Johnson, 2022-09-08 The nation state is a European invention of the 18th and 19th centuries In the case of the German nation in particular this invention was tied closely to the idea of a homogeneous German culture with a strong normative function As a consequence histories of German culture and literature often are told from the inside as the unfolding of a canon of works representing certain core values with which every person who considers him or herself German necessarily must identify But what happens if we describe German culture and its history from the outside And as something heterogeneous shaped by multiple and diverse sources many of which are not obviously connected to things traditionally considered German Emphasizing current issues of migration displacement systemic injustice and belonging *Germany from the Outside* explores new opportunities for understanding and shaping community at a time when many are questioning the ability of cultural practices to effect structural change Located at the nexus of cultural political historiographical and philosophical discourses the essays in this volume inform discussions about next directions for German Studies and for the Humanities in a fraught era

**Bertolt Brecht's Adaptations and Anti-capitalist Aesthetics Today** Anthony Squiers, 2025-02-13 This book examines Brecht's theory and method of adaptation It first reconstructs it into a single framework using four key Brechtian concepts *Fabel* *gestus* *estrangement effects* and *historicizing* It then uses that framework to analyse four Brechtian adaptations *The Tutor* *Don Juan* *Socrates Wounded* and *Kriegsfibel* It argues that adaptation occupies a previously unrealised central place in Brecht's thought demonstrating that he provides us with a unique way to think about adaptation as material transformation It concludes by describing how Brecht is useful for anti capitalist aesthetics today because through him one can foster a new consciousness which enables better social conditions to be created This book is practical for both theatre practitioners and artists as well as theorists
