two notions which are central to any understanding of political philosophy in the nineteenth and twentieth century This title will be of interest to students of history philosophy and politics Henrik Ibsen and the Birth of Modernism,2008-02-14 Henrik Ibsen 1828 1906 is the founder of modern theater and his plays are performed all over the world Yet in spite of his unquestioned status as a classic of the stage Ibsen is often dismissed as a boring old realist whose plays are of interest only because they remain the gateway to modern theater In *Henrik Ibsen and the Birth of Modernism* Toril Moi makes a powerful case not just for Ibsen s modernity but also for his modernism *Henrik Ibsen and the Birth of Modernism* situates Ibsen in his cultural context emphasizes his position as a Norwegian in European culture and shows how important painting and other visual arts were for his aesthetic education The book rewrites literary history reminding modern readers that idealism was the dominant aesthetic paradigm of the nineteenth century Modernism was born in the ruins of idealism Moi argues thus challenging traditional theories of the opposition between realism and modernism By reading Ibsen s modernist plays as investigations of the fate of love in an age of skepticism Moi shows why Ibsen still matters to us In this book Ibsen s plays are showed to be profoundly concerned by theater and theatricality both on stage and in everyday life Ibsen s unsettling explorations of women men and marriage here emerge as chronicles of the tension between skepticism and the everyday and between critique and utopia in modernity This radical new account places Ibsen in his rightful place alongside Baudelaire Flaubert and Manet as a founder of European modernism **Routledge Library Editions: Social and Political Thought in the Nineteenth Century** Various Authors,2022-07-30 This set reissues eight books that explore the social and political thought of the nineteenth century The titles in this set originally published between 1943 and 2001 examine several of the important figures of the time including Jeremy Bentham and Thomas Carlyle whilst also examining political movements and the emergence and growth of libertarian thought This set will be of particular interest to students of social and political history **Eleven Nineteenth Century American Authors** D. D. Zink,1959 **The Oxford Handbook of Philosophy and Literature** Richard Eldridge,2009-03-27 This title investigates literature as a form of attention to human life Various forms of attention are considered and in each case the effort is to track and evaluate how specific modes and works of imaginative literature answer to important needs of human subjects **Against Socialist Illusion - A Radical Argument** David Selbourne,1984-11-01 **Catalog of Copyright Entries, Third Series** Library of Congress. The Darkening Glass John D. Rosenberg, 1986 *Modernism, Magazines, and the British avant-garde* Faith

Binckes, 2010-05-20 This book is a re-examination of the fertile years of early modernism immediately preceding the First World War. During this period, how, where, and under whose terms the avant-garde in Britain would be constructed and consumed were very much to play for. It is the first study to look in detail at two little magazines marginalised from many accounts of this competitive process: *Rhythm* and *The Blue Review*. By thoroughly examining not only the content but the interrelated networks that defined and surrounded these publications, Faith Binckes aims to provide a fresh and challenging perspective to the on-going reappraisal of modernism. Founded in 1911 and edited by John Middleton Murry with assistance from Michael Sadleir and subsequently from Katherine Mansfield, *Rhythm* and *The Blue Review* featured a series of pivotal moments. *Rhythm* was the arena for a challenge to Roger Fry's vision of Post-Impressionism for the introduction of Picasso to a British audience for early short stories and reviews by Lawrence and for Mansfield's discovery of a voice in which to frame her breakthrough writing on New Zealand. A further context for many of these experiments was the extended and acrimonious debate *Rhythm* conducted with A. R. Orage's *New Age* in which issues of the proper gender, generation, and formulation of modernity were debated month by month. However, reading magazines as vehicles for avant-garde development can only provide half the story. The book also pays close attention to their dialogic, reproductive, and periodical nature and explores the strategies at work within the terminology of the new. Crucially, it argues that they offer compelling material evidence for the consistently mobile and multiple boundaries of the modern and puts forward a compelling case for focusing upon the specificity of magazines as a medium for literary and artistic innovation.

It takes as its starting point a debate in organization studies about the foundations of

organizational research This debate however is running into difficulties regarding the basic concept of the reality that organization studies deal with that is regarding the ontology of organization A convincing organizational ontology is not in sight Therefore Krijnen introduces a new meta perspective offering a more comprehensive and more fundamental social ontology in general as well as an organizational ontology in particular Exploring the Kantian and Hegelian tradition of philosophy he convincingly shows that a rejuvenated type of German idealism contains intriguing possibilities for developing a present day social and organizational philosophy *Stewart Headlam's Radical Anglicanism* John Richard Orens, 2010-10-01 Standing in stark contrast to the conservative churchmen of Victorian Britain the Anglican clergyman Stewart Headlam was a passionately progressive reformer a champion of the working poor especially women a defender of the music hall performers his colleagues attacked as licentious and in short a man of God who remained firmly and controversially engaged with the society in which he lived and worked This book the first significant study of Headlam since 1928 paints a rich and complex picture of this larger than life man of the cloth charting the trail he blazed across the social political and religious landscape of late nineteenth and early twentieth century Britain Dissatisfied from an early age with his family's Evangelical faith Headlam became an Anglican curate but his political views were increasingly radicalized as he befriended working class atheists and trade union leaders John Richard Orens details Headlam's repeated conflicts with the establishment figures of his faith over his defense of music hall ballet performers right to reveal their legs his role in the early years of the Fabian Society his anti puritanism and his passionate socialism Headlam was even instrumental in having Oscar Wilde bailed out of prison following the writer's arrest for homosexual offenses With this intellectual biography Orens places Headlam's life beliefs and actions in the context of the period contributing to the ongoing debate about the proper relationship between Christianity on the one hand and society sexuality and the arts on the other *Philosophy, History, and Theology* Alan P.F. Sell, 2012-04-06 Alan Sell here presents a selection of his wide ranging informative and entertaining reviews Among philosophical themes discussed are Locke and the Enlightenment Richard Price John Stuart Mill philosophical idealism and analytical philosophy of education and of religion Historical studies run from the Middle Ages onwards and encompass English Welsh and Scottish Nonconformity the Evangelical Revival the Oxford Movement theological education American Reformed thinkers the crisis of belief and the Social Gospel in Canada and evangelical and liberal theology Theological topics include Origen Calvin and Dutch Reformed thinkers American Baptists Mercersburg Theology Scottish theology liberation theology assurance the atonement ecclesiology ecumenism art and theology Christian ethics worship and spirituality **Special Bibliography Series** ,1957 **Emerson's Apostasy** Mary Worden Edrich, 1965
