Governance Innovations in the Asia-Pacific Region Gambhir Bhatta, Joaquin L. Gonzalez III, 2019-01-15 Published in 1998 The debate on what constitutes good governance and more importantly how to attain it is not a new issue The elusive and pluralistic nature of governance ensures that much more needs to be studied about the specific incidence of good governance before a unifying theme on how exactly to develop a universal framework of application of governance can be finalized It is within this context that this book seeks to fill a vacuum in the theory practice dichotomy that it argues has dominated the debate on governance so far

Health, Dignity and Development R. L. Lenton, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company

Community Medicine - Preventive and Social Medicine Mr. Rohit Manglik, 2024-06-24 Covers health promotion disease prevention epidemiology and healthcare delivery in a community setting

Mexico, Central, and South America: Social movements Jorge I. Domínguez, 2001

Can the Environment Wait? World Bank, 1997

Livable Cities? Peter Evans, 2002-02-01 The sprawling cities of the developing world are vibrant hubs of economic growth but they are also increasingly ecologically unsustainable and for ordinary citizens

increasingly unlivable Pollution is rising affordable housing is decreasing and green space is shrinking Since three quarters of those joining the world's population during the next century will live in Third World cities making these urban areas more livable is one of the key challenges of the twenty first century This book explores the linked issues of livelihood and ecological sustainability in major cities of the developing and transitional world Livable Cities identifies important strategies for collective solutions by showing how political alliances among local communities nongovernmental organizations and public agencies can help ordinary citizens live better lives
