Lower Piedmont Country:

Lower Piedmont Country Herman Clarence Nixon, 1946 **Lower Piedmont Country** H.C. Nixon, 1984 **Lower Piedmont Country** Herman Clarence Nixon, 1984-05-01 This classic examination of the Southern hill country surveys the history politics religion economy and folkways of the region as the author knew them in the Great Depression and World War II *Origins of Southern Radicalism* Lacy K. Ford, 1988 In the sixty years before the American Civil War the South Carolina Upcountry evolved from an isolated subsistence region that served as a stronghold of Jeffersonian Republicanism into a mature cotton producing region with a burgeoning commercial sector that served as a hotbed of Southern radicalism This groundbreaking study examines this startling evolution tracing the growth logic and strategy of pro slavery radicalism and the circumstances and values of white society and politics to analyze why the white majority of the Old South ultimately supported the secession movement that led to bloody civil war **The Wilson Bulletin** , 1923 **Poor But Proud** Wayne Flynt, 1989 After examining origins Flynt Southern history Auburn U studies farmers textile workers coal miners and timber workers in depth and discusses family structure folk culture the politics of poor whites and their attempts to resolve problems through labor unions and political movements Annotation copyrighted by Book News Inc Portland OR **Science** John Michels (Journalist), 1900 **Fertilizer Analyses of the Fertilizer Control Including Official Analyses of Spring and Fall Samples of 1895** F. E. Hege, Frank Berton Carpenter, Frederick Edmund Emery, Gerald McCarthy, Herbert Bemerton Battle, 1895 *Proceedings of the Annual Convention* Society of American Florists and Ornamental Horticulturists, 1902 *Proceedings of the Annual Conventions* Society of American Florists and Ornamental Horticulturists, 1902 *Proceedings of the Annual Convention of the Society* Society of American Florists and Ornamental Horticulturists, 1902 *The Country Gentleman* , 1928 *White Land, Black Labor* Charles L. Flynn, Jr., 1999-03-01 The society of the postbellum South was built upon two interweaving but ultimately irreconcilable systems a racist caste system and an economic class system The caste system was supposed to assure that all whites would be equals above the underclass of black laborers But the class system that emerged in the years after the war placed lower class whites in the same economic position as the emancipated slaves a situation totally at odds with prevailing white ideology In *White Land Black Labor* Charles Flynn examines the interplay of the caste and class systems of Reconstruction Georgia revealing how the efforts of both the planters and poorer whites to retain blacks in a position of subservience assured that in this state as in the South as a whole there would be little significant economic progress until well into the next century The caste faith of the white Georgians encouraged landowning employers to seek increased exploitation rather than economic growth at the same time it motivated landless whites to focus their energies on the greater subordination of black laborers rather than on achieving equality with wealthier whites Despite the facade of southern caste faith the constitutional amendments adopted during Reconstruction assured that blacks could not legally be treated as a separate laboring class As a result the measures

employed by the planters to increase their control over the black laborers applied to a growing number of landless whites as well. With blacks more free and whites more oppressed than the prevailing social ideology deemed appropriate, the distinction between the system of class division among whites and the caste barrier that separated blacks and whites began to fracture, leading to political dissent in the nineteenth century and setting the stage for the demagogue politicians of the twentieth century.

Utilization and Cost of Labor for Ginning Cotton Cecil Curtis Cable, 1965. *The Cotton Plantation South since the Civil War* Charles S. Aiken, 2020-03-24. Winner of the J. B. Jackson Prize from the Association of American Geographers. Originally published in 1998, the plantation writes Charles Aiken is among the most misunderstood institutions of American history. The demise of the plantation has been pronounced many times, but the large industrial farms survive as significant parts of not just the South's but the nation's agriculture. In this sweeping historical and geographical account, Aiken traces the development of the Southern cotton plantation since the Civil War from the emergence of tenancy after 1865 through its decline during the Depression to the post-World War Two development of the large industrial farm. Tracing the geographical changes in plantation agriculture and the plantation regions after 1865, Aiken shows how the altered landscape of the South has led many to the false conclusion that the plantation has vanished. In fact, he explains, while certain regions of the South have reverted to other uses, the cotton plantation survives in a form that is in many ways remarkably similar to that of its antebellum predecessors. Aiken also describes the evolving relationship of African Americans to the cotton plantation during the thirteen decades of economic, social, and political changes from Reconstruction through the War on Poverty, including the impact of alterations in plantation agriculture and the mass migration of Southern blacks to the urban North during the

twentieth century Richly illustrated with more than 130 maps and photographs many original and many from FSA photographers The Cotton Plantation South is a vivid and colorful account of landscape geography race politics and civil rights as they relate to one of America s most enduring and familiar institutions
