Defining Love Thomas Jay Oord,2010-06-01 Some scientific studies suggest that human beings are innately selfish and that Christian virtues like self sacrifice are a delusion In this intriguing volume esteemed theologian Thomas Jay Oord interprets the scientific research and responds from a theological and philosophical standpoint providing a state of the art overview of love and altruism studies He offers a definition of love that is scientifically theologically and philosophically adequate As Oord helps readers arrive at a clearer understanding of the definition recipients and forms of love he mounts a case for Christian agape and ultimately for a loving God Mystical Theology William Johnston,1995 From the earliest centuries there has existed a Christian theology of mysticism defining the state which Bernard Lonergan called a being in love with God St John of the Cross wrote such a theology for the sixteenth century calling it the science of love Now William Johnston one of the great spiritual writers of our time attempts to do the same for the twenty first century In Part One of Mystical Theology Johnston surveys Christian mysticism through the centuries Johnson shows that such a theology today must dialogue with modern science and with Eastern religions Part Two provides this dialogue where Johnston engages Einstein s theories as well as Zen Buddhism In Part Three it becomes clear how the science of love is no longer an esoteric discipline for monks and nuns In Johnston s writing it becomes accessible to all modern people grappling with problems of our age

Forthcoming Books Rose Arny,1993 *The First Love Story* Bruce Feiler,2018-03-20 An exploration of the way Adam and Eve introduced the idea of love into the world and how they continue to shape our deepest feelings about

relationships family and togetherness Since antiquity Adam and Eve have stood at the center of every conversation about men and women Yet instead of celebrating them history has blamed them for bringing sin deceit and death into the world In this fresh retelling of their story Bruce Feiler travels from the Garden of Eden in Iraq to the Sistine Chapel in Rome discovering how Adam and Eve should be hailed as exemplars of a long term healthy resilient relationship At a time of discord and fear over the strength of our social fabric Feiler shows how history s first couple can again be role models for unity forgiveness and love

HESSE, 2022-09-05 Deacon Robert Hesse is uniquely qualified to write this scientifically accurate and inspirational gateway into the mind and heart of God through the interrelationship between faith and science Drawing upon his Ph D in Physical Chemistry his background in Trappist mystical theology and years of leadership in interreligious dialogue he provides a glimpse into the unrestricted consciousness from which springs the equations of physics the space time
