**Bulletin**,1892 *Transnational solidarity* Zeina Maasri,Cathy Bergin,Francesca Burke,2022-07-26 Transnational solidarity excavates the forgotten histories of solidarity that were vital to radical political imaginaries during the long 1960s It decentres the conventional Western focus of this critical historical moment by foregrounding transnational solidarity with and across anticolonial and anti imperialist liberation struggles The book traces the ways in which solidarity was conceived imagined and enacted in the border crossings of nation race and class made by grassroots activists This diverse collection draws links between exiled revolutionaries in Uruguay post colonial immigrants in Britain and Greek communist refugees in East

Germany who campaigned for their respective causes from afar while identifying and linking up with wider liberation struggles Meanwhile Arab immigrants in France Pakistani volunteers and Iraqi artists found myriad ways to express solidarity with the Palestinian cause Neglected archives also reveal Tricontinental Cuban based genealogies of artistic militancy as well as transnational activist networks against Portuguese colonial rule in Africa Bringing together original research with contributions from veteran activists and artists this interdisciplinary volume explores how transnational solidarity was expressed in and carried through the itineraries of migrants and revolutionaries film and print cultures art and sport political campaigns and armed struggle It presents a novel perspective on radical politics of the global sixties which remains crucial to understanding anti racist solidarity today With a foreword by Vijay Prashad Cultural and Creative Mural Spaces Virginia Santamarina-Campos, Eva-María Martínez-Carazo, María de Miguel Molina, 2021-02-15 This book puts into context the evolution of mural art in recent years particularly the case of the contemporary muralism in Uruguay While the focus of this volume revolves around Uruguay the editors demonstrate that circumstances found in Uruguay are also reflected widely in a large number of cases worldwide Mural art has evolved from an elite audience to a more popular objective At the same time it does not lose the necessity of high value artists that not only technically but also conceptually will be able to connect to the audience and provide a sense of identity and necessity of preservation of this art This leads to a down top approach where different actors take part in the process from the conceptualization to the conservation Moreover mural art has been studied as a driver of local economic development attracting visitors and tourists can access these open air museums easily This book is of interest to students and researchers working in fine art heritage and museum studies
