More Than Fine Writing Child, Mrs, Heather Child, 1989-06-13 More Than Fine Writing University of Bath. Crafts Study Centre, 1986 *Planting Letters and Weaving Lines* Jonathan Homrighausen, 2022-10-15 The illuminations of The Saint John s Bible have delighted many with their imaginative takes on Scripture But many struggle to appreciate the calligraphy more deeply than merely noting its beauty Does calligraphy mean something How is it beautiful This book written by a biblical scholar who has spent years working with this Bible shows how calligraphic art powerfully interplays visual form textual content and creative process Homrighausen proposes five lenses for this artform gardens weaving pilgrimage touching and enfleshing words Each of these lenses springs from the poetry of the Song of Songs its illuminations in The Saint John s Bible and medieval ways of understanding the scribe s craft While these metaphors for calligraphic art draw from this particular illuminated Bible this book is aimed at all lovers of calligraphy art and sacred text

a question is distinct both from a conclusion and from an assertion and an assertion will be found to be equally distinct from a conclusion For if we rest our affirmation on arguments this shows that we are not asserting and when we assert we do not argue An assertion is as distinct from a conclusion as a word of command is from a persuasion or recommendation Command and assertion as such both of them in their different ways dispense with discard ignore antecedents of any kind though antecedents may have been a sine qu non condition of their being elicited They both carry with them the pretension of being personal acts Aeterna Press **The Victorian Age in Prose** ,2023-12-14 How Literature Works Kenneth

Quinn,1992-07-21 In How Literature Works important issues of literary theory are vividly illustrated by application to a wide variety of texts many quoted and discussed at length The theoretical aspects covered include the structural characteristics of literary texts the psychology of the reading process and the social function of literature The book also deals with such general questions as the relationship between literary texts and objective prose and the relationship between poems written to work as songs and those in which the lyric form is used to develop an argument the singing and the speaking voice

Lanham,2006-04-21 If economics is about the allocation of resources then what is the most precious resource in our new information economy Certainly not information for we are drowning in it No what we are short of is the attention to make sense of that information With all the verve and erudition that have established his earlier books as classics Richard A Lanham here traces our epochal move from an economy of things and objects to an economy of attention According to Lanham the central commodity in our new age of information is not stuff but style for style is what competes for our attention

amidst the din and deluge of new media In such a world intellectual property will become more central to the economy than real property while the arts and letters will grow to be more crucial than engineering the physical sciences and indeed economics as conventionally practiced For Lanham the arts and letters are the disciplines that study how human attention is allocated and how cultural capital is created and traded In an economy of attention style and substance change places The new attention economy therefore will anoint a new set of moguls in the business world not the CEOs or fund managers of yesteryear but new masters of attention with a grounding in the humanities and liberal arts Lanham s *The Electronic Word* was one of the earliest and most influential books on new electronic culture *The Economics of Attention* builds on the best insights of that seminal book to map the new frontier that information technologies have created *Arthur Brandon.
