Science The Educated Man Selected Spee:

The Science of Speech Benjamin Dumville,1909 *Conquering Resources: The Growth and Decline of the PLA's Science and Technology Commission for National Defense* Benjamin C. Ostrov,Richard P. Suttmeier,2019-07-26 This case study seeks to explain how organizations grow and the limits to that growth when an organization engaged in policy implementation lacks the resources necessary to achieve policy goals The discussion of the basis of conflict that emerges from this study is of lasting significance For years studies of this issue have pointed to various models of factionalism stressing the informal character of the groups involved In Professor Ostrov s study however conflict is shown to have a supra Cultural Revolutionary institutional basis in this and other key units **Cai Yuanpei: Selected Writings on Education** Leiluo Cai,2024-01-15 This collection of writings traces the evolution and revolution of Chinese modern education in the early twentieth century initiated by Cai Yuanpei 1868 1940 the first Minister of Education of the Republic of China President of Peking University 1916 1927 and the founder of Academia Sinica This volume illustrates Cai Yuanpei s educational thoughts one of which is known as freedom of thought and academic inclusiveness through his own words from his political social and academic endeavors Cai navigated the landscape of Chinese education at the time bridging the gap between tradition and revolution East and West and setting the cornerstone of the Chinese modern education system His innovative ideology remains significant in the context of Chinese education reforms in the 21st century Quarterly Journal of Speech Education ,1915 Chinese Studies in the History and Philosophy of Science and Technology Fan Dainian,Robert S. Cohen,2013-03-09 The articles in this collection were all selected from the first five volumes of the Journal of Dialectics of Nature published by the Chinese Academy of Sciences between 1979 and 1985 The Journal was established in 1979 as a comprehensive theoretical publication concerning the history philosophy and sociology of the natural sciences It began publication as a response to China s reform particularly the policy of opening to the outside world Chinese scholars began to undertake distinctive original research in these fields This collection provides a cross section of their efforts during the initial phase To enable western scholars to understand the historical process of this change in Chinese academics Yu Guangyuan s On the Emancipation of the Mind and Xu Liangying s Essay on the Role of Science and Democracy in Society have been included in this collection Three of the papers included on the philosophy of science are discussions of philosophical issues in cosmology and biology by scientists themselves The remaining four are written by philosophers of science and discuss information and cognition homeostasis and Chinese traditional medicine the I Ching Yi Jing and mathematics etc Papers have been selected on the history of both classical and modern science and technology the most distinctive of which are macro comparisons of the development of science in China and the west Some papers discuss the issue of the demarcation of periods in the history of science the history of ancient Chinese mathematics astronomy metallurgy machinery medicine etc Others discuss the history of modern physics and biology the history of historiography of science in China and the history of

regional development of Chinese science and technology Also included are biographies of three post eighteenth century Chinese scholars Li Shanlan 1811 1882 Hua Hengfang 1833 1902 and Cai Yuanpei 1868 1940 who contributed greatly to the introduction of western science and scholarship to China In addition three short papers have been included introducing the interactions between Chinese scholars and three great western scientists Niels Bohr Norbert Wiener and Robert A Millikan
