Susan Franceschet, Jordi Díez

More With Less Work Reorganization In The Canadian Mining Industry:

More with Less Bob Russell, 1999-01-01 The massive changes under way in capitalist commodity production include the transition from a traditional or Fordist approach to a post Fordist one involving practices such as employee involvement continuous improvement and gainsharing In this research monograph Bob Russell explores the changing character of industrial relations and labour processes in two staple industries potash and uranium mining Using an innovative case analytic approach Russell compares the managerial strategies used by five transnational firms As indicated by his title *More with Less* he sees the shift toward post Fordism as having more to do with the intensification of labour accomplished in part through the creation of multitasked positions than with worker empowerment and the transcendence of class conflict Russell combines extensive empirical analysis with a review of contemporary writing on work relations and labour processes to provide this intensive political economic perspective on the capital labour relation His meticulous research will interest scholars and professionals in Canada the United States Britain Europe and Australia **Comparing Quebec and Ontario**

Rodney Haddow, 2015-03-27 Can sub units within a capitalist democracy even a relatively decentralized one like Canada pursue fundamentally different social and economic policies Is their ability to do so less now than it was before the advent of globalization In *Comparing Quebec and Ontario* Rodney Haddow brings these questions and the tools of comparative political economy to bear on the growing public policy divide between Ontario and Quebec Combining narrative case studies with rigorous quantitative analysis Haddow analyses how budgeting economic development social assistance and child care policies differ between the two provinces The cause of the divide he argues are underlying differences between their political and economic institutions An important contribution to ongoing debates about globalization's golden straightjacket

Comparing Quebec and Ontario is an essential resource for understanding Canadian political economy **Remaking Policy** Carolyn Hughes Tuohy, 2018-01-01 In *Remaking Policy* Carolyn Hughes Tuohy advances an ambitious new approach to understanding the relationship between political context and policy change **Work in Tumultuous Times** Vivian

Shalla, Wallace Clement, 2007-03-12 Using a progressive approach to political economy contributors propose alternative policies and practices that might secure more decent livelihoods for workers and their families **Smiling Down the Line** Bob Russell, 2009-09-12 Just as textile mills and automotive assembly plants have symbolized previous economic eras the call centre stands as a potent reminder of the importance of information in contemporary economies Bob Russell's *Smiling Down the Line* theorizes call centre work as info service employment and looks at the effects of ever changing technologies on service work its associated skills and the ways in which it is managed Russell also considers globalization and contemporary managerial practices as centres are outsourced to poorer countries such as India and as new forms of management are introduced refined and discarded Invoking extensive labour force surveys and interviews from Australia and India Russell examines employee representation work intensity stress emotional labour and job skills in the call centre work environment

The cross national approach of *Smiling Down the Line* highlights the effects of globalization and scrutinizes the similarities and differences that exist in info service work between different industries and in different countries

Educational Regimes and Anglo-American Democracy Ronald A. Manzer, 2003-01-01 Manzer's comparative political study of schools in Australia Canada New Zealand the United Kingdom and the United States focuses on five fundamental problems in the historical development of Anglo American educational regimes the original creation of systems of elementary education in the nineteenth century as publicly provided and publicly governed the transformation of secondary schools in the early twentieth century to match the emerging structure of occupational classes in capitalist industrial economies the planning for secondary schools in the development of the welfare state after the Second World War the accommodation of social diversity in public schools from the 1960s to the 1990s in response to increasingly strong assertions of ethnicity language race and religion not only as criteria for equal treatment but also as foundations of communal identity and more

Wrestling with Democracy Dennis Pilon, 2013-06-17 Though sharing broadly similar processes of economic and political development from the mid to late nineteenth century onward western countries have diverged greatly in their choice of voting systems most of Europe shifted to proportional voting around the First World War while Anglo American countries have stuck with relative majority or majority voting rules Using a comparative historical approach *Wrestling with Democracy* examines why voting systems have or have not changed in western industrialized countries over the past century In this first single volume study of voting system reform covering all western industrialized countries Dennis Pilon reviews national efforts in this area over four timespans the nineteenth century the period around the First World War the Cold War and the 1990s Pilon provocatively argues that voting system reform has been a part of larger struggles over defining democracy itself highlighting previously overlooked episodes of reform and challenging widely held assumptions about institutional change

Comparative Public Policy in Latin America Susan Franceschet, Jordi Díez, 2012-01-01 This pioneering collection offers a comprehensive investigation into how to study public policy in Latin America While this region exhibits many similarities with the North American and European countries that have traditionally served as sources for generating public policy knowledge Latin American countries are also different in many fundamental ways As such existing policy concepts and frameworks may not always be the most effective tools of analysis for this unique region To fill this gap *Comparative Public Policy in Latin America* offers guidelines for refining current theories to suit Latin America's contemporary institutional and socio economic realities The contributors accomplish this task by identifying the features of the region that shape public policy including informal norms and practices social inequality and weak institutions This book promises to become the definitive work on contemporary public policy in Latin America essential for those who study the area as well as comparative public policy more broadly

New Institutionalism André Lecours, 2005-01-01 Featuring discussions of comparative politics public policy and international relations this collection from editor Andr Lecours is a comprehensive examination of the subject making it a

crucial addition to any political scientist's library *One Job Town* Steven High, 2018-05-04 There's a pervasive sense of betrayal in areas scarred by mine mill and factory closures Steven High's *One Job Town* delves into the long history of deindustrialization in the paper making town of Sturgeon Falls Ontario located on Canada's resource periphery Much like hundreds of other towns and cities across North America and Europe Sturgeon Falls has lost their primary source of industry resulting in the displacement of workers and their families *One Job Town* takes us into the making of a culture of industrialism and the significance of industrial work for mill working families *One Job Town* approaches deindustrialization as a long term economic political and cultural process which did not begin and simply end with the closure of the local mill in 2002 High examines the work life histories of fifty paper mill workers and managers as well as city officials to gain an in depth understanding of the impact of the formation and dissolution of a culture of industrialism Oral history and memory are at the heart of *One Job Town* challenging us to rethink the relationship between the past and the present in what was formerly known as the industrialized world *The Economic Implications of Social Cohesion* Jeff Dayton-Johnson, 2003-01-01 Essays examine the impact of social networks and collective action on growth and other economic outcomes contributing to understanding of the interaction between economic processes and their social framework Land, Stewardship, and Legitimacy Andrea Olive, 2014-03-21 Canada and the United States are similar in terms of the species of wildlife that mingle freely across their shared border Despite this similarity however there are significant differences between approaches to wildlife management in these two nations In *Land Stewardship and Legitimacy* Andrea Olive examines the divergent evolution of endangered species policy on either side of the 49th parallel Examining local circumstances in areas as distant and diverse as southern Utah and the Canadian Arctic Olive shows how public attitudes have shaped environmental policy in response to endangered species law specifically the Species at Risk Act in Canada and the Endangered Species Act in the U S Richly researched and accessibly written this is the first book to compare endangered species policy on both sides of the Canada U S border It will appeal to students and scholars of environmental policy politics and ethics and anyone interested in current approaches to wildlife management **Risky Business** G. Bruce Doern, Edward James Reed, 2000-01-01 The essays in this volume ask what risks Canadians might be exposed to as fiscal pressures strain the capacity of regulators in areas such as food drugs pesticides fisheries and the environment **A Tribute to David N. Wilson** , 2010-01-01 This volume was commissioned by the World Council of Comparative Education Societies in memory of their Past President David N Wilson who died on December 8 2006 Professor Wilson was also President of the Comparative and International Education Society of Canada the Comparative and International Education Society US and the International Society for Educational Planning A call for papers was sent out to his colleagues worldwide and many of his colleagues friends and former students contributed chapters to this book David N Wilson was educated at Syracuse University as an educational planner and he had a lifelong career at the Ontario Institute for Studies in Education at the University of Toronto His main interests are reflected

in the five major themes in this book Africa and Development Technical and Vocational Education and Training Cross Cultural Issues Policy Development and Comparative Education Each author places his or her work firmly within these areas of interest and explains how their work or life experiences were influenced by him Several of his children also contributed to the Introduction and Crain Soudien the 2007 2010 President of the WCCES wrote the Preface Together all of the chapters provide a fitting tribute to a man whose heart in the words of his former student Suwanda Sugunasiri was always clamouring for a better world This work was supported financially by the Comparative International and Development Education Centre at OISE University of Toronto and morally by his colleagues in every part of the world *Policy Paradigms, Transnationalism, and Domestic Politics* Grace Skogstad, 2011-10-08 Policy Paradigms Transnationalism and Domestic Politics offers a variety of perspectives on the development of policy paradigms the ideas that structure thinking about what can and should be done in a policy domain In this collection international experts examine how both transnational actors and domestic politics affect the structuring of these paradigms As well as theoretical chapters this volume includes six case studies showing ideas at work in a diverse range of policy domains from the recognition of same sex unions to risk regulation of genetically modified organisms These qualitative analyses show how transnational activities shape policy paradigms by building consensus on ideas about feasible and desirable public policies across authoritative decision makers Expertly researched and assembled Policy Paradigms Transnationalism and Domestic Politics provides insight into the conditions under which different transnational actors can bring about changes in the core ideas that affect public policy development

Municipalities and Multiculturalism Kristin Good, 2009-10-14 The Canadian model of diversity management is considered a success in the international community yet the methods by which these policies are adopted by local governments have seldom been studied Municipalities and Multiculturalism explores the role of the municipality in integrating immigrants and managing the ethno cultural relations of the city Throughout the study Kristin R Good uses original interviews with close to 100 local leaders of eight municipalities in Toronto and Vancouver two of Canada's most diverse urban and suburban areas Grounded by Canada's official multiculturalism policies she develops a typology of responsiveness to immigrants and ethno cultural minorities and offers an explanation for policy variations among municipalities Municipalities and Multiculturalism is an important examination of the differing diversity management methods in Canadian cities and ultimately contributes to debates concerning the roles that municipal governments should play within Canada's political system *Globalisation and its Discontents* John Wiseman, 2000-06-13 Most analyses of globalization convey the message that it is an unstoppable force sweeping away national sovereignty and inevitably creating a brave new world of borderless and boundless consumerism In such a context politics and democracy become irrelevant This collection of essays develops a more critical and grounded analysis of the nature and implications of globalization Many of the contributions to this book conclude that there are real political choices to be made Even though the economic context

has changed politics still matters **Intelligent Control** Willem De Lint, Alan Hall, 2009-01-01 Investigating the ways in which police practices have evolved in relation to labour strikes and protests Intelligent Control examines the means by which police forces have developed more coercive and consent based approaches to regulating social unrest Deliberative Democracy for the Future Genevieve Fuji Johnson, 2008-06-13 In today's world public policies are increasingly associated with social and environmental risk and scientific uncertainty Given such potential impacts on the moral freedom and equality for existing and future generations policies should reflect decision making standards beyond those of economic efficiency and technical safety They should reflect the imperatives of social justice and democratic legitimacy now and into the future Deliberative Democracy for the Future identifies an approach to ethical policy analysis that promises to serve the ends of justice and legitimacy in areas of public policy such as hazardous waste management energy generation and regulation climate change control and genomics research and commercialization Based on a wide reading of ethical approaches to policy analysis found in contemporary political theory moral philosophy and public policy literatures it evaluates these three central approaches to ethical policy analysis in light of moral dilemmas arising in a particularly timely case Canadian nuclear waste management policy The volume's central argument is that the most desirable approach to ethical policy analysis contains the philosophical tools necessary to address problems of understanding risk and safety identifying obligations to both existing and future generations and conceptualizing legitimacy conferring decision making processes Genevieve Fuji Johnson argues that neither welfare utilitarianism nor modern deontology is sufficiently equipped for these tasks She proposes that only deliberative democracy contains convincing conceptions of the good justice and legitimacy that provide for the justifiable resolution of debates about the moral foundations of public policy Responding to challenges in nuclear waste management in ways more comprehensive and more tenable than both utilitarianism and deontology deliberative policy analysis promises to be an effective approach to other cases associated with risk uncertainty and futurity

Internationalization and Canadian Agriculture Grace Skogstad, 2008-09-06 In recent decades Canada's agricultural industry one of the world's largest has had to adjust to global trade developments such as the North American Free Trade Agreement NAFTA and the World Trade Organization Internationalization and Canadian Agriculture examines the patterns of continuity and change in Canadian agricultural policy making in important areas like farm income support programs prairie grain marketing supply management animal and food product safety and the regulation of genetically modified crops and foods Arguing that the effects of internationalization have been mediated by Canada's political institutional framework Grace Skogstad demonstrates how the goals and strategies of authoritative political actors in Canada's federal and parliamentary systems have been decisive to policy developments Skogstad details the interaction between agriculture and the political economy of Canada shows how international and domestic trade shape Canadian agricultural policies and argues that while agricultural programs have changed the post war state assistance agricultural paradigm has persisted A thorough political

analysis and history of late twentieth and early twenty first century Canadian agricultural policy and policy making
Internationalization of Canadian Agriculture is an important contribution to political economy and public policy

Getting the books **More With Less Work Reorganization In The Canadian Mining Industry** now is not type of inspiring means.
