of Americans John Weeks San Diego State University **Inter-generational Financial Giving and Inequality** Karen Rowlingson, Ricky Joseph, Louise Overton, 2017-04-07 This book makes a major contribution to our understanding of 21st century families in Britain through an exploration of intergenerational relationships Drawing on new and extensive quantitative and qualitative research the authors explore the giving and receiving of financial gifts Despite growing concern about intergenerational tension and even possible conflict the book finds evidence of a significant degree of intergenerational solidarity both within families at the micro level and between generations more generally within society at the macro level in Britain However given substantial inequalities within different generations as a result in particular of social class divisions some families are able to support each other far more than others This means that strong intergenerational solidarity may lead to the entrenchment of existing intragenerational inequalities The book will be of interest to scholars and students researching Sociology Social Policy Family Sociology Generations and Intergenerational Relationships Generations of Lucky Devils and Unlucky Dogs Henk A. Becker, 2015-06-17 Silver grey manpower is a gold mine to society One by one the baby boom cohorts will reach the age of 65 starting from 2010 They are large cohorts relatively well educated and healthy with considerable pension and health care rights In short they are lucky devils As a result of ageing cohorts that were born in 1985 onwards and that enter the labour market as from approximately 2010 will be required to pay many additional taxes during the course of their entire working life spanning more than forty years They are in short unlucky dogs Redistribution of joys and burdens could trigger conflicts between generations A better solution is to identify and deploy society's hidden resources Taking this issue as a basis the book in hand explores strategies that enable senior citizens and young people to give meaning to solidarity among generations for a start in 2012 as the European Year for Active Ageing but also as part of Europe 2020 the European Commission's 2010-2020 strategy With these two strategies journalists and television producers will swing into action In secondary and higher education as well as in universities more papers on life courses and patterns of generations will be written than ever before Senior citizens unions but actually all social organizations will organize lectures Educated laymen will wish to go deeply into this issue Henk A Becker 1933 is Professor Emeritus of Sociology at Utrecht University in the Netherlands He has worked on a research project focusing on generations since 1985 **Australian National Bibliography**, 1996 **Weight of Modernity** Cathy Banwell, Dorothy Broom, Anna Davies, Jane Dixon, 2012-12-30 Over a half of adults in the US Canada Australia and numerous European countries are now overweight or obese a proportion that has risen sharply in the past two decades Dominant biomedical explanations focus on the energy equation an imbalance between energy intake and expenditure and remedies focus on motivating individuals to restore the balance by eating better and being more active or in extreme cases surgical intervention This book offers a perspective that sees increasing obesity as a social phenomenon as well as a public health problem It contains detailed accounts of three generations of Australians experiences of changing environments and the emergence of social trends such as increasing availability of convenience

foods the individualisation and commercialisation of leisure car reliance and busyness Participants narratives are interwoven with sociological and historical analyses of changes to show how contemporary Australians are experiencing and adapting to dramatic socio cultural and environmental changes that are reshaping their lives and in many cases their bodies The book demonstrates that obesity is an unintended consequence of economic development accompanied by profound socio cultural changes and by identifying the key developments the authors propose leverage points While the research was conducted in Australia the fundamental drivers of rapid weight gain are equally present in other modern secular societies The British National Bibliography Arthur James Wells,1996 **RAWCHAMPS** Loluck,2021-03-17 All your moments in life are the result of your decisions Everyone is a champion by birth As we grow up the world around you challenges you and will start judging whether you were a real champion based on the decisions you made and the choices you took But at some point we make some decisions that change the course of our future Sometimes our decisions affect the decisions of people close to us or dependents life partners children parents employees colleagues etc These decisions determine who we are how we live and what we do Have you ever wondered what triggers those decisions Do you have a way to approach these moments in life How can you be sure that those decisions are right How can we change it once we are in These are some tough questions that we encounter in the time of decision making A right decision can make you a real champion and the wrong choice can be detrimental This book is a self help tool to answer these tough questions during life changing moments Are you ready to be a RAWCHAMP *The Emergence of Family Into the 21st Century* Patricia L. Bryant, Dennis L. Peck,2007 Publisher Description **After Evil** Robert Meister,2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn t presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect *Relativistic Reality: A Modern View* James D Edmonds Jr,1997-12-18 It now appears that the old argument about Lorentz vs Galileo relativity is

passing into history The Lorentz symmetry may soon become obsolete itself just as the Galileo symmetry did about 1900 The tremendous successes of QED represent real progress in our quest to understand nature The answer is not to go as most outsiders but to go forward beyond to new ideas and equations that will match nature even better than QED does This book shows us a new view of relativity and quantum equations It has new equations that extend Lorentz Maxwell and Dirac
