Loving A Woman In Two Worlds:

Loving a Woman in Two Worlds Robert Bly, 1987 **The Incorporative Consciousness of Robert Bly** Victoria Frenkel Harris, 1992 Victoria Frenkel Harris traces the aesthetic journey of poet Robert Bly from his early structured works of mystical imagery and lyrical landscapes to his recent explorations of intimate relationships and male socialization Examining the various ways Bly's prose poems articulate his opposition to the Vietnam War and his recent writings manipulate more formal patterns in detailing the intricacies of human relationships Harris labels this evolution in form subject and imagery the incorporative consciousness incorporative because it assimilates Jungian psychological categories international poetic traditions and a compelling breadth of topics Harris relies in part on contemporary feminist theory to throw revealing new light on Bly's recent works Though sympathetic to Bly Harris finds that in spite of his affirmation of the interaction of psychic creative and intellectual energies in both sexes the poet's later erotic poems tend to objectify women in counterproductive ways Bly's idealization of woman as a Jungian universal Harris contends can blind him toward actual women Harris is at her best as she delimits with balance and precision the full complexity of the poet's work **Sex and the Intelligence of the Heart** Julie McIntyre, 2012-04-26 Explores how Nature underlies sexuality and intimacy Examines how to regain intimacy in our relationships in a way that embraces our hidden wild nature and restores the sacred to our lives Provides sacred sex and intimacy building practices for partners and exercises to reconnect with the intuitive intelligence of the heart remove our emotional armor and cultivate a deeper relationship with the Earth Shows how by healing our relationship with Nature and our sexuality we move toward healing the whole planet Nature is having sex all the time that's one of the reasons we feel so alive when we are immersed in it Sexuality is essential to the sensation of Nature in your own body of connecting to the piece of Earth closest to you your own flesh and bones Many a couple has been overcome by passion while walking in the woods or on the beach many a soul has found solace or epiphany in Nature Living in accordance with Nature depends on you being your true whole self a sexual sensual erotic fully alive human being Exploring the territory of intimacy sacred sex and emotional healing as a journey to wholeness Julie McIntyre examines the sacred relationship between sexuality and the Earth and reveals how to create deep lasting intimacy with your lover by recapturing the wild spontaneous natural sexuality that is your birthright Detailing the process of moving from your head to the secret garden of your heart she provides exercises to heal your psyche of old emotional trauma reconnect with the intuitive intelligence of the heart and cultivate a deeper relationship with the Earth in order to trust yourself and become vulnerable and open with your lover and thus truly intimate She shows how there is a direct relationship between our beliefs and values about sex and intimacy and our beliefs and values about the environment and the Earth She reveals how by healing our separation from Nature and our sexuality we can bring the sacred back into our lives shape our own ecstatic sexual experiences and move toward healing the whole planet

Back from the Far Field Bernard W. Quetchenbach, 2000 Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets for example and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world Examining the implications of this dilemma Bernard W. Quetchenbach locates the poets Robert Bly Gary Snyder and Wendell Berry within two traditions the American nature writing tradition and the newer tradition of contemporary poetics He compares the work of two other twentieth century poets Robinson Jeffers and Theodore Roethke to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work's subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry

Verdi and/or Wagner: Two Men, Two Worlds, Two Centuries Peter Conrad, 2011-11-07 An exploration of the lives and works of Verdi and Wagner as well as their respective legacies to the present day written by a noted cultural critic This is the first book to compare these two composers and cultural heroes both of whom were born in 1813 and achieved huge national and international renown in their lifetimes Yet not only did they never meet but the differences between them in music culture environment significance and legacy were profound Peter Conrad begins his tale in a public park in Venice home to a pair of statues of the composers

that are positioned so as to appear to shun each other This provides a fitting starting point for his argument that they represent two opposite yet equally integral and compelling dimensions of European culture north versus south cerebral versus sensual proud solitude versus human connection epic mythmaking versus humane magnanimity The book is a richly argued tour de force that engages passionately and profoundly with music biography history politics philosophy psychology and culture in the broadest sense As Conrad concludes At one time or another if not simultaneously we still need the two contradictory complementary kinds of music that Verdi and Wagner left us **Songs of Two Worlds** Lewis Morris,1871
