Is one kind kiss enough to change friends into soul mates? ONE KIND TOUCH Being here in Maplehaven was healing Carter. Being with Dena was helping. Tonight might cure him completely. Dena Brenton crunches numbers at her family's sawmill in Maplehaven, Vermont. Carter Bennett breathes life into the video games he creates. When trouble finds Dena at a conference in Rhode Island, she retreats to the safety of Maplehaven. Carter is ready to be there for her but she's done the calculations and putting herself in safe mode is the only way to keep any potential threats outside her perimeter. Is one kind touch enough to resume the game? **Protected** Christine DePetrillo, 2019-11-11 Tech geek and former soldier Ghared Timms can't believe his best friend and brother in battle Deo Lazitter is still alive. He'd been there when the news of the man's death had been announced. He'd held Deo's sister Darina in his arms as they'd both lamented. He'd been missing his buddy for years. Now a former associate of the late Mikale Warres has produced Deo's dog tags and claims to have been working undercover with Deo inside Warres's organization. Ghared promises to find Deo no matter what it takes. Even if it means going undercover himself. Warres's step sister Sasha Boissette is looking for an ally. She can't bring down an entire organization obsessed with continuing Mikale's mission, especially when that organization is expecting her to lead them. When a new recruit shows up at headquarters, however, he may be just the man she needs. If she can trust him. Staying protected is hard when your heart wants to risk it all. One Kind Desire Christine DePetrillo, 2022-06-07 I'm hot. In places I shouldn't be hot. Not for Daniel Mariano. Scoring a work trip back home to Vermont is a dream for Robin Sideris. Having to go with her sworn enemy Daniel Mariano is a nightmare. They've made careers of avoiding contact but there's no steering clear of each other on this new assignment to a small town. Robin will find a way to get this job done so she can prove she's ready to be more than the company's statistics geek. All data suggests this trip isn't going to be easy but she isn't going to let Daniel stand in the way of her career goals. Even if he is a Roman god. Daniel isn't thrilled with the prospect of spending an entire week with Robin for this assignment. All they've done at work is glare at each other and stay in their opposite corners of the office. It's totally his fault she hates him but so what. Her number crunching keeps shooting down his new ideas for products. Is he supposed to be delighted to work with someone like that? Hell no. This trip could mean a promotion though so he'll suck it up and soldier through somehow. Can an eight-hour flight in too close seats, the sharing of a cozy cabin, the discovery of common goals, and the electricity that shoots through Robin and Daniel every time they touch bring them success in work and love? Is one kind desire enough to turn animosity into attraction? One
