Miraculous Metamorphoses The Neoliberalization Of Latin American Populism:

Miraculous Metamorphoses J. Demmers, A.E. Fernandez Jilberto, Barbara Hogenboom, 2001-03 This volume examines a central conundrum of Latin American politics How is that the triumph of neoliberal inspired economic restructuring in the 1980s and 90s did not cause the political demise of populist movements What is remarkable as these scholars show is that Latin American populist parties which had long been associated with statist quasi Keynesian even demagogic economic policies have survived the transition to the much harsher era of free markets privatisation unemployment and increasing inequality And without apparently losing their political popularity in contrast both to the far left and traditional oligarchic parties Indeed Latin American populist forces seem to have made neoliberalism their own The Editors have carefully chosen from South and Central America a representative set of countries through which to explore this phenomenon Argentina Chile Brazil Peru Ecuador Mexico El Salvador and Nicaragua What emerges is an up to date nuanced modern political history of Latin America which does full justice to the distinctive political paths of each country while at the same time making clear the significant extent to which the region's populist tradition as a whole has adapted to the new economic realities This is in marked contrast to the very different political trajectories of Africa and Asia in the past two decades *Big Business and Economic Development* Barbara Hogenboom, Alex E. Fernández Jilberto, 2006-12-21 Bringing together an international and multidisciplinary group of experts this is the first comprehensive volume to analyze conglomerates and economic groups in developing countries and transition economies Using sixteen in depth case studies it provides a comparative framework for the study of contemporary process of privatization economic and financial liberalization and neoliberal globalization Exploring the various causes and economic social and political effects of the rise of big business in Asia Latin America Africa and Eastern Europe the main issues that are examined include the nature of contemporary economic concentration the relations between local and external investors the impact on development and on economic and political control over its direction the new role of the state towards conglomerates and economic groups the effects of economic and political changes on the legitimacy of the state and large companies This volume is perfect as either a textbook or supplementary reading for students at all levels as well as researchers and governmental and non governmental professionals working and studying in the fields of international business and economic development

Good Governance in the Era of Global Neoliberalism Jolle Demmers, Alex E. Fernández Jilberto, Barbara Hogenboom, 2004-08-02 This new collection critically examines the new global policy of good governance This catchphrase of aid policy and development thinking has been the subject of too little analysis to date This book redresses the balance It

places the prefix good and exactly what that means under the microscope and examines the impact of neoliberal governance in a wide range of countries and territories including Chile Russia Argentina and Indonesia

US Power in Latin America Rubrick Biegon, 2017-04-21 An original account of contemporary US Latin American relations this book utilises neo Gramscian and historical materialist approaches to build a novel conceptual framework for analysing US hegemony extending critical theory in new and exciting directions It disaggregates US power into distinct forms structural coercive institutional and ideological to convincingly argue that the United States is remaking its hegemony in the Western hemisphere The first decade of the new century saw the ascendancy of leftist and centre left forces in Latin America The emergence and consolidation of the New Latin Left signalled a profound challenge to the long standing hegemony of the United States in the region This book details the ways in which US foreign policy responded defining hegemony as a dialectical relationship patterned by multiple and overlapping forms of power it situates US policy in the context of the Post Washington Consensus Making considerable use of confidential diplomatic cables published by Wikileaks it examines the interplay of different facets of US hegemony which are inextricably bound up in the neoliberalisation of the region s political economy This book brings clarity to what remains an open and contested process of hegemonic reconstitution and promises to be of interest to scholars working in a number of overlapping subject areas including International Relations IR US foreign policy and Latin American studies

Populist Nationalism in Europe and the Americas Fernando López-Alves, Diane E. Johnson, 2018-10-10 Populist nationalism fuses beliefs that citizens are being exploited by a privileged elite with claims that the national culture and interests are under threat from enemies within or without Ideologically fluid populist nationalists decry out of touch institutions such as political parties and the mainstream press while extolling the virtues of the people They claim that only populists can truly represent the nation and solve its problems and often call for unorthodox solutions that appeal to the common people The recent spread of populist nationalism throughout the world has triggered a growing interest in the subject led mainly by journalists The Brexit vote and the election of Donald Trump in the US have provoked a flurry of media coverage in Europe and the Americas along with parliamentary debates Some social scientists have sought to explain the resurgence of nationalism and the spread of populism in recent decades but important questions remain and most of the scholarship has not adequately addressed the fusion of nationalism and populism It fails to examine the combination of populism and nationalism comparatively especially the contrast between the more progressive and leftist versions such as those in Latin America and the more traditional conservative varieties that are gaining strength in Germany the United Kingdom and the United States This interdisciplinary collection by experts on Europe and the Americas fills this void The volume examines various experiences with populist nationalism and offers theoretical tools to assess its future Some chapters are in depth country case studies and others take a broader perspective but all open the door for meaningful comparison

Latin America Facing China Alex E. Fernández Jilberto, Barbara Hogenboom, 2012 The last quarter of the twentieth

century was a period of economic crises increasing indebtedness as well as financial instability for Latin America and most other developing countries in contrast China showed amazingly high growth rates during this time and has since become the third largest economy in the world Based on several case studies this volume assesses how China's rise one of the most important recent changes in the global economy is affecting Latin America's national politics political economy and regional and international relations Several Latin American countries benefit from China's economic growth and China's new role in international politics has been helpful to many leftist governments efforts in Latin America to end the Washington Consensus The contributors to this thought provoking volume examine these and the other causes effects and prospects of Latin America's experiences with China's global expansion from a South South perspective **Neoliberalization** Kim

England, Kevin Ward, 2011-07-20 The book is an analysis of cultural social as well as political economic expressions of neoliberalization and argues for an appreciation of the relational geographies of neoliberalization In depth empirical research spanning a variety of world regions A range of topics including homelessness comparative politics economic development and social policy Reviews how neoliberalism is enacted as a way to highlight the complexity and contingency of this economic model Engages in debates within anthropology gender studies geography health studies international studies planning political science and sociology Human Security, Changing States and Global Responses Sangmin Bae, Makoto

Maruyama, 2014-12-05 This book critically assesses the human security challenges faced by states focusing on how and to what extent the state is influenced by global structures and operations Having grown rapidly since the 1990s the field of human security has spawned a wide variety of academic research This research has helped to reconceptualize the notion of security both broadening and deepening it and it has created a space where unconventional and multidimensional forms of security inform international policy practices However while various issues and cases of human security have received growing academic attention and policy interest many of the existing books on human security focus primarily on non state actors This leaves a key question unanswered why do sovereign states take on leadership roles in promoting human security To answer the question of why and how national governments influence international human security policy this volume examines the domestic political factors and structures that mediate the range of policy choices Important domestic variables include the cultural match e g Does the country often favor multilateralism and promote a rule bound international society the nature of the political interests and realities that are present e g Does the country see the promotion of human security as a strategic choice and the occurrence of important historical events such as wars revolutions or natural disasters e g Does the country during the crisis help to foster a new way of managing enduring security threats Using this line of analysis the book illuminates the role of the state in handling critical human security issues and its rationale for doing so This book will be of much interest to students of human security peace studies global governance development studies and IR in general
